American Railroad Journal.

New York, Saturday, January 2, 1875.

The Pennsylvania Railroad and the Hoosac Tunnel Line.

The North Adams (Mass.) Transcript says there is a report that Col. Scott and the Pennsylvania Railroad Company have a plan to control the unfinished Massachusetts Central Railroad, secure the Tunnel line, build 50 miles from North Adams via Hancock and Stephentown to Albany, thence over the Albany and Susquehanna Railroad to Binghamton, whence a line 30 miles from that town, following the old canal bed, which has been ceded by the State of New York, taps the Pennsylvania Railroad branch to Elmira at or near Athens, N. Y.

To control the Massachusetts Central only $1,500,000 is necessary. Already three-fourths of the work is done on the ninety-two miles from Weston to Northampton, $2,500,000 having been expended. The above controlling sum is sufficient to lay the rails and put on the equipment. The branch from North Adams to Albany has been surveyed, and it will not cost over $40,000 a mile. The road from Binghamton is hardly more than laying the rails. There is a charter in existence to build a seven mile road from Weston on the Fitchburg road to a point north of Waltham, thence across to Somerville, going into Boston over the Lowell road.

New Orleans, Mobile and Texas Railroad.

A meeting of the bondholders of this road was held in this city on the 23d ult., L. Von. Hoffmann, Esq., in the chair. The road begins at Westwego, six miles above New Orleans, and ends at Bayou Goula. It was resolved that the Western branch of the road be pushed on as far as Grand River, fourteen or fifteen miles beyond the present terminus. This, it was stated, would give the road connections with the mail boats which touch at this point. The proposed extension would cost about $250,000. A committee, consisting of ex-Governor E. D. Morgan, Charles Morgan, L. P. Morton, Charles Moran and L. Von Hoffmann, was appointed to consider the matter, and also to report upon the further extension of the road to Texas. It is proposed to issue certificates for the extension to Grand River, which shall be a prior lien on the road.

Texas and Pacific Railway.

Col. Thomas A. Scott, in his argument made to the Senate Committee on Railroads, on the 14th ult., gave the following explanation as to the condition of the company and the work it had accomplished:

As a consequence, these $10,000,000, which have been expended, represent not only 261 miles of constructed and equipped road, the greater portion of which has been examined and accepted by the Government, but also 126 miles of additional road graded, bridged, and tied between Brookston and Texarkana, and west from Sherman and east from San Diego, and also the cost of determining the proper line by actual and full surveys, with estimates for construction across the continent, showing the amount necessary to build and equip the same to Government standard.

The Construction Company is entitled to certain bonds and stock to represent this expenditure, and part of these bonds that company has pledged as security for the payment of part of the money expended by them in constructing and equipping the road, so that the proceeds of the bonds, whose interest, it is hoped, will be guaranteed by the Government, will enable the railway company to pay this debt without profit, release the existing bonds now held as collateral, and give the Government the first lien upon the entire road, its equipment, Government lands and franchises.

In addition to the obligations to the Construction Company, the Texas and Pacific Railway Company has a floating debt of about $700,000—the greater part of it resulting from the purchase of the roads consolidated with it under authority from Congress. This, in part, represents 64 additional miles of railway constructed and operated by the company. To take care of this floating debt, the company has the original bonds which it created on the part of the line so purchased and now operated by it.

The 325 miles of road now controlled and operated are as follows:

	Miles.
From Shreveport to Eagle Ford, 8 miles west of Dallas	195
From Marshall to Texarkana	74
From Sherman to Brookston	56
	325

The entire mileage of the roads embraced in the bill is as follows:

TEXAS AND PACIFIC LINE.

	Miles.
Marshall via Dallas and Fort Worth to San Diego	1,685
Marshall to Texarkana Junction	69
Texarkana to Fort Worth	286
Total Texas and Pacific	1,940

ATLANTIC AND PACIFIC LINE.

From Vinita to junction with Texas and Pacific, about	400

The roads proposed to connect with every Southern road at Vicksburg and New Orleans, are as follows;

	Miles.
Shreveport to Monroe (thus completing the Vicksburg connection)	105
Shreveport to New Orleans	235
	340

Western Counties Railway.

The friends of this important work will be pleased to learn that the rails are now laid out beyond Ohio a distance of nearly eight miles. A large portion of the ballasting is done; and the freight trains will be running to Ohio in a few weeks. The Company are about purchasing 100 tons of rails, which will extend up to the Harrington Road, twenty miles from Yarmouth. The grading up to this point is nearly all done; two miles are graded at Meteghan, and five miles near Digby. The work is being pushed forward as rapidly as possible, and the road will be open for traffic to Meteghan during next year.—*Yarmouth Tribune.*

Southern Pacific Railroad.

The earnings of this road for the years ending June 30, 1873 and 1874, were as follows:

	1873.	1874.
From freight	$456,201 49	$504,256 42
" passengers	469,789 63	512,687 53

Miscellaneous exp.	2,606 84	1,294 49
Mail service	1,057 33	1,000 00
Loss and damage (property)	1,660 19	4,274 80
Damages	3,801 75	612 15
Telegraph service	620 78	518 23
	$458,739 14	$463,674 34
Net earnings	$576,572 42	$699,063 99

For the year ending June 30, 1872, the earnings were $728,856 01, the expenses $376,278 11, and the net earnings $347,577 90. From October 1, 1870, to June 30, 1871, (nine month) the earnings were $430,097 50, the expenses $222,427 06, and the net earnings $207,670 44—showing that while the earnings have increased, the ratio of operating expenses to earnings has decreased; being 52 per cent in 1872, 44.3 per cent in 1873, and 39.8 per cent in 1874. The President, in his report, says:

Since the last report, the Contract and Finance Company that has the contract for building the road has completed 75 miles, which, with the amount given in previous reports, make 278 miles of completed road.

THE LOS ANGELES DIVISION.

As your board thought that it would be for the best interest of the company to build that portion of your road from Los Angeles, via San Gorgonio, to Fort Yuma, on the Colorado river to secure the trade of Arizona and Sonora, before completing the road from the Tulare Valley to Los Angeles, they have built 50 miles on that division during the past year. But as this division is not connected with that portion of the road running out from San Francisco, and as it can hardly be said, as yet, to have been fully opened for general business the earnings have been light, and are not included in the preceding statement.

ORGANIZATION.

The present organization of the Southern Pacific Railroad Company was effected October 12, 1870, by the consolidation of the following companies, viz: The San Francisco and San Jose Railroad Company, The Southern Pacific Railroad Company, the Santa Clara and Pajaro Valley Railroad Company, and the California Southern Railroad Company, all of which had been duly incorporated under the laws of the State of California. By virtue of the consolidation, the new company succeeded to all the rights, privileges and franchises of the companies above named.

The object of the new corporation was to construct, equip, maintain and operate a line of railroad from the city of San Francisco to a point on the Colorado river, in the southeastern portion of the State, a distance of say six hundred and twenty nine miles, with a branch from Tehachapa pass to the Colorado river, at or near Fort Yuma, a distance of say three hundred and fifty three miles.

GRANTS FROM THE STATE OF CALIFORNIA AND THE CITY OF SAN FRANCISCO.

Your company has received from the State of California a grant of thirty acres of land, situated in what is known as Mission Bay, in the city of San Francisco, an equal amount having been granted to the Central Pacific Railroad Company.

Since the last report the tracks have been extended down Fourth street to Louisiana street, and thence along the water-front on that street to Eldorado street. This extension will secure the object so long desired, the bringing together of ship and car, and will largely increase the earnings of the road.

LAND GRANT OF THE UNITED STATES GOVERNMENT.

As before stated, the contract for building the road is such that it leaves to the company, unincumbered, all the lands granted by the Act of Congress, except the right of way 200 feet wide through the public lands.

The length of road upon which lands have been granted is, say, nine hundred and thirty two miles. The grant embraces all unoccupied lands designated by odd-numbered sections for twenty miles on each side of the road; and when any of these odd-numbered sections have been reserved or otherwise disposed of, the company has the right to select a sufficient amount from the unappropriated lands between the twenty and thirty mile limits to make up the deficiency. From examinations made in the local land offices, it has been ascertained that there is a sufficient amount of vacant land between the twenty and thirty mile limits from which to select, in place of land settled upon, or reserved within the boundaries of the grant proper. It is therefore safe to say that the company will receive, upon the completion of the road, the full amount of land covered by the grant. The land agent of the company, after a careful examination and classification of the lands, places their value, at a low estimate, at $30,000,000; and it is with much satisfaction that you can contemplate the ownership of this immense property, especially when you consider that its value to yourselves and the country has nearly all been created by your own energy and perseverance.

Your board would recommend that the lands be sold to actual settlers, at low rates, according to location and quality, as soon as arrangements for their sale can be completed, as it will be much more advantageous to the company to sell their lands at low prices, and have them brought under cultivation at once, than to hold them, even though much higher prices could be realized after a few years.

The policy of the general government, in granting each alternate section of land to aid in the construction of railroad lines through those districts far removed from navigable waters, is fully justified by the rapid increase in the value of lands along the line of road so constructed.

Before the Southern Pacific Railroad was built, land in some of the great valleys through which it runs was of very little value, and there was no market for it even at the minimum government price of $1 25 per acre; while now, with the road in operation, it is being rapidly taken up at the price fixed by the government, which is twice that charged for lands unaffected by these improvements, so that the government not only receives the same amount of money that it would have received if no grant had been made to the railroad company, but also has a market for its lands where there would have been none without the road. And this is not all; the construction of a line of railroad, with all the necessary fixtures and buildings, adds largely to the amount of taxable property in every township through which it passes, and thus tends to lighten taxation on the people who settle along the line of the road.

PROSPECTIVE BUSINESS OF THE ROAD.

There are several considerations that have an important bearing upon the prospective business of your road, which demand special notice:

First.—The construction of the railroad from Watsonville to Santa Cruz. This railroad will pass through the extensive red wood forests, and will afford a vast tonnage for your road, as the timber will find a ready market in large quantities in the Salinas and other valleys along the line. A branch road is also nearly completed from your road to Monterey, which will give that town an all rail connection with San Francisco and bring the business over your road.

Second.—The towns and villages through which the Southern Pacific Railroad passes afford the most delightful as well as the most available suburban residence. San Jose, Santa Clara, Redwood City, Menlo Park, Belmont, and other places equally well located, with a climate that is unsurpassed, with the intelligence and refinement of their citizens, and their educational and religious advantages, afford great inducement to all who are seeking quiet and delightful residences within easy access of the city. Already many of the business men of San Francisco are finding a home beyond the city limits, and the steady and rapid increase of this suburban population guarantees to your road a large and profitable local business.

Third.—The discovery of extensive deposits of coal in close proximity to the line of your road, which can be easily reached as the road is extended.

When we consider that coal from these deposits can be delivered in San Francisco over the low grades of your road at the minimum cost for transportation, and when we consider also the limited supply of coal on the Pacific coast from other sources, together with the fact that the road can supply itself with cheap fuel, and secure a large increase in its business in the transportation of coal for domestic and manufacturing purposes, the importance of this interest cannot well be overestimated.

Fourth.—The general location of the Southern Pacific Railroad is peculiarly favorable for developing and controlling a large and remunerative miscellaneous business, for it occupies almost the only passes through which a railroad extending from San Francisco to the Colorado river can be built, and must therefore command the entire business between San Francisco and the southern portion of California, as well as Northern Mexico and Arizona. At the Colorado river it will meet the Texas and Pacific Railroad, and when this connection is made, it will give your road a direct communication by rail with all the southern and southwestern portions of the United States, and the shortest line from San Francisco to New Orleans and the country bordering the Gulf of Mexico, over which you may look for much of the surplus grain from the southern half of California to pass on its way to the European market.

Fifth.—The country tributary to your road embraces nearly one third of the entire State of California, say 50,000 square miles. In traversing this large extent of country the road passes through some of the finest valleys in California, such as the San Jose, Santa Clara, Pajaro, Salinas, Tulare and the large and fertile valleys south of the Sierra Madre, in the counties of Los Angeles and San Bernardino. The soil in those valleys is exceedingly fertile, and produces all kinds of vegetables and grain of the temperate zones, and most of the fruits of the semi tropical regions, such as oranges, lemons, limes, olives, apricots, figs, etc., in great abundance. Recent experiments in the culture of tobacco, near Gilroy, where some four hundred acres were planted the past season, have shown that the soil in that part of the State is peculiarly adapted to that crop, the yield per acre being from 1,500 to 2,000 pounds of a superior quality, equal to the best Havana, and from 2,600 to 3,000 pounds per acre of the coarser varieties. Recent experiments have also demonstrated that jute, ramie and cotton can be grown in great abundance along the line of your road, for which the producer will always find a ready sale

and remunerative prices, as these products will bear transportation and thus have access to the world's markets.

Among the foot hills and on the slopes of the mountains are vast tracts of land abounding in wild oats and native grasses, which are very nutritious, and afford pasturage for sheep and cattle throughout the entire year; and the temperature is so mild, even in winter, that shelter is seldom required. Nearly all the land in the foot hills also produces the grape in great abundance, and much of it is considered the best vine land in the world, as it never fails to yield a crop. There are also immense tracts of timber land covered with redwood, red cedar, pine and other varieties, which will afford an extensive lumber business for the road; in short, the country traversed by and tributary to the Southern Pacific Railroad has almost every variety of land adapted to every branch of agriculture, with a mild and healthful climate, and is already attracting the attention of emigrants from the Eastern States, as well as from the nations of Europe, and is being rapidly taken up along the line of the road, and even in advance of its construction.

With all these vast and varied interests awaiting the construction of your road, the villages and cities with their rapid increase of population, the fertile valleys with their great abundance and variety of agricultural resources, the forests with their wealth of lumber, the mines with their vast supplies of coal and untold millions of the precious metals, we think you may reasonably hope for satisfactory dividends on your investments when the road is completed.

We cannot, however, ignore the fact that at this time a spirit of hostility against property held in a corporate capacity is being aroused and stimulated among the people by a small portion of the newspaper press and a class of people who never seem happy unless they are disturbing some legitimate interests.

The claim advanced is virtually this, in the case of railroads, that having been built and paid for by one company of men, they should be controlled by another who have no interest in them whatever, except as a means of transportation for themselves and the products of their own industry. But ownership and control can no more be separated in the management of railroads than in the conduct of any other legitimate business.

A sense of justice, as well as the necessities of the case, establish the principle that ownership and control must go together. Railroad companies must have passengers and freight to transport, or their investment will be unremunerative; and the people along railroad lines must have easy and rapid transportation, or the products of their industry would be of little value. And we hope and believe that the time will soon come when property in railroads properly managed will be as safe from excessive taxation, unfriendly legislation and enormous awards for damages to persons and property, as though owned by private individuals, for, in the end, excessive charges imposed upon the roads must be paid by those who use them.

The companies that are employing their time, energy and capital in constructing, equipping and operating railroads, and the agriculturists and manufacturers, are naturally and of right should be allies and not antagonists. And this fact will be fully recognized and understood when the agrarian war cry against corporate property has given place to more correct views of the relation between labor and capital. That portion of your road now completed and in operation is earning more than sufficient to pay the interest on its bonded debt, and is increasing in value from month to month. Still, your board would recommend that the company go forward with the work of construction with great caution, practicing the most rigid economy in operating the completed portion of your road, acquiring all necessary grounds for depots, sidings, machine shops and other necessary purposes, and thereby strengthening the credit of the company so as to give its securities a high standing in the great financial centres from which the capital necessary for the completion of the road must be drawn; and then, when the time comes, as it surely will, that capital invested in good railroad securities will be considered safe, this great work can be carried rapidly forward to completion.

At the close of the last fiscal year the company had 19 locomotives, all in good repair except one, which required rebuilding. The number and kind of cars on the road were as follows: 20 passenger, 1 passenger and baggage, 3 smoking, 6 baggage, 1 officers', 1 pay, 1 hunting, 189 box, 4 caboose, 14 stock, 91 flat, 12 dump, 1 boarding, 9 stone, 30 push, 1 wood and 25 hand cars. One stone, 2 hand and 3 push cars were added during the year. One stock car was changed to a box car. Seven passenger cars have been repainted and varnished and roofs raised. Eleven have been upholstered throughout with new material. Nine equipped with the Westinghouse Air Brake, and twenty with Miller's Platform and Buffer. All the passenger stock is now equipped with the Westinghouse Air Brake and the Miller Platform and Buffer. Two freight cars were rebuilt, new roofs put upon 31, and 81 repainted. Number of bridges repaired during the year, 16; culverts repaired, 38; cattle guards built, 13; do. rebuilt, 17; do. repaired, 19. A substantial stone culvert has been built in place of the Bernal Bridge, four miles south of San Francisco, at a cost of $19,119 67. A brick warehouse has been purchased at San Mateo, and is used as a freight warehouse. A water tank of 20,000 gallons capacity, and wind mill have been put up at Mountain View; also a water tank of same capacity at San Mateo. All buildings upon the line have been kept in good repair. The track has been well kept up throughout the year, and is now in good condition: 2,575 feet of new rail, 31,680 feet of rail partially worn, and 6,077 new ties have been used in repairs of main track; and 13,304 feet of old rail and 1,486 ties used in the extension of side tracks. The General Superintendent, in his report dated August 21, 1874, says:

The Southern Pacific Railroad in the San Joaquin Valley, leased to the Central Pacific, extends from Goshen to the North Bank of the Kern River, distance 71.3 miles, of which 29.8 miles (from Delano to the latter point) were opened up for business August 1st, 1874. The bridge over the Kern River, it is expected, will be completed and trains running into Bakersfield—distant about 2.4 miles, as early as October 1st.

The average number of miles of road operated for the year ending June 30th, 1874, exclusive of the above, was 157.2.

The number of miles of road in operation August 1st, 1874, was as follows:

San Francisco to Soledad	142.9
Carnadero Junction to Tres Pinos	18.0
Goshen to terminus (north bank of Kern River)	71.3
Total	232.2

The completion of the Salinas and Monterey Railroad (narrow gauge) is promised by the end of September. Work has also been commenced on the Santa Cruz and Watsonville Railroad, connecting with your road at Pajaro. Both of these roads, it is believed, will prove to be quite valuable feeders.

All that was promised concerning the percentage of operating expenses has been more than fulfilled, and the earnings compared with previous years show a steady increase in both freight and passenger business, which we confidently believe will continue.

It is a source of satisfaction that the road has been operated during the year without accident to its passenger trains—all trains having been run with great regularity, and without loss of life or injury to passengers.

Number of miles run by passenger trains, 216,561; by freight trains, 213,025; by miscellaneous trains, 82,518—total, 512,104, against 460,254 in 1873, an increase of 51,850. Cost of engine repairs per mile run, 7.58 cents; total cost per mile run, 31.46 cents.

Passengers carried southward, 180,833; do. northward, 171,711½—total, 352,544½, of whom 2,616 were through and 349,928½ way. Increase in passengers carried in 1874 over 1873, 22,069. Tons of freight carried southward, 69,025; do. northward, 123,542—total, 192,567, an increase over the previous year of 9,906.

The statement of Profit and Loss for the year ending June 30,1874, is as follows:

To general expense	$100,493 82
Taxes	88,906 19
Legal expenses	18,206 17
Interest	595,553 26
Insurance	125 00
Depreciation of buildings, etc	3,474 26
Sundry accounts	697 02
Total	$757,455 72
By balance, June 30, 1873	$50,842 17
Income account, June 30, 1874	699,063 99
Balance, June 30, 1874	7,549 56
Total, as above	$757,455 72

BALANCE SHEET, June 30, 1874.

Construction account	$12,955,506 87
Real estate	532,725 00
Land account	22,511 07
Equipment account	697,204 91
Building account	264,798 89
Machinery and tools	47,500 22
Material	66,704 85
Fuel	8,515 25
Office and station furniture, and telegraph instruments, etc	25,869 67
Balance of accounts outstanding, including $10,000,000 advanced to Contract and Finance Co., and deducting obligations	10,297,958 33
Cash in hands of treasurer	146,265 88
	$25,063,550 44
Profit and Loss	7,549 56
	$25,071,100 00
Capital stock	$14,071,100 00
First mortgage bonds	11,000,000 00
	$25,071,100 00

President.—C. P. HUNTINGTON.

Vice President.—D. D. COLTON.

Directors.—C. P. Huntington, Robert Robinson, S. T. Gage, D. D. Colton, Charles Mayne, E. H. Miller, Jr., J. L. Willcutt.

Treasurer.—E. H. MILLER, JR.

Secretary.—J. L. WILLCUTT.

General Superintendent.—A. N. TOWNE.

Chief Engineer.—GEO. E. GRAY.

☞ Telegraph lines have been completed to Wausau, Wis., 40 miles above Steven's Point. This, with the railroad which is but recently completed to that place, makes the most important advance of the year into the pine woods.

☞ On the 26th ult. 1,359 shares of the new stock of the Boston and Albany Railroad Co. were sold at auction by order of the directors. The opening bid was $130 per share, and the whole lot was taken by one party at $133¼.

Erie Railway and its Connections.

CONCLUSION OF CAPTAIN TYLER'S REPORT.

I have thus depicted, perhaps too much in detail, the condition and resources of the Erie system and of other systems in connection with it, in the hope of affording to those who are interested the means of arriving at fair and just conclusions in regard to them. In passing over these various systems I was accompanied by the executive officers respectively attached to them, and I was much impressed by the open, candid manner in which I was everywhere received and treated. There was no attempt at concealment or withholding information, but I was freely invited to see everything for myself, and to discuss not merely advantages to be obtained but also difficulties to be encountered and defects to be remedied. A task which might otherwise have been difficult and laborious was thus rendered comparatively easy. The Erie Railway has, undoubtedly, great natural advantages. It possesses the shortest line of communication between the lakes at Buffalo and its various termini, extending for sixty miles along the Hudson river. It has completed, and will ultimately be able to utilise, much to its advantage, a connection with the Canadian lines by the International Bridge over the Niagara river at North Buffalo, and it is thus in direct communication by an excellent route with Chicago. By the system of the Atlantic and Great Western Railway and its connections it may reach St. Louis, Cincinnati, Indianapolis, and Chicago by other routes, and, via Newburgh, it will sooner or later carry a fair share of the traffic with the New England States, which is even more important than the traffic of New York. It is well situated for obtaining, with improved connections, the most important items of traffic of almost every description, and for transporting them in those directions where the greatest profits of carriage may be obtained. But in order that these advantages and resources may be properly developed, the same important requirements almost always present themselves, from whatever point of view the question is regarded, or whatever description of traffic is considered. For the economical working of so heavy a traffic, a double track on the whole of the main line and on some other sections, steel rails, and durable sleepers are necessary, and some improvement in the gradients is desirable. The gauge of the line must be changed. To obtain transport and deliver additional traffic of a profitable character, fresh extensions and connections are wanted. The terminal arrangements should be improved to attract the traffic, to handle it economically, to store it when necessary, and to deliver it without undue cost. Grain ships should be loaded at the wharves of Jersey City from a commodious elevator, as petroleum oil ships are loaded from the oil yards at Weehawken. Iron bridges should be substituted for wooden bridges, as the latter require renewal, not merely to save the cost of maintenance and of watchmen, but to avoid the risk of loss and delay to traffic in the event of fire. The establishments of engine houses and machine shops should be completed with a single eye to economy in maintenance and working. Speculations in coal fields and in all other objects should be avoided. Onerous contracts of all descriptions should be dealt with according to their respective circumstances. No outside rings, as they are called, should be permitted to divert the profits from the Proprietors. To carry out these various improvements a liberal expenditure of money is required; but the precise amounts to be expended from time to time can only be settled after the most careful deliberation, in view of the possibility of raising money, the interest to be paid on it, and the advantages to be obtained in each case from its application. At the same time there is probably no other railway system in the world which would better repay such large expenditures, if only a really good management could be permanently secured, with a stable constituency of Proprietors to support it. Without some degree of stability in the constituency the President and Directors of the Company can hardly be expected to feel so much confidence as to their annual re-election, or to take so much interest in the continuous improvement and ultimate well being of the undertaking, as if their positions depended upon the confidence reposed in them by more permanent stockholders; whilst capitalists are not likely to purchase and hold the stock for investment until they see good reason to believe that under honest, judicious, and independent management the undertaking is likely to improve, and ultimately to repay them with dividends to be expected with some degree of regularity. It is, in fine, of great importance to the well being of the Company that the vicious circle of an unstable proprietary dealing in the stock principally for speculation on one side of the Atlantic, and a management uncertain of the confidence of the stockholders on the other side of the Atlantic, should be put an end to. One obvious means of attaining this object is by the organization of a strong committee in England, such as would command the confidence of the proprietary, to control, amongst various matters, the arrangements with regard to any fresh capital that might be raised; and, in consultation with the President and Directors, to decide generally upon the amounts to be expended, and the object to which they should be applied.

The more recent as well as the more remote history of the proceedings of the company for many years past has amply demonstrated the necessity for some such course. There has not been sufficient direct control over the management by those who have supplied the funds to be expended. And the same observation applies with greater or less force to the case of other American Railway Companies whose stocks are largely held on this side of the Atlantic, or who seek to obtain from time to time large sums of money from English sources for the furtherance of their schemes. It is difficult to imagine that confidence which has been so rudely destroyed could otherwise be restored. The Erie Railway has, by mismanagement, been brought to the verge of ruin. Without a large expenditure it cannot be placed in a satisfactory condition. And even with a large expenditure, rigid, honest, fearless, and economical management are absolutely necessary to enable it to yield that return which it is capable of affording. Much must even then depend upon the absence or the degree of competition for through traffic. The four trunk lines in possession of the four passes in the Alleghany range have it in their power either to pursue a policy of competition, and to carry traffic at unreasonably low or non-paying rates, and thus to ruin each other; or to carry on their business by mutual agreement at rates which will yield them all a fair profit. If they pursue in the future the former policy, then, clearly, the less moneys subscribed in England towards the further development of any of their undertakings the better, because no calculations of profit can be reliable in the face of an uncertainty as to whether the rates and fares will be such as will yield any profit at all. If there were, on the other hand, any reasonable assurance that they would agree upon minimum rates to yield moderate profits on each class of traffic carried, then some basis of calculation would be afforded as to the advantages which might be expected from further expenditure. They appear now to be more in earnest than they have ever been before in taking measures for the avoidance of undue competition. If they only succeed in carrying into effect the measures they have recently devised, they will all quickly and permanently feel the benefit of it; but if they continue to engage as they have too much done in the past, in competition for traffic carried at little above, or in some cases below, the bare cost of conveyance, they ought not to expect that the British public at all events should further subscribe to afford to any of them the means of continuing it. There has been for a series of years a tendency to lower rates of conveyance, and the rates may probably now be considered to have reached the lowest point; but much of the produce of the West must be carried, if brought to market at all, at moderate cost for long distances. The means of economical working are necessary in every case to enable it to be carried at a reasonable profit, and in the face of undue competition that profit is easily sacrificed. On the Erie Railway the eastward freight was carried from October, 1873, to April, 1874, at an average of 1 6-100th cents per ton per mile, and the westward freight for the same period at 1 8-100th cents per ton per mile. The difference between these figures and 1¼ cents per mile on the amount carried would make a difference in the revenue of the Erie Company of no less a sum than $637,989, or say £125,000 in the half year. And it is thus easy to see—the cost being the same—how a moderate improvement in rates, added to economy of working and maintenance, would materially affect the position of the company. Mr. Jewett has, since I left America, been installed as the President, and he has a grand opportunity before him of restoring to comparative prosperity an undertaking which, but for its natural position and resources, would long since have been ruined. His difficulties, though great, do not appear by any means to be insurmountable, and it remains to be seen how he will perform the task. It must, in any case, be remembered that the condition of this and other American railway systems, as regards earnings and profits, has been, during the past twelve months, not an average, or a normal condition. They may fairly be said to have been at their worst. The state of depression whilst I was in New York was universal and extraordinary, and the same state of feeling appeared to be more or less prevalent over the whole of the country. A partial recovery only appears, since the panic of last autumn, as yet to have been established; but there can be no reasonable doubt that sooner or later commerce and manufacture will revive, traffic will increase, rates will improve, and railway interests, as well as other interests in the country, will feel the benefit. I have, in this report, freely pointed out the defects which exist, as well as the resources to be developed. In regard to the former it is only fair to add, that if other American, or even if the best of our English railways, were submitted to the same rigid scrutiny, there would be a long list of improvements which might be advantageously carried out, and of sums of money that might be properly expended. There is, to my mind, no cause for despair, but much hope for the future, in the case of the Erie Railway, if only undue competition be avoided, and good management be secured.

I remain, dear sir, yours truly,

H. W. TYLER.

☞ The Governor of Wisconsin has decided to issue to the North Wisconsin Railroad Company the patents for four hundred sections of land for the forty miles now built, reserving the question as to the additional hundred and twenty sections for further consideration. No claim is made for the last mentioned lands, however, by any company but the North Wisconsin.

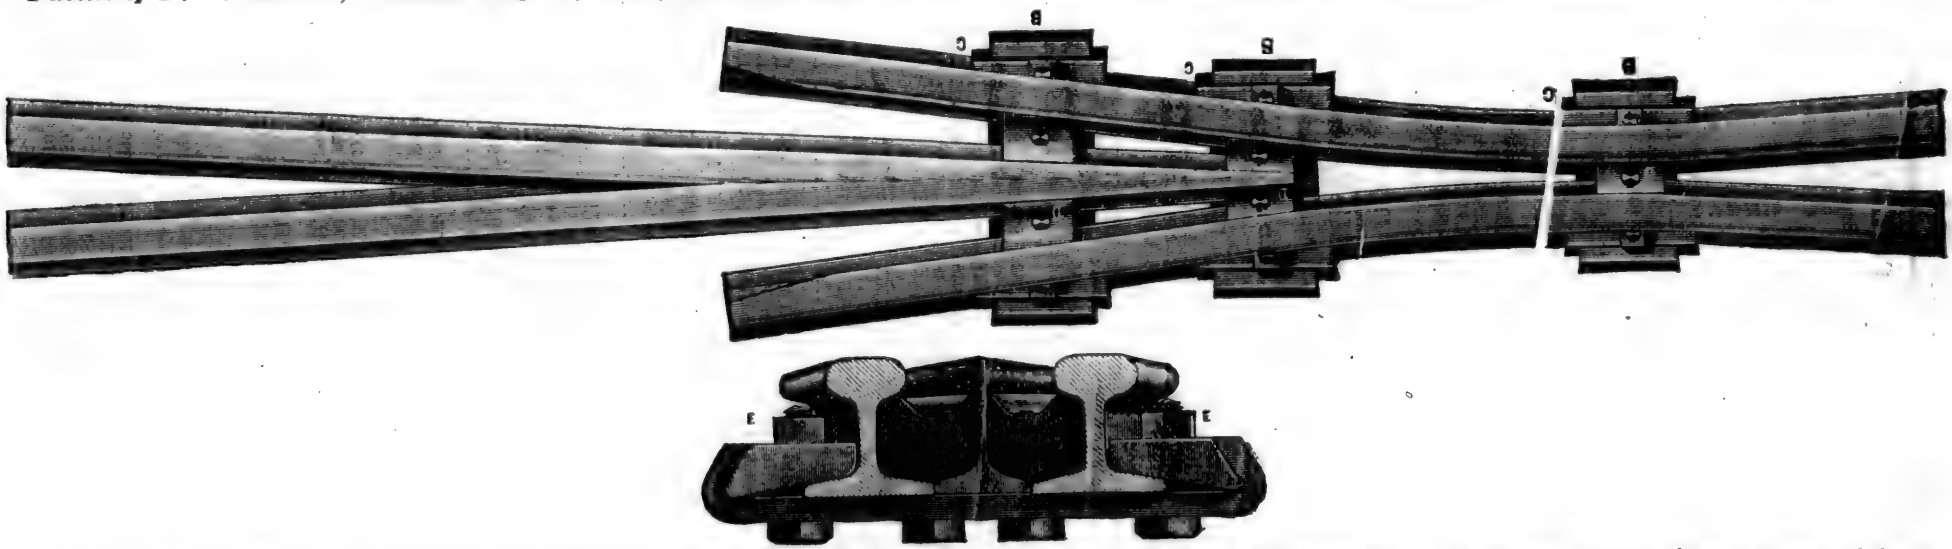
☞ The Pennsylvania Railroad company announces that, on January 1, 1875, they will withdraw their equipment from and cease to operate the Sunbury and Lewistown railroad. This road, we think, has been sold under foreclosure, and is now in the control of parties who purchased at the sale. The road is 48½ miles long, has a paid up capital of $500,000, and had a funded debt at date of last report of $1,400,000.

☞ At an adjourned meeting of the Northern Central Railway Company, held in Philadelphia on the 22d inst., Mr. A. J. Cassatt, third Vice President of the Pennsylvania Railroad Co., was elected Vice President. It was decided to employ a general manager when a competent railroad man can be secured, who is familiar with the business interests of Baltimore, who will have his quarters there.

ABRAHAM BARKER, President.

ABRAHAM BARKER, *President.*

WM. WHARTON, JR., *Superintendent.*



THE IMPROVED LEWIS RAILROAD FROG,

MADE OF BESSEMER STEEL RAILS.

Manufactured by the Wharton Railroad Switch Company, Sole Owners of the following Patents:

Patent of D. D. LEWIS, Granted May 17, 1859, Extended May 16, 1873.

Patent of E. H. JOHNSTON, Granted September 29, 1874.

This frog, as shows in the above sketch, is made of Bessemer Steel Rails. The curve of the side rails (which belongs exclusively to the Lewis patent,) allows the easy passage of the wheel flanges through the frog without striking against them, thus avoiding any shock to the wheels, or cutting away the frog, at the angle of intersection.

This form of the side rails has been in use upon many leading railroads for years, as the advantages it gives, both in smoothness of passage, and in reducing wear of the frogs and wheels, were recognized very soon after Mr. Lewis patented his invention.

Bessemer Steel Rails are now used by us for this frog, as they have been found to give the best result in wear, and provide elasticity for the rolling stock. The only objection to their use for frogs generally, has heretofore been, that there was no suitable method of retaining the several rails firmly in their places. This is entirely overcome by the patent of E. H. Johnston, September 29, 1874.

The wrought iron clamps B. B. B., six inches wide and $\frac{7}{8}$ inch thick, extend underneath the frog, and are bent upward outside, so that when the wrought iron wedges C. C. C. are driven into position, the several pieces forming the frog are most securely held in place. The wrought iron distance pieces D. D. D. keep the proper openings for the flanges to pass through, and the vertical bolts through them add to the general strength of the frog; but the chief strength is given by means of the wedges in combination with the clamps. The wedges cannot back out by reason of the retaining bolts E. E. which pass through them and through the clamps. The arrangement is very simple and strong in all its details, and it has the further advantage of allowing any part of the frog to be easily taken out, without removing the frog from the track. The ties are placed between the clamps, where the rails rest evenly upon them, and the frog can be spiked to the ties both inside and outside, which is very desirable.

We use great care in the manufacture of these frogs, both as to workmanship and materials, and as we plane away the portion of the rails needed to make the proper fit, the steel retains its original character, and is not softened or deteriorated by any heating or forging, as is usually done to effect the same purpose.

We do not put the rails in blacksmith fire or furnace at any time in the manufacture of our frogs.

We also make our frogs longer than the usual lengths allowed, as they are much better by such increase of length.

FROGS OF ALL ANGLES FURNISHED. RAILROAD CROSSINGS OF ALL ANGLES MADE TO ORDER.

Price of Frog, Angle 1 in 8, length 8 feet,	$62.50
" " " 1 in 9, length 9 feet,	65.00
" " " 1 in 10, length 10 feet,	67.50

November 20th, 1874.

Address,

WHARTON RAILROAD SWITCH COMPANY,

Post Office Box No. 2353, Philadelphia. WORKS, 23d and Washington Avenue, Philadelphia. OFFICE, No 28 South Third Street, Philadelphia.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." *A dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in *"Italics."* State-aid Railroads are distinguished by a "¶."

American Railroad Journal.

Saturday, January 2, 1875.

Financial and Commercial Affairs.

Money has been ruling easier during the week. The offerings of capital have been more liberal, and lenders have found it rather difficult to place balances, in a controllable form, at late rates. The speculative inquiry for aid has been on a reduced scale, and the demand from mercantile sources has been less urgent. Call loans have been quoted at from 2@4 ; and best commercial credits at 5½@7½ per cent per annum. At these figures, all strictly first-class applications for aid have been quite promptly met. Capitalists, who have not been able to loan their surplus means advantageously, have been making free purchases of the public funds, for investment. The investment call for all the coin bearing Government Securities has been quite active. The drain of currency to the interior has been less important. The City banks last week reduced their reserve of legal tender notes $768,800, and their deposit item $1,818,200, while also diminishing their specie average $222,400. They report a decrease of $1,744,500 in the loans and discounts, and a contraction of $121,500 in their circulation. The U. S. Sub-Treasury in this city closed the week with a currency balance of $46,395,253, against $47,425,008, the preceding week ; and a coin board of $50,403,661 against $51,110,464, on the previous return. The City bank exchanges, during the week, were $407,720,865, or a daily average of $81,544,173. The customs revenue of the port, during the week, was $1,081,208. The City banks reported their average of gold last week at $13,397,100, and their greenback average at $47,163,400. Their deposits stood at $213,889,600. The loan item was $183,665,300. The circulation was $24,610,100.

The City Bank net reserve of specie and legal tender notes now shows an excess, over the legal requirement of reserve to liabilities, of $7,088,100.

The aggregate of the outstanding U. S. currency, of all denominations, Dec. 1, was $429,987,311. The outstanding amount of legal tender notes is 382 millions. The National bank circulation is now about 348 millions.

The U. S. Treasury balances on Tuesday were as follows: Currency, $18,250,000 ; special deposit of legal tenders for redemption of certificates of deposit, $49,870,000 ; coin, (including $21,500,000 in coin certificates,) $77,000,000.

The income of the Government, from internal revenues, thus far, in the fiscal year, commencing with July 1, 1874, has been over 55 millions.

Gold has been more freely dealt in, and has been quoted stronger in price. The demand has been mostly speculative, though the export inquiry has been fair. The customs drain has been light. Government has been disbursing, through the local office, the January coin interest on the public funds, quite freely, and without rebate during the week ; adding to the available supply of Gold. The Gold Exchange Bank clearings reached 51½ millions on Monday, against 40⅞ millions, the highest aggregate on any one day in the preceding week. The extremes of the week have been 111½@112¼, closing on Wednesday at 111⅞, as against 111½ on Wednesday of the preceding week. The specie outflow last week was $2,257,036. The imports of specie at this port since Jan. 1, have been $5,537,590, against $18 520,688 same time last year. The customs demand for Gold last week averaged $216,241 a day. Foreign Exchange has been in fair demand and held with more firmness. Bankers' sixty day bills on London closed on Wednesday at $4 85¼@$4 86 ; sight bills on London at 4 90@$4 90⅛ to the £ sterling. The week's exports of Domestic Produce have been to the currency value of $5,256,477.

The import entries of Foreign Merchandise at New York, including dry goods, amount for the past week to $2,965,573.

Government Securities have been actively sought after, on investment account, at advancing prices. Large amounts of any of the more popular issues have been difficult to procure at the ruling figures.

U. S sixes of 1881 closed on Wednesday of this week at 122@122⅛ ; U. S. Five-Twenties of 1862, at 114⅛@114⅜ ; U. S. Five-Twenties of 1864 at 116¼@116½ ; U. S. Five-Twenties of 1865 118¾@118½ ; U. S. Five-Twenties of 1865 consolidated, 120⅞@121 ; U. S. Five Twenties of 1867, 121⅞@122 ; U. S. Five-Twenties of 1868, 121⅞@122½ ; U. S. Ten-forties at 115½@115⅝ ; U. S. Fives of 1881, (Funding Loan) 113⅝@113⅞ ; Six per cent. currency Sixes from 117¾@118.

The Stock Exchange dealings have been on a restricted scale. The Railway and miscellaneous share list has been quite variable as to values, the temper of the business having been mostly bearish. State and Railway bonds have been moderately sought after and prices have been quoted generally steady.

General business has been on a moderate scale. Domestic Produce has been less sought after, yet, as a rule, without decided changes as to values. Cotton, Provisions, and Breadstuffs closed rather weaker. The Live Stock receipts at this port, during the year, reached 441,943 Beeves, 3,788 Cows and Calves, 112,201 Veal Calves, 1,176,099 Sheep and Lambs, and 1,786,681 Swine. General merchandise has been quiet, outside of Groceries, in which there has been a more active movement at firmer rates. The Metal trade has been slow. Eglinton Pig Iron quoted from yard at $35 50@$36 50 ; Glengarnock, $37@$38 ; No. 1 American Pig at $22 75@$25 ; No. 2 do. at $21@$24 ; Forge, $21@$27 ; English Rails at $47 50@$50, gold ; American Rails at works, $50@$52 ; Old Rails, $30. Wrought Scrap, $28@$30. Ocean freights have been more active, and quoted firmer, with Grain and Provision room most sought after.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns :—

Industrial Affairs.

On and after the 1st of January, machinery may be imported into Canada on payment of a duty of ten per cent. ad valorem, on the affidavit of the importer that it is for his own use.

The Youngstown, Ohio, Rolling Mill has run constantly double time during the past year except when stopped for necessary repairs. All the rolling mills of the city are now running double time except one.

The National Rubber Company of Bristol, R. I., are running their works night and day, employing more than 1,100 hands, with a monthly payroll of $40,000.

The new rolling mill at Massillon, Ohio, will be started with the new year.

The New Bedford cotton mills are preparing to run full time after New Year.

Puddlers in the rolling mills of Harrisburg are now receiving from $4 10 to $4 50 per ton. Since the panic, the price for making a ton of puddled iron has fallen from seven dollars to the above figures. The highest ever paid was $8 10.

Progress of New Roads.

Thirty miles of the northern end of the Michigan and Ohio Railway, terminating at Grand Haven, Michigan, has been graded, and will be ironed ready for trains by the middle of January.

It is expected that work will be commenced on the line of the Wheeling and Lake Erie Railroad, in Huron County, Ohio, within the next ten days.

The purchasers of the Little Rock and Fort Smith Railroad are, it is reported, making arrangements to run that road in connection with the Memphis and Little Rock Railroad.

Work on the Delaware Shore (N. J.) Railroad is being vigorously pushed forward. The contract calls for the bridging and grading by the 1st of June, but if the winter continues open it is expected to be completed by the 1st of April. About 200 men are employed on the work, and the lumber for bridging is being placed on the ground.

The Atlantic and Lake Erie Railroad was completed between New Lexington and Moxahala on the 22d ult.

The Galena and Platteville, Ills., narrow gauge railroad is fast approaching completion.

A narrow gauge railroad is to be built from Davenport, Iowa, to Buffalo and Blue Grass.

The Gettysburg *Compiler* is informed that the Pennsylvania Railroad Company has leased the Short Line, Littlestown and Frederick and Pennsylvania Line Railroad, and will commence operating the entire line as soon as the Short Line is completed, which will be about the first of April.

It is expected that the Lake Shore and Tuscarawas Railroad will be in active operation by the first of July next from Cleveland to Canton.

Interest and Dividends.

The coupons of the first mortgage bonds of the Central Pacific Railroad Company, the Western Pacific Railroad Company, and the California and Oregon Railroad Company, due Jan. 1, will be paid in gold at the office of Messrs. Fisk & Hatch, No. 5 Nassau street.

The coupons due Jan. 1, on first mortgage bonds of the International and Great Northern Railroad Company of Texas will be paid in gold by the National City Bank. Also, by the same bank, the coupons due Jan 1, on First Mortgage Gold Bonds of the Houston and Texas Central Railway Company.

The interest due 1st of January next, on the bonds of the Virginia and Tennessee, South Side and Norfolk and Petersburg Railroad Companies, payable in New York, will be paid at the First National Bank in New York, and to holders nearer home at designated points in that vicinity.

The Grand Rapids, Newaygo and Lake Shore Railroad Co. will pay the coupon due Jan. 1, 1875, on its 8 per cent first mortgage bonds, at the Union Trust Co., New York.

Coupons of the Cairo and Fulton Railway Company, due Jan. 2, will be paid in Gold, at the agency of the St. Louis, Iron Mountain and Southern Railroad Company.

The Columbus and Hocking Valley Railroad Company have declared a dividend of eight per cent, payable on the 12th of February, one half in cash and one half in the stock of the company at par, and all fractional parts of a share of stock, dividend payable in cash.

The Granite Railway Co. have declared a dividend of four cent, payable January 4.

The Hampshire and Baltimore Coal Company have declared a dividend of three per cent., payable Jan. 2.

The St. Nicholas Coal Co. announces a dividend of 2½ per cent, payable January 4.

The Illinois Central Railroad Company have declared a dividend of four per cent, payable February 4.

Railroads of the United States, Jan. 1, 1875.

We herewith present to the subscribers of the Railroad Journal our usual recapitulation of the lines in operation in the several States and Territories of the Union, at the commencement of the new year. The past year has not added largely to the length reported a year ago; yet the interval between then and now has not been altogether a season of idleness in railroad matters. Much has been done towards the improvement of existing roads, and in making ready for the traffic anticipated when the financial and business affairs of the country return to their normal condition. The following we believe to be a near approximation to the actual present status of our railroad system:

RAILROADS IN THE UNITED STATES, JANUARY 1, 1875.

STATES, ETC.	Track in Miles.—Main and Branch.	2d &c., and side Track.	Total Track.	Cost of Road, Equipment, &c., &c.
Maine	962.28	111.69	1,073.97	$41,022,713

GENERAL RECAPITULATION BY SECTIONS.

SECTIONS.	Track in Miles.—Main and Branch.	2d &c., and side Track.	Total Track.	Cost of Road, Equipment, &c., &c.
New England States	5,648.06	1,470.38	7,118.44	$289,031,671
Middle States	15,074.71	6,297.84	21,372.55	1,133,071,045
South Eastern States	7,096.93	486.82	7,583.75	230,192,836
Gulf and South Western States	9,079.64	704.04	9,783.68	366,134,012
Interior (East) States	21,171.51	3,591.78	24,763.29	1,100,871,037
Interior (West) States	14,610.56	1,028.05	15,638.61	589,660,527
Pacific Slope, States, &c	3,524.87	265.43	3,790.30	219,965,272
Grand Total, Jan 1, 1875	76,206.28	13,844.34	90,050.62	$3,928,926,400
Grand Total, Jan. 1, 1874	74,402.68	12,983.71	87,386.39	3,726,413,009
Increase in 1874	1,803.60	860.63	2,664.28	$202,513,391

Of the increase of main and branch line was added by—New England 79.08; the Middle States 406.54; the South East States 58.32; the Gulf and South West States 236.40; the Interior (E.) States 587.76; the Interior (W.) States 138.60, and the Pacific Slope States 296.90. Of the increase of second, &c., track about one half is due to the New York Central and Hudson River Railroad third and fourth tracks between Albany and Rochester. The Erie, the Pennsylvania, the Philadelphia and Reading and the Baltimore and Ohio Railroads have also added largely to their auxiliary tracks, sidings, &c. The roads of the Interior States have done comparatively little in this regard. The additional cost of railroads in the United States adds up $202,513,391. About two thirds of this sum has probably been expended on new works; and the remainder in the improvement of the tracks, equipment, buildings, &c. Most of the great roads have largely relaid their tracks with steel rails. In the Tables given above we make the total length of track laid down 90,050.62 miles, of which 77,206 28 miles are main and branch lines, and 13,844.34 miles 2d, 3d and 4th tracks and sidings. The average cost of all the railroads of the United States, obtained by dividing the total cost by the sum of all tracks laid is $43,630 per mile, or if divided by the sum of all the main and baanch lines only it is $51,556 per mile.

The progress of railroad construction in the United States from the opening of the Granite Railroad, at Quincy, Mass., in 1827, to January 1, 1875, yearly, is shown in the following table

Year.	Miles open.	Yearly Increase.	Year.	Miles open.	Yearly Increase.
1827	3		1852	11,027	2,438
1828	3		1853	13,497	2,470
1829	28	25	1854	15,672	2,175
1830	41	13	1855	17,398	1,726
1831	54	13	1856	19,251	1,853
1832	131	77	1857	22,625	3,374
1833	576	445	1858	25,090	2,465
1834	762	186	1859	26,755	1,665
1835	918	156	1860	28,771	2,016
1836	1,102	184	1861	30,593	1,822
1837	1,431	329	1862	31,769	1,176
1838	1,843	412	1863	32,471	702
1839	2,220	477	1864	33 860	1,389
1840	2,797	577	1865	32,442	582
1841	3,319	522	1866	35,351	909
1842	3,877	558	1867	36,896	1,545
1843	4,174	297	1868	38,822	1,926
1844	4,311	137	1869	42,272	3,450
1845	4,522	211	1870	48,860	6,588
1846	4,870	348	1871	55,535	6,675
1847	5,336	466	1872	62,647	7,112
1848	5,682	346	1873	69,158	6,511
1849	6,350	668	1874	74,403	5,245
1850	7,475	1,125	1875	76,206	1,803
1851	8 589	1,114			

It will be perceived that from Jan. 1, 1855, to Jan 1, 1856, the increase in railroad construction was 3,374 miles. This was the largest mileage constructed in any one year up to date. The financial difficulties of 1857-'58 suddenly arrested the extravagant expenditures in this special direction. In the 10 years ending January 1, 1858, there were built 19,418 miles; in the 10 years succeeding that date only 13,782 miles. In the 10 years closing with January 1, 1875, there were built 39,855 miles. The great acceleration in construction during this period was the result of the redundant currency issued for war purposes, which found an outlet in the demand for railroads. In this period the great Pacific Railroads were

mainly constructed, and a large number of other roads were carried into the far interior. In the meantime the older trunk roads were materially rebuilt and double tracked, and the rolling stock adequately enlarged. The internal commerce of the country quadrupled; immigration filled up the great interior; and production increased at a rapid rate. No country in the world was apparently more prosperous and wealthy than the United States up to the harvest of 1873. In September of that year the great money panic ensued, and from the same cause as that which overwhelmed the business of the country in 1857—the expenditure of too much money in a single direction. The result was identical—railroad construction ceased and thousands of men were turned away from their occupation and means of living. In the 10 years antecedent the average of construction was 4,085 miles a year and in one year (1871) 7,112 miles were built. In 1874, the year after the panic of 1873, only 1,803 miles were built; nor is it probable that for several years to come railroad building will resume an active tone. The work of 1874, indeed, was only adventitious, the finishing up of roads that had progressed far to completion, and in a few instances the construction of auxiliary and connecting links. At date no great work is in progress.

It is impossible to obtain complete returns of city and suburban passenger railroads. Their construction, however, is constantly on the increase, and all cities and large villages are now well provided with them. They are the *ne plus ultra* of modern civilization, and in their offices efficient and beneficent. They are the time savers of business life, enabling the traveler to go over three or four times the distance in the same time as before their invention and bringing into practical use. In the State of New York there are now 650 miles, in Pennsylvania 480 miles, and in Massachusetts 225 miles of track laid down. In all the other States, probably three times the aggregate length found in the States named, are in operation. This would give from 4,000 to 5,000 miles in all. The investment in these works at an average of $20,000 per mile would amount to the large sum of $80,000,000 to $100,000,000!

New York Elevated Railroad.

The management of the New York Elevated Railroad intend, in the absence of other rapid transit, to furnish the public a double track from the Battery to Harlem River. Since the veto by Governor Dix of the bill to extend this road 1,500 feet, so that the line might end at the South Ferry where the company intended to erect a commodious depot for passengers and so save them the trouble of walking through mud, snow and rain to catch trains at the different stoping places down town, the directors have been somewhat puzzled as to what course they should take to prove to the doubters that their project was a feasible one. The company have at last resolved to extend their road at once to the Harlem River, and contracts for the iron work, for the steel rails and for the building of the road have been given out, and just as soon as the weather will permit the work intended will be commenced. The iron work is already under way, and the rails, which are to be of the best Bessemer steel, will, no doubt, be ready by the time they are required for laying down. In regard to the double track the engineers have decided to commence it at Bank street and run it for a distance of 1,200 feet up Greenwich street. This will give a road bed upon which four or five engines, with their trains attached, can be run without trouble or danger, as the switches will be placed at such convenient distances as to afford accommodation for all coming or going trains as quickly as desired. Should it be found necessary, as the travel over the road increases, to lengthen the line of the double track it will be extended as far up as Twelfth street, with the same precaution in regard to switches. By this new arrangement the distances that now require about thirty minutes for the run will be made, according to the engineer's estimate, in seven and a half minutes—a saving of time valuable to all business men. In regard to the lower extension no steps have yet been taken to have the road pushed; but it is the intention of those interested to yet secure such influence as will in the end carry the measure through.—*N. Y. Herald.*

The Senate Finance Bill.

The following is the full text of the Act passed by the United States Senate on the 22d ult., entitled "An Act to Provide for the Resumption of Specie Payments."

Be it enacted, &c., That the Secretary of the Treasury is hereby authorized and required, as rapidly as practicable, to cause to be coined at the mints of the United States, silver coins of the denominations of ten, twenty five and fifty cents, of standard value, and to issue them in redemption of an equal number and amount of fractional currency of similar denominations; or, at his discretion, he may issue such silver coins through the mints, the sub treasuries, public depositaries and postoffices of the United States; and, upon such issue, he is hereby authorized and required to redeem an equal amount of such fractional currency until the whole amount of such fractional currency outstanding shall be redeemed.

Sec. 2. That so much of section 3524 of the revised statutes of the United States as provides for a charge of one-fifth of one per centum for converting standard gold bullion into coin is hereby repealed, and hereafter no charge shall be made for that service.

Sec. 3. That section 5177 of revised statutes of the United States, limiting the aggregate amount of circulating notes of national banking associations, be, and is hereby, repealed, and each existing banking association may increase its circulating notes in accordance with existing law without respect to said aggregate limit, and new banking associations may be organized in accordance with existing law without respect to said aggregate limit; and the provisions of law for the withdrawal and redistribution of national bank currency among the several States and Territories are hereby repealed, and whenever and so often as circulating notes shall be issued to any such banking association, so increasing its capital or circulating notes, or so newly organized as aforesaid, it shall be the duty of the Secretary of the Treasury to redeem the legal tender United States notes in excess only of $300,000,000 to the amount of eighty per centum of the sum of national bank notes so issued to any such banking association as aforesaid, and to continue such redemption as such circulating notes are issued until there shall be outstanding the sum of $300,000,000 of such legal tender United States notes, and no more. And on and after the 1st day of January, A. D. 1879, the Secretary of the Treasury shall redeem in coin the United States legal tender notes then outstanding on their presentation for redemption at the office of the Assistant Treasurer of the United States in the city of New York, in sums of not less than fifty dollars. And to enable the Secretary of the Treasury to prepare and provide for the redemptions in this act authorized or required, he is authorized to use any surplus revenues from time to time in the treasury not otherwise appropriated, and to issue, sell and dispose of at not less than par in coin, either of the descriptions of bonds of the United States described in the act of Congress approved July 14, 1870, entitled "An act to authorize the refunding of the national debt," with like qualities, privileges and exemptions, to the extent necessary to carry this act into full effect and to use the proceeds thereof for the purposes aforesaid, and all provisions of law inconsistent with the provisions of this act are hereby repealed.

Rutland Railroad Lease.

The owners of $517,000 worth of the first mortgage bonds of the Vermont Central Railroad have presented to the Franklin County Court of Chancery a petition asking that the act of January 5, 1871, approving the lease of the Rutland Railroad to that company, be set aside, giving as their reasons that the lease was made by the Rutland Company through false representations and the Court of Chancery has never approved it; that the laws do not allow the lease of one road to the receivers of another, but only to the company itself; and that the Rutland lease cost the Central road more than $400,000 above the earnings of the road during the twenty five months preceding the 1st of July. The petitioners assert that the stockholders of the Rutland road, who hold a controlling interest, seeing that the lease was depleting the property to their advantage, bought up the Central last February and have since controlled it. The petitioners also declare that the Central company has not filed its accounts of the administration of the property, which it should have done in July, and asks that it be brought to time.

☞ The following securities have been placed on the regular list of the Stock Exchange by the Committee on Securities; $30,000,000 Chicago, Burlington and Quincy consolidated mortgage seven per cent. bonds; $10,000,000 Rome, Watertown and Ogdensburg consolidated convertible first mortgage bonds; also, on the free list, $8,000,000 Grand Rapids and Indiana Railway firsts. These latter are divided as follows: Guaranteed bonds, $4,000,000; unguaranteed bonds, $3,020,000, ex-land egrant bonds, $980,000.

☞ The Virginia Court of Appeals has just decided, in the case of Higgenbotham vs. that Commonwealth, that both the States of Virginia and West Virginia were jointly and separately bound for the whole State debt.

OFFICE CENTRAL PACIFIC RAILROAD COMPANY,
No. 9 NASSAU ST., NEW YORK, Dec. 24, 1874.

THE COUPONS OF THE FIRST MORTGAGE bonds of the Central Pacific Railroad Company, the Western Pacific Railroad Company, and the California and Oregon Railroad Company, due Jan. 1, 1875, will be paid in gold at the office of Fisk & Hatch, No. 5 Nassau st.

Holders presenting ten or more coupons will leave them for examination, in which case a receipt will be given and payment made on the following day.

C. P HUNTINGTON, Vice President.

IT WILL PAY

You to invest a few dollars in tickets in Public Library of Kentucky Concert and Drawing of

27th FEBRUARY.

POSITIVELY NO POSTPONEMENT.

A drawing on 27th, Or Money Refunded.

Whole Tickets $50. Halves $25. Tenth, or each Coupon $5. Eleven Whole Tickets, $500.

New York, Saturday, January 9, 1875.

Foreign Railroads.

During the past year we have received information from the principal States of Europe and other foreign countries in relation to their railroad status. The returns refer to the close of 1873, being the latest accessible to us.

The United Kingdom on the 31st December, 1873, had 16,082 miles in operation, of which 8,687 miles were laid with two or more tracks, and 7,395 miles with a single track. This distribution was as follows: in England and Wales, 11,369; in Scotland, 2,612; and in Ireland, 2,101 miles. The increased mileage in the year 1873 was 268 miles. The total amount of shares, stocks and bonds invested in their works was £588,820,308, or an average of £36,574 per mile of completed road. The gross earnings for the year 1873 (on 16,082 miles) were £55,675,421 and the expenses £30,060,112, or 54 per cent of the total income. In other parts of the world the British had 11,482 miles of railroad, of which 3,899 are in Canada, 5,372 in India, and 1,257 in Australia, &c. The total, therefore, in the British Empire amounted to 27,564 miles.

France, excluding the Alsatian railroads (438 miles) ceded to Germany in 1871, has built 11,555 miles of line, at an average cost of nearly $160,000 per mile. At the close of 1868 there were in France, including the Alsatian cession, 9,984 miles. France has also several short lines in Algeria.

In Spain and Portugal there were at date 4,004 miles, and in Italy 4,275 miles. In 1868 the figures were 3,951 and 4,109.

Germany, as now constituted, had railroads to the extent of 13,171 miles, and the Austro-Hungarian Empire to the extent of 6,022 miles. Holland at the same date (Dec. 31, 1873) had 1,351 miles, and Belgium 2,071 miles. The length in these States in 1868 was respectively 9,918, 4,429, 1,708 and 881 miles.

Russia is making great exertions in railroad development. The first road built in 1838, had a length of 17 miles. In successive quinquennial periods the national system augmented, and in 1848 had a length of 286 miles; in 1853, 724; in 1858, 829; in 1863, 2,294; in 1868, 5,736; and in 1873, 10,070 miles. The average cost of railroads in Russia is about $81,000 per mile. The imperial railroad system is to be carried into Asiatic Russia, and connect St. Petersburg and Pekin.

There are also in Europe the Turkish, Grecian, Moldavian and other railroads. These in the aggregate may be computed at 3,500 or 4,000 miles. In all Europe we may, therefore, place the total railroad extension at about 73,000 miles, or about the same extent to which our own railroads had been carried at the close of the year 1873.

The foreign roads in America were those of the Dominion of Canada, (3,899 miles); of Mexico, (500 miles); of South America, (say, 5,000 miles); and in the West Indies, (1,000 miles). Total foreign roads in America upwards of 10,000 miles.

British India is the only part of Asia in which the railroad has become acclimated. At the close of 1873 the length constructed was 5,872 miles, with 727 miles of second track; and about 1,850 miles additional were in progress. The cost to date had been £97,000,000 or £16,536 per mile. The first railroad in India was built in 1853 to the extent of 22 miles. The gross earnings in 1873 were £6,742,790, and the expenses (53 per cent) £3,559,700. Asiatic Turkey has several short roads, and a short line has recently been opened in Japan. But as a railroad country, Asia is as yet a field of the future; and will require a long disciplinary course to bring it to the test of modern ideas. Ceylon has 82 miles of railroad. Egypt is the only country of Africa that has made much progress in railroad matters. In a few years its lines will be extended along the whole length of the Nile. A railroad from Tunis, of which some 20 or 30 miles are already in use, will extend from Tunis to the Egyptian lines. Algeria has a few short lines, and Morocco is now constructing its first railroad. In South Africa, the British Colonies contain 67 miles, and the Island Colony of Mauritius, 66 miles.

In Australia, there are in the aggregate 1,257 miles of railroad, viz: in New South Wales, 402; in Victoria, 486; in South Australia, 138; and in Queensland, 236 miles. Australia is destined to become a great railroad country. In the adjoining Island of Tasmania there are 45 miles, and in New Zealand 147 miles. In the latter series of islands the system projected will have an extension of 1,800 miles, of which about 350 are now under construction.

Noting the fact that the length of railroads in Europe and the United States is about equal, or say (as an estimate) 77,500 miles in each, or in the aggregate 155,000 miles, we may reckon that the other parts of the world, at the close of 1874, had 25,000 miles, viz: foreign America, 12,500; Asia, 7,500; Africa, 2,500; and Australia, &c., 2,500. This estimate is not extravagant. If we here in United States have not done much in the way of railroad construction during the past year, the extension of foreign lines has been repeatedly reported in both foreign and home newspapers. If these deductions are correct, or nearly correct, we may estimate the aggregate length of railroad

now in existence throughout the world at from 175,000 to 180,000 miles. About one-fourth part of this extension may be said to be supplied with more than one track; and with sidings to the extent of one in ten miles. It is, therefore, obvious that the total of track now in use is not less than 240,000 to 250,000 miles.

In these calculations we have not included any thing for city and suburban railroads, which are now in use in all civilized countries.

The Charleston Chamber of Commerce.

A regular meeting of the Chamber was held last evening, President Tupper in the chair. After the reading and confirmation of the minutes of the last meeting, the secretary read the following letter from Gov. Chamberlain, in response to a communication from the chamber transmitting a copy of a report and resolution on the subject of the pilotage of the port of Charleston:

COLUMBIA, December 19, 1874.

S. Y. Tupper, Esq., President Chamber of Commerce, Charleston, S. C.:

DEAR SIR—Yours of the 12th inst., transmitting a copy of a report and resolution on the subject of the pilotage of the port of Charleston, adopted by the Chamber of Commerce of the City of Charleston, is duly received.

I hasten to say in reply that I will extend to those interested in this matter all the aid and protection in my power.

If I have sufficient power to insure the redress of your grievances, I will, if satisfied upon examination of the correctness of your statements, exercise it promptly.

If further legislation is needed to reach the result desired, I will press the subject upon the attention of the General Assembly.

The subject is one which I do not hesitate to consider of the utmost importance, and it will receive my prompt attention.

Very respectfully, your obedient servant,

D. H. CHAMBERLAIN, Governor.

The following letter from ex-Governor M. L. Bonham will explain itself:

CHARLESTON, S. C, December 23, 1874.

S. Y. Tupper, Esq., President Chamber of Commerce, Charleston, S. C.:

DEAR SIR—Allow me to present through you to the Chamber of Commerce the map of the harbor, of which I spoke to you some years ago. It was prepared for me during the war by Lieutenant Key, under the direction of Col. Harris, chief engineer of Gen. Beauregard's staff, and, as you will see, then presented to myself. It is the best map of the harbor and the soundings that I remember to have seen, and as such should belong to this city.

I have thought your body the proper depository of it, and accordingly beg you will take charge of and present it for me.

Yours very truly, L. M. BONHAM.

President Tupper stated that in accordance with the will of the Chamber he had had prepared a memorial to Congress, soliciting an appropriation of $100,000, for improvements of the bar and harbor of Charleston. The memorial, he said, would be put in efficient hands, and there was every reason to believe that it would receive prompt attention. Mr. J. N. Robson, chairman of the committee on direct trade, stated that in a visit recently made to the bar in company with Mr. Lyman Bridges of Chicago, he had found from soundings taken in Pumpkin Hill Channel, that at half tide there was a depth of sixteen feet nine inches, from which it was estimated that at high water there would be a depth of eighteen feet six inches, being an increase in depth of two feet.

Mr. A. C. Kaufman, in response to a request from the Chamber, explained what interests Mr. Bridges represented. He said that Mr. Bridges had come to Charleston accredited by Gov. Beveridge, of Illinois, ex-Gov. Magoffin, of Kentucky, and other prominent gentlemen of the West; that he was interested in the Chicago and South Atlantic Railroad. His object was to consolidate the lines between Charleston and Chicago under one control; he first proposes to build up the links north of Spartanburg, by way of the Cumberland Gap, Asheville, and afterwards to shorten the road as far as practicable. Mr. Bridges proposes with a party of prominent Western capitalists to make a visit to this section of the country in the spring and examine the proposed route. Mr. Kaufman stated that from the tenor of Mr. Bridges' conversation it was manifest that he meant business, and that he had every reason to believe that the great project was in the best of hands, and would be pushed rapidly on to completion.

Mr. Wilson Glover was elected a member of the Chamber. The Chamber then adjourned.—*News and Courier, Dec. 29.*

New York, New Haven and Hartford R. R.

The directors of the New York, New Haven and Hartford Railroad Company respectfully submit the following report of the business and condition of the company for the fiscal year, terminating September 30th, 1874:

Income:

From transportation of passengers		$2,877,380 58
From transportation of freight		1,331,527 28
From transportation of mails and express		181,117 79
From interest		12,049 32
		$4,402,074 97

Expenses:

Repairs of road and renewals	$271,557 45	
Repairs of bridges	29,013 95	
Repairs of buildings	51,275 98	
Repairs of fences	2,565 95	
Repairs of engines	195,265 59	
Repairs of passenger and baggage cars	247,250 77	
Repairs of freight cars	62,019 69	
Repairs of tools and machinery	16,548 24	
Coal & wood for engines	284,966 13	
Oil	26,409 85	
Waste	8,984 37	
General expenses	102,487 02	
Wages and incidentals chargeable to passenger department	520,027 81	
Wages and incidentals chargeable to freight department	468,812 47	
Switchmen & signalmen	96,364 24	
Damages and gratuities	15,021 45	
Insurance and telegraph expenses	7,460 00	
		2,406,030 46
Balance		$1,996,044 51
Deducting taxes	$198,682 92	
Deducting coupon interest	119,105 08	
		317,788 00
Net earnings		$1,678,256 51

The resources for the past year, and the disposition of the same have been as follows:

RESOURCES FOR 1873-'4.

Balance of cash assets Oct. 1, 1873	$3,028,515 59
Materials on hand Oct. 1, 1873	657,670 13
Materials on hand S. L. Div	106,833 99
Bills payable	48,000 00
Bond and mortgage	44,500 00
One dummy engine sold	1,800 00
General transportation earnings and receipts	4,402,074 97
Total resources	$8,279,894 68

PAYMENTS.

For transportation expenses	$2,406,030 46
Interest (coupon)	119,105 08
Taxes	198,682 92
One New York and New Haven R. R. bond bought	500 00
Dividends (two of five per cent each)	1,550,000 00
Steel rails (1,319¼ tons at cost over $70, price of new iron)	84,637 26
New Haven passenger depot and lands	110,297 24
New Hartford shops	279 50
New wharves	96,887 58
Bills payable paid	545,084 48
Paid Boston and Albany R. R. for old balance found due by H. & N. H. R. R	*30,753 96
Materials for coming season	708,197 61
Materials for coming season S. Line Div	111,910 54
Increase debit balance	115,733 49
Decrease of accounts payable	88,843 20
Cash and due from agents and others, Oct. 1, 1874	2,112,451 41
Total, as above	$8,279,894 68

* Deducted from Contingent account.

DETAILED STATEMENT OF ITEMS OF CASH ASSETS.

Due from agents	$185,239 20
Due from connecting roads	59,765 11
Due from Hartford, Providence and Fishkill Railroad tunnel account	46,503 45
Advances to Harlem River and Port Chester Railroad	1,346,468 32
Loans and bills receivable	377,874 03
Cash	96,601 30
Total amount	$2,112,451 41

In addition to the above the company owns two thousand share of its own stock.

The following is an exhibit in condensed form of the business for the past year:

Receipts from transportation, &c.		$4,402,074 97
Transport'n expenses	$2,406,030 48	
Taxes	198,682 92	
Coupon interest	119,105 08	
Net earnings	1,678,256 51	
		$4,402,074 97

The capital expenditure accounts have been increased during the past year $290,301 53 as follows:

Increase in account, cost of road	$192,214 00
New wharves	96,887 53
Increase in land account	3,000 00
	$292,101 53
Less decrease in equipment	1,800 00
Increase as above	$290,301 53

New York, New Haven and Hartford Railroad statistics for the year ending September 30th, 1874.

Miles run by passenger trains	1,277,243
Miles run by freight trains	487,500
Miles run by gravel trains	199,426
Total mileage	1,964,169
Total number of passengers	8,926,019
Number of passengers moved one mile	123,895,231
Number of tons freight moved	815,879
Number of tons freight moved one m.	36,092,340
Number of engines	89
Number of passenger cars	171
Number of mail and baggage cars	59
Number of freight cars	1,120
Number of gravel and other cars	189

SHORE LINE DIVISION.

The receipts on this Division for the year ending September 30th, 1874, have been

From transportation of passengers	$295,667 02
From transportation of freight	73,690 61
From transportation of mails	7,566 96
From transportation of express, &c.	15,218 99
Total income	$392,143 58

The Expenses have been

For operating expenses	$297,877 07	
Paid rent	100,000 00	
		397,877 07
Deficit for the year		$5,738 49

In addition to the ordinary operating expenses the sum of $110,000 has been invested in improvements, additions, and betterments to the Shore Line property.

The income of the road for the year ending September, 1874, was $4,402,074 97, and the net earnings, after payment of transportation expenses, taxes, coupon interest, &c., $1,678,256 51. It will be seen that, compared with the preceding year, there has been a falling off of about $300,000 in the gross receipts, and about $48,000 in the net earnings.

In view of the general depression of business throughout the country, the reduction in our receipts is quite as little as could have been expected.

A small reduction is also shown in the transportation receipts of the Shore Line Railway; the receipts for the last year having been $392,143 58, as against $413,081 13 for the year previous. The ordinary operating expenses and rent of this road for the year exceed the receipts by the sum of $5,733 49. There has also been expended on this line during the year for extraordinary repairs, additions, improvements and betterments, the sum of $110,000.

The roads now owned and operated by your company are all in fine condition, and prepared to transact a largely increased business, which it is to be hoped they will receive on the return of the country to its usual prosperity.

CONDENSED BALANCE SHEET, October 1, 1874.

Cost of railroad		$12,769,841 10
Equipment: engines and cars		2,073,911 42
Real estate		552,544 82
New wharves		96,887 53
Materials and supplies on hand		708,197 61
Materials and supplies on Shore Line Division		111,910 54
Debit balance Shore Line Division		195,394 79
New York, New Haven and Hartford Railroad stock held by Co. (2,000 shares)		200,000 00
Cash, cash assets, loans, due from agents and connecting roads		2,112,451 41
		$18,821,139 22
Capital stock, 155,000 shares		$15,500,000 00
Bonds, past due	$2,000	
Bonds, due 1875	1,059,000	
		1,061,000 00
Coupon interest and dividends unpaid		7,285 33
Bond and mortgage		109,500 00
Bills payable		43,000 00
Accounts payable: Sept. pay roll and balances due connecting roads		310,320 15
Contingent account		107,432 10
Profit and loss		1,682,651 64
		$18,821,139 22

President.—WM. D. BISHOP.

Vice President & Gen'l Sup't.—E. M. REED.

Directors.—Wm. D. Bishop, Bridgeport, Conn.; E. M. Reed, New Haven; Wilson G. Hunt, C. Vanderbilt, Geo. N. Miller, New York; Chester W. Chapin, Springfield, Mass.; A. R. Van Nest, New York; Henry C. Robinson, Hartford, Conn.; E. H. Trowbridge, E. C. Read, New Haven, Conn.; Nathaniel Wheeler, Bridgeport; C. M. Pond, Hartford; Augustus Schell, New York.

Treasurer.—JOHN T. SHELTON.

Secretary.—EDWARD I. SANFORD.

☞ H. A. G. Pomeroy, Esq., has been appointed Superintendent of the Eastern Division of the New York and New England Railroad.

New York Central and Hudson River R. R.

The annual report of this company made to the State Engineer and Surveyor for the year ending September 30, 1874, was filed at Albany on the 31st ult. Unlike previous reports of this company, it embraces the New York and Harlem Railroad as well as the main line. The total length of the road is given in the report at 740.17 miles; the distance for which the road has a second track is 465.30 miles; the distance for which it has three tracks is 231.69 miles, and the distance for which it has a fourth track, is 222.19 miles. This latter distance, it is evident, embraces the distance between Rochester and Albany, with the exception of some seven or eight miles around Syracuse—the exact length of this piece being 7.81 miles. Of turnouts on the main line, there are 360.6 miles; and of the three track road 9.5 miles are from the Thirtieth street depot to a little above Manhattan. The weight of rail per yard, on the main track, all steel, is 65 pounds.

The length of the leased roads is given at 260.03 miles, of which 49.96 miles have double track, and there are 29.45 miles of turnouts. The total length of all the lines is 2,859.39 miles.

The capital stock remains the same as last year, viz: $89,428,300, which includes $498,100 of consolidation certificates, convertible into capital stock, but not yet presented for conversion.

The funded debt has been increased by $10,759,209 29, and the total amount is now $38,484,742 62. The floating debt is not changed, still remaining at $1,167. The total debt, funded and floating is, therefore, $38,485,909 62. On the funded debt the average rate of interest is six and a half per cent per annum.

The total cost of road and equipments is stated in the report to be $92,506,503 97. This is an increase over the sum given in the last report of $14,491,549 32. Of this amount about $12,000,000 has been expended in the permanent improvement of the roadway, viz:

For grading and masonry	$2,473,481
For bridges	805,815
For superstructure, iron and steel	8,643,169
Total	$11,922,465

The number of miles run by passenger trains during the year was 4,435,221, by freight trains 9,981,040, and in switching and by working trains 4,220,442—making a total of 18,636,703. The number of passengers carried was 9,878,352, and these traveled altogether 350,781,541 miles. The freight carried amounted to 6,114,678 tons, (of 2,000 pounds each,) and the total number of tons carried one mile was 1,391,560,707. The average rate of speed per hour of ordinary passenger trains was twenty five miles, including stops, and thirty when in motion; of express trains, thirty including stops, and thirty five in motion; of freight trains, twelve including stops, and fifteen when in motion. Each passenger train, exclusive of its burden, averaged 150 tons in weight, and each freight train 250 tons.

The freight is classified as follows: "vegetable food" 27 per cent, "products of the forest," "animals," and "other agricultural products" 27 per cent, "merchandise and manufactures" 19 per cent, and "other articles" 27 per cent.

The rates of fare for passengers per mile are given as follows: First class through passengers, 2.07 cents per mile; first class way, 2 and 2½ cents; for emigrant through, 0.95 cents, and for emigrant way, 1.25 cents. The average passenger rate for first class is obviously influenced by the fact that the New York and Harlem Railroad is included in this report, as the legal limit on the New York Central and Hudson River Railroad is two cents per mile.

The earnings, expenses and net earnings for the year ending September 30, 1874, (including the New York and Harlem) were:

Gross earnings	$31,050,386 72
Transportation expenses	18,388,297 56
Net earnings	$13,262,089 16

These net earnings were distributed as follows:

New construction	$2,460,554 82
Interest	1,985,868 95
Dividends	7,136,884 60
Rent of other lines	1,564,370 28
Balance	415,915 56
Total	$13,262,089 16

The working expenses are 58.09 per cent of the gross earnings. In 1873, (exclusive of the New York and Harlem) they were 60 per cent.

The earnings per ton per mile and per passenger per mile, also the earnings and expenses per train mile of both passengers and freight were as follows:

Earnings per ton per mile on freight	1.46
Expenses per ton per mile on freight	0.98
Earnings per passenger per mile	2.13
Expenses per passenger per mile	1.53
Freight earnings per train mile	$2 03
Freight expenses per train mile	1 37
Passenger earnings per train mile	1 69
Passenger expenses per train mile	1 05

The operating expenses of the road are allotted as follows: to passenger traffic 21 per cent, and to freight traffic 79 per cent.

It appears by calculation from the report that the earnings of the New York Central and Hudson River Road proper this year were $29,149,072 31, which is $22,221 14 more than last year.

☞ The Berks County (Penn.) Railroad having been purchased at sheriff's sale by Mr. George F. Baer and Cyrus G. Derr, for the benefit of the secured and unsecured creditors, the parties have resolved to change the name to the "Reading and Lehigh Railroad," and also to fix the amount of stock at $200,000, with shares at $50 each. The new organization elected the following officers: President, George F. Baer; Directors, J. Dutton Steele, Cyrus G. Derr, Edward M. Clymer, Henry Bushong, Wellington B. Griesemer, Henry S. Eckert.

Production of Steel in Germany.

For a long period, says M. Huffeld, in the Societe Minerale Corinthienne, the engineers and ironmasters of Germany stood out obstinately against all new methods of steel making; they would have no other than puddled steel for rails. Of late, however, the reaction has become complete, and no branch of the iron trade has exhibited such an extraordinary extension as that of the manufacture of the new kinds, and the large demand which arose at the conclusion of the war with France has caused the creation of a great number of steel works. When they are in full working order the production will be colossal, but it is pretty clear that the home demand will not occupy them all. The greater number of these are in the Westphalian district, but many are also scattered about over the country. The production of the Bessemer steel was long dependent on English pig iron, which only a short time since was considered in Germany to be indispensable; that of the Georges-Marie Works was the only kind that came at all into competition with it. The German iron trade, however, made great efforts to liberate itself from this dependence. The works of Messrs. Krupp, of Hoerde, Bochum, the Union of Dortmund, of the Phœnix of Cutchoffnung, of Maxhuette in Bavaria, and of Saint Marie in Saxony, may be specially mentioned as having spared neither trouble nor expense, in order to produce the proper kind of pig-iron in their own blast furnaces; they did not confine themselves to German materials, but went to Spain, Algeria, and Sweden for their iron ores.

It is curious that in Siberia, and especially at the royal works of Konigshuette, no experiments have yet been tried with the iron ore of Upper Hungary, for which purpose a Bessemer steel establishment is now being erected in the works of the Archduke Albert. In addition to a few blast charcoal furnaces of small importance in Muringia and the Eifel, and small quantities made in the district of Siegen, when spiegeleisen ran short, Bessemer pig is produced exclusively at twenty works, namely:—Two at the Maxhuette Works in Bavaria, from the spathic and the brown hæmatite ores of Thuringia and Eichict. One at the Keine Marie Works, near Zwickau, with the above ores from Gera. One near Pirna, with the magnetic ore of Bergiesshubel. Five near Osnabruck, with the pulverulent but very pure magnetic ores of Huggel. Three belonging to the Hœrde Company, with ores from Siegen, Nassau, and Eifel. Two at Dortmund, with the preceding and Algerian ores. Two near Oberhausen, one at Laar, and three at Johanneshuette all with the preceding ores. There are also in construction two furnaces at Bochum one at Dortmund, several at Krupp's establishment, and elsewhere. Taking the annual production at from 6,250 to 7,500 tons per furnace, we have a total of about 125,000 to 150 000 tons of pig-iron for Bessemer steel only. This quantity is quite insufficient to feed the existing steel works.

The number of converters now at work or in course of construction is over seventy. About sixty of these are at work, producing each on an average twenty five tons of steel per diem, making a total of about 450 000 tons per annum. This quantity of steel requires from 525,000 to 550,000 tons of pig iron, so that at present Germany has to import about 375,000 to 400,000 tons to make up the deficiency. If all the Bessemer steel made in Germany, or that could possibly be made with the present means, were converted into rails, it would furnish 400,000 tons, or about the quantity required for a single line 3000 miles long. In Germany the pig iron for conversion is melted in cupola furnaces, furnished generally with Root's rotative blowers; for the addition of the spiegeliesen, which is necessarily used in small quantities, on account of the presence of manganese in the German ore, a small reverberatory furnace is used. The converters are generally arranged according to the English mode, and capable of receiving five to seven and a half. At Steinhausenhuette and Dortmund only the steel is cast in ingots placed on trucks. As to the blowing engines, they were generally of the twin vertical kind; at the Phœnix works, however, the engines are horizontal, of large dimensions, and slow moving.

The Bessemer steel is used almost exclusively for rails, axles, and tires, rarely in the form of steel for tools or castings. Generally the ingots are hammered, but they are sometimes rolled. At Steinhauserhuette the ingots are made of a determined profile, and then rolled at once without any preparatory process. The rail mills, often provided with three reducing rolls, are of 65 inches diameter. Alternating rolls are not in use. The tires are drawn from large ingots, flattened under the hammer to 25 to 35 centimetres thickness, which are broken cold, pierced and then passed between vertical rails. The axles are forged under the hammer with dies. The ends of rails and other scraps are either rolled into small bars, thrown into the converters, or used in the Martin furnaces. The Martin process has also made immense progress as regards its extension. There are eight furnaces at Biskupits, fourteen at Dortmund twelve at at Krupps, three at Phœnix, three at the Grafenberg works, and some at Haspe. The Bochum works is constructing a large establishment and some of the furnaces are ready. In all there must be fifty, capable of producing about 200 tons per day, supposing only one third of them in daily work. All the modifications of the process are employed, utilisation of the scraps, simultaneous daily fusion of the iron and pig, employment of the ore directly as at the Siemens-Landor Works, and employment of the rotator for previous direct extraction of iron from the ore. The last modification, that of the employment of reduced spongy iron in place of ore, practised on a large scale at Messrs. Vickers' at Sheffield, may be seen at the Dortmund and other steel works. In general, Martin steel is considered as taking an intermediate place between Bessemer steel and crucible steel, and it is specially employed for castings, for which it is better fitted than Bessemer steel, on account of its superior density. It is believed that the Martin steel has a large career before it in this direction, for while, on the one hand, it takes the place of crucible steel, which is dearer for large castings, and on the other hand it replaces cast iron with great advantage for all those parts of machines requiring great hardness and great power of resistance, such as mill rolls, arbors, cranks, &c.—*Iron.*

Rome, Watertown and Ogdensburg Railroad.

The Consolidated Convertible First Mortgage Bonds of this company to the amount of $10,000,000 have been placed on the Regular List at the New York Stock Exchange. We quote as follows from the statement of the company:

This company in view of recent acquisitions, as well as additional construction now in progress, also for further additions to their property, equipment, laying steel rails on a portion of the line, and such other improvements as shall be thought proper by the board in the future; and in order to avoid the necessity of creating new liens from time to time, have by a vote of the Board of Directors, duly entered upon their minutes, created a new consolidated convertible first mortgage covering all their present road and branches, together with all additions now being made, or which shall hereafter be made to the said property, including all lands, buildings, improvements, equipment and appurtenances of every kind belonging to the said railway, as more fully appears in said mortgage.

The said mortgage is made to secure bonds already issued and to be issued by the company from time to time, as the board shall direct, to the maximum amount of $10,000,000.

It is not at present intended to issue more than about $4,000,000, and that only for the purpose of acquiring additional property, equipment, &c.

A sufficient amount of the issue will be reserved to be exchanged for, or the proceeds applied in payment of present bonded indebtedness of the company, or the bonds of other corporations being a lien on portions of the road, embraced in the above schedule, the payment of which has been assumed by this company. The total of their own bonds, together with those assumed by them, not exceeding $3,000,000, none of which except those being paid by the provisions of a sinking fund, become due before the year 1891. * * *

The bonds are dated July 1, 1874, due in 1904. Interest seven per cent., with semi-annual interest coupons, due April 1, and October 1, payable in the city of New York. Engraved by the American Bank Note Company.

* * * * *

The principal may be registered, and by surrendering the coupons, the interest also, and made payable only to the person or his order, in whose name they shall stand registered.

* * * * *

The company has been in existence twenty three years—the average dividends paid on the capital stock have been about eight per cent. per annum for the whole term.

The Hardest Coal in America.

The Mount Hope coal mine in Portsmouth, R. I., contains the hardest anthracite in this country, if not in the world. It is much lighter colored than the ordinary anthracite, and in many places it strongly resembles plumbago. The mine yields about 15,000 tons a year, and it is pretty good fuel, though when the beds were opened, many

years ago, it was thought to be next to worthless. It sells for from $2 50 to $4 50 a ton at the mine. Large quantities of this coal are consumed at the mine in smelting copper from Chili.

Progress of New Roads.

Work on the Washington, Cincinnati and St. Louis narrow gauge railroad west of Harrisonburg, is still going on, and will be continued throughout the winter.

The rails on the Quarryhill branch of the Lancaster and Reading Railroad are now laid all the way through Lancaster and across the Conestoga bridge at Graeff's Landing. Track laying is progressing at the rate of about two miles a week, and the total distance to Quarryville, being fourteen miles, it is expected that the trains will commence running not later than the middle of February next.

Horace Fairbanks, President of the Vermont Division of the Portland and Ogdensburg Railroad, says that this division will be done, including the branch to Burlington, and a five mile branch to the Canada line, next season.

It is expected that the Toledo and Bowling Green (Ohio) narrow gauge railway will be finished by the 12th of January.

The Anaheim Branch of the Southern Pacific (Cal.) Railroad was to have been completed to Anaheim by the 1st of January.

The Secretary of the Interior has approved the map of the survey of the Nevada County Narrow Gauge Railroad.

The Cincinnati Southern Railway is now located to a point sixty miles beyond Chitwoods, near the Tennessee and Kentucky boundary.

The Curwinsville extension of the Clearfield and Tyrone Railroad is finished and opened for business.

A railroad from McConnelsville to the Ohio river at Powhatan, Belmont county, Ohio, is proposed.

A street railroad enterprise for the northeastern portion of San Jose, Cal., is on foot in that city.

There is every prospect that a narrow gauge road will be built between Peoria, Ill., and Fond du Lac, Wis., next year.

Washington, Fayette county, Ohio, has subscribed the full amount of its assessment to the Dayton and Jackson narrow guage railway.

A company has been organized in Los Angeles to build a cheap railroad to the sea coast at a point near Truxton, to be built entirely by Los Angeles capital.

At a meeting held in Hollister (Cal.) on the 16th ult., the Hollister and San Juan Narrow Gauge Railroad Company was organized, and a large amount of stock subscribed. The company has made several surveys, and find the grades on the surveyed lines much easier than was expected. The road, when built, will connect either with the Santa Cruz or Salinas and Monterey line, probably the latter.

The Huron and Lake Ontario Railway Company has been incorporated with power to build a railway from some point on Lake Ontario to some point on Lake Huron.

The Albany (Oregon) Democrat says that the Corvallis and Yaquina Bay Railroad question has been attracting a great deal of attention in Benton county, especially in the vicinity of Corvallis and Yaquina Bay, for the past month or two, and now the people living across the river from Corvallis, in Linn county, are taking the question up to a pretty good advantage.

A certificate of incorporation has been filed with the Secretary of State, looking to the construction of a railroad from Prout's station, on the Lake Erie division of the Baltimore and Ohio Railroad, to Fremont.

A branch road from the main line of the new road to Haverstraw will be built in the spring, to connect with the Rockland County Print Works.

Vick's Floral Premiums.

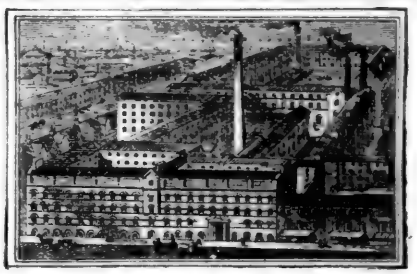
James Vick, the great seedsman and florist of Rochester, New York, in his first number of the *Floral Guide* for 1875, makes the following most liberal propositions to the Territorial or State and County Agricultural Societies throughout the Union and the Provinces of Canada:

For the purpose of encouraging the culture and love of flowers, I authorize the officers of every State and Territorial Agricultural Society in the United States (and where there are two prominent Societies in one State, both), and the Provinces of Canada, to offer, in my behalf, the following premiums:

For the best collection of cut flowers $20
Second best collection of cut flowers 10
Third best collection of cut flowers 5
Fourth best collection of cut flowers. Floral Chromo

The offer is made to amateurs only, and the flowers to be exhibited at the regular Annual Fairs. The awards to be made by the regular judges, or by any committee appointed for the purpose. When only one collection is exhibited, the judges may award the first, or any other premium, according to merit, but the exhibition must be a creditable one, and if not so, in the opinion of the judges, no premium to be awarded. The flowers not to be made up in bouquets, but exhibited separate and named. I shall not consider this offer accepted by any Society, unless published in the regular premium list, so that all may have an opportunity to compete. The money will be forwarded by draft on the Bank of New York City, as soon as the award is made known to us, either to the officers of the Society, or to the persons obtaining the premiums.

I also authorize the officers of every County Society in America to offer one of my Floral Chromos for the best exhibition of cut flowers.



Coal in Colorado.

The probable area of coal lands in Colorado is 100,000 square miles, a larger space than the six New England States. The ascertained area of lands abounding in coal is somewhat less than that of the State of Connecticut. Of fifteen mines working, one near Erie, the Boulder Valley mine, works about one hundred men, taking out about 250 tons per day, the miners, working by the piece, averaging daily wages of $5 each. The vein, worked at from five to fifty feet below the surface of the earth, is now nine feet thick. The year's yield of the mine mentioned above reaches 250,000 tons, worth at least $1,000,000.

Chicago, Burlington and Quincy Railroad.

On the recommendation of the Committee on Stock List, $30,000,000 Chicago, Burlington and Quincy Consolidated Seven per Cent Mortgage Bonds have been placed on the Regular List at the New York Stock Exchange. This mortgage was executed January 1, 1873. Of these bonds a sufficient amount is reserved to take up at maturity the previous bonded debt of the company. From the statement of the company we quote:

The issue under the Consolidated Mortgage are all coupon bonds of the denomination of $1,000, and are registerable at the option of the holder. Any part of the Thirty Millions may be, at the discretion of the directors, issued in Gold Sixes, which would be numbered from one (1) up. None have been issued. The Currency Sevens are numbered from one (1) up. The bonds are dated, in conformity to the mortgage, July 1, 1873, and are payable July 1st, 1903. The interest is payable semi-annually, January 1 and July 1.

Manufactory of the Spencerian Steel Pens, Birmingham, England.

SPENCERIAN
DOUBLE ELASTIC

STEEL PENS

The superiority and excellence of these justly celebrated Pens, are appreciated, as is shown in their constantly increasing sale. They are comprised in 15 numbers, of which *one number* alone has an annual sale of more than

5,000,000.

The *Spencerian Pens* are manufactured of the very best material by the most expert workmen in Europe, and are famous for their elasticity, durability, and evenness of point.

The Spencerian Pens are for Sale by all Dealers.

We make Fifteen Numbers of Pens, differing in flexibility and fineness of point, adapted to every style of writing, as follows:

No. 1. College Pen. *Point Fine; Action Perfect.* This is a great favorite with our leading penmen, is largely used in the Schools and Commercial Colleges throughout the country, and gives better satisfaction than any Pen before the American Public.

No. 2. Counting-House Pen. *Point Fine and Flexible,* well adapted to the use of Correspondents and Accountants.

No. 3. Commercial Pen. *Point Medium.* An Easy Writing Business Pen.

No. 4. Ladies' Extra Pen. *Point Extra Fine and Flexible.* For Delicate Fine Hand Writing this is a very superior Pen.

No. 5. School Pen. *Point Fine, Medium in Flexibility.* For a durable School Pen it has never been equaled.

No. 6. Flourishing Pen. *Point Long, Flexible and Medium in Fineness.* For Off-hand Flourishing.

No. 7. Quill Pen. *Point Medium, Quill Action.* A Smooth, Easy Writing Pen. Its name well represents its qualities.

No. 8. Congress Pen. (New.) *Medium Flexible Point.* A *very* superior Pen for all styles of writing. This Pen undergoes a process that renders it non-corrosive and *three times* more durable than any ordinary steel Pen.

No. 9. Bank Pen. *Point Long and Flexible.* A great favorite with Accountants, Tellers, &c.

No. 10. Custom-House Pen. *Point Medium.* Well adapted to all styles of Bold-hand Writing.

No. 11. University Pen. *Point Medium, very Smooth and Flexible.* The action of this celebrated Pen is very fine.

No. 12. Epistolaire Pen. *Point very Fine and very Flexible.* This is the Finest Pointed Pen made, and for very Delicate Writing, Map and Fine Pen Drawing, it has no equal.

No. 13. Engrossing Pen. *Point Blunt and Smooth.* Particularly adapted to Coarse-hand Writing and Engrossing.

No. 14. Artistic Pen. *Flexible, with extra fine Point.* This Exquisite and Truly Celebrated Pen is the Best Pen extant for Fine Ornamental Writing.

No. 15. The Queen. *Point extra fine.* Admirably adapted to all kinds of Fine Writing.

☞ *Sample Cards containing all the FIFTEEN Numbers, securely enclosed, will be sent by mail on receipt of 25 cents.*

American Railroad Journal.

Saturday, January 9, 1875.

Financial and Commercial Affairs.

The course of the Money market has been against speculative borrowers, especially for Stock and Gold Board purposes. The offerings of capital on call have been on a restricted scale, and the price of temporary aid has been as high as the full legal rate of 7 per cent per annum. The later negotiations were on the basis of 4@5 per cent per annum to the leading Street houses. The first of January interest and dividend disbursements have not thus far afforded much relief to the working of call loans; notwithstanding the favorable exhibit of the City banks, in their last weekly statement. In the discount line, the business of the week has been comparatively moderate, with the best grades of commercial paper quoted at 6@8 per cent per annum. The last public debt exhibit from Washington, and the suspension of Gold sales by the Treasury Department have been regarded as against ease in the loan and discount line. The Public Debt was augmented $3,659,968 in December. The City banks last week enlarged their reserve of legal tender notes $2,480,200, and their deposit item $7,579,600, while also increasing their specie average $4,576,900. They report an increase of $544,500 in the loans and discounts, and of $12,500 in their circulation. The U. S. Sub-Treasury in this city closed the week with a currency balance of $44,796,805, against $46,895,253, the preceding week; and a coin hoard of $47,175,648 against $50,403,661 on the previous return. The City bank exchanges, during the week, were $398,250,629, or a daily average of $79,650,128. The customs revenue of the port, during the week, was $934,000. The City banks reported their average of gold last week at $17,974,000, and their greenback average at $49,643,600. Their deposits stood at $221,469,200. The loan item was $284,209,800. The circulation was $24,622,600.

The City Bank net reserve of specie and legal tender notes now shows an excess, over the legal requirement of reserve to liabilities, of $12,250,300.

The aggregate of the outstanding U. S. currency, of all denominations, Jan. 1, was $428,462,916 The outstanding amount of legal tender notes is 382 millions. The National bank circulation is now $347,959,471.

The U. S. Treasury balances on Tuesday were as follows: Currency, $13,500,000; special deposit of legal tenders for redemption of certificates of deposit, $49,870,000; coin, (including $24,000,000 in coin certificates,) $70,760,000.

The income of the Government, from internal revenues, thus far, in the fiscal year, commencing with July 1, 1874, has been over 59 millions.

Government Disbursed $15,085,827 in December exclusive of payments on account of interest and principal of the public debt.

Gold has been more active and quoted higher. The speculative inquiry has been stimulated by the increase in the public debt in December, the marked decline in the Gold reserves of the national Treasury, and the suspension of Gold sales by Secretary Bristow. The customs call has been light. The export drain has been comparatively heavy. The later dealings indicated less firmness. The extremes of the week have been 111⅞@113, closing on Wednesday at 112⅜ as against 111⅞ on Wednesday of the preceding week. The specie outflow last week was $2,815,481. The imports of specie at this port since Jan. 1, 1874 have been $5,537,590, against $18,520,688 same time last year. The customs demand for Gold last week averaged only $186,800 a day. Foreign Exchange has been in moderately active demand and quoted firm. Bankers' sixty day bills on London closed on Wednesday at $4 85@$4 86; sight bills on London at 4 89½@$4 90½ to the £ sterling. The week's exports of Domestic Produce have been to the currency value of $4,249,239.

The import entries of Foreign Merchandise at New York, including dry goods, amount for the past week to $4,971,137.

Government Securities have been fairly active, but variable as to price, closing rather less firmly. The six per cent of 1881, and the Five Twenties 1865, (latest issue), 1867 and 1868 are now quoted ex the January coupon of three per cent.

U. S sixes of 1881 closed on Wednesday of this week at 118½@118¾; U. S. Five-Twenties of 1862, at 114@114¼; U. S. Five-Twenties of 1864 at 116⅛@116⅜; U. S. Five-Twenties of 1865 118@118¼; U. S. Five-Twenties of 1865 consolidated, 117¼@117⅓; U. S. Five Twenties of 1867, 118⅜@118⅝: U. S. Five-Twenties of 1868, 118¼@118⅜; U. S. Ten-forties at 115@115¼; U. S. Fives of 1881, (Funding Loan) 113¼@114; Six per cent. currency Sixes from 117½@117¾.

Speculation at the Stock Exchange has been fairly active, during the week, but unusually variable on the Railway and miscellaneous list as to values, influenced, in part, by the increased firmness in Money. State and Railway bonds have been less sought after and prices have been quoted somewhat less firm.

General business has been comparatively tame, as usual about the New Year holiday. Values have not been materially altered on the leading kinds of domestic produce. Breadstuffs have been quiet, and rather easier in price. Cotton has been more active and quoted higher. Provisions have been in moderate demand; hog products closed buoyantly. Petroleum and Naval Stores, dull. Tobacco and Wool have been in less request. Hides and Leather firm, on a fair inquiry. Groceries and Dry Goods quiet. Hardware, dull. The Metal trade has been wholly devoid of animation. Iron has been very sparingly sought after. Eglinton Pig Iron quoted from yard at $35; Glengarnock, $37@$38; No. 1 American Pig at $22 75@$25; No. 2 do. at $21@$24; Forge, $21@$24; English Rails at $47 50@$50, gold; American Rails at works, $50@$52; Old Rails, $30. Wrought Scrap, $28@$30. Ocean freights have been fairly active, and rates have been quoted firmer. Grain, Petroleum, Provision and Flour room has been in most demand.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

Brown, Brothers & Co.,

No. 59 WALL St., N. Y.,

Issue, against cash deposited, or satisfactory guarantee of repayment, Circular Credits for Travelers, in *dollars* for use in the United States and adjacent countries, and in *pounds sterling* for use in any part of the world.

THEY ALSO ISSUE COMMERCIAL CREDITS, MAKE CABLE TRANSFERS OF MONEY BETWEEN THIS COUNTRY AND ENGLAND, AND DRAW BILLS OF EXCHANGE ON GREAT BRITAIN AND IRELAND.

The Worcester *Spy* says a new railroad route has been "looked out" from the terminus of the Boston, Hartford and Erie Railroad in Southbridge to a point on the Boston and Albany Railroad, near the limits of Spencer, the distance being about seven miles. This road can be easily built, as the grade is light and there are no cuts or fills of any account. By building this route and the one from Pascoag to East Thompson, which is six miles, the Providence and Springfield and the Boston, Hartford and Erie Railroads would have a short and easy western connection.

Chesapeake and Ohio Railroad.

The annual meeting of the stockholders of this company was held in Richmond on the 23d ult. The report of Gen. Wickham, the vice-president of the road, shows its earnings for the year ending September 30, 1874, to have been $1,460,189 93 ; expenses, $1,214,340 48—net earnings, $245,-849 45. The increase of earnings over the preceding year was $249,681 21, and the increase of expenses $334,640 47, showing the expenses to have been 83.16 per cent of the earnings. Both the president and vice-president strongly recommend the prosecution of efforts looking to a rail connection west of the Ohio river.

The committee to whom the reports were referred, reported back a resolution, which was adopted, requesting the board of directors to use all possible means to secure the speedy connection by rail of the road with the cities of the West. The following gentlemen were elected directors for the ensuing year: C. P. Huntington, A. A. Low, W. H. Aspinwall, D. Stewart, James G. Clark, W. B. Hatch and Wm. Whitewright, Jr., of New York ; Pliny Fisk, of New Jersey ; H. C. Parsons, of West Virginia ; John Echols and William C. Wickham, of Virginia.

Railroad Legislation in Maine.

The Legislature of Maine, which assembled at Augusta on the 6th inst., will be asked to grant charters for a Railroad from Lewiston to Augusta, and from Milo, on the Bangor and Piscataquis road, to Brownsville, with a branch to Sebec, with authority to the towns of Milo, Brownsville, Sebec Williamsburg and Bernard to issue their bonds in aid of the project. Also, for a road from Presque Isle to the boundary, to connect with the New Brunswick and Rivier du Loup Railroad ; also, to incorporate the Marginal Railway Company.

The Castine and Ellsworth Railroad Company will ask to have their charter amended so as to give them leave to extend their road from Ellsworth to Calais, with a branch to Pembroke and Eastport.

The Northern Aroostook Railroad Company will ask for additional legislation, and also to authorize the city of Bangor and all other places along the line of the proposed road to aid in its construction.

The Bangor and Calais Shore Line Railroad Company will ask for authority to bridge at Verona.

The Cumberland County Central Railroad Company will ask for an extension of their charter.

The Coal Trade.

The supply of anthracite coal from all the regions for the week ending on the 26th of December is given by the Philadelphia *Ledger* at 207,714 tons, and of bituminous to same date 31,177 tons, making an aggregate of 238,891 tons, against 251,-048 for the corresponding week last year—decrease 12,157 tons. The whole supply sent so far in 1874 is 21,415,006 tons, against 22,374,204 tons to same period last year, a decrease of 959,198 tons, of which 834,505 tons are anthracite.

☞ Dispatches from Tucson, Arizona, say that very rich gold mines have been discovered in Sonora, on the San Miguel river. The claims already staked cover an area of two miles square.

☞ The New York Stock Exchange governing committee have resolved that no bonds shall hereafter be admitted to the list unless engraved by some responsible bank note company.

Atlantic, Mississippi and Ohio Railroad.

The annual meeting of the stockholders of the Atlantic, Mississippi and Ohio Railroad (Norfolk to Bristol) was held at Lynchburg, Va., on the 22d ult., the Hon. Thomas S. Bocock, presiding. The president, General Wm. Mahone, submitted his annual report, showing the gross revenue for the fiscal year to have been $1,825,843 31; current expenses, $1,097,723 48, leaving a balance as net revenue of $727,619 83, while the corresponding results for the previous year were: Gross revenue $2,193,757 39, current expenses, $1,279,722 22; net revenue, $914,035 17, showing that there has been a decrease of gross revenue by the sum of $368,414 08, or 16 per cent; a decrease of current expenses of $181,998 74, or 14 per cent, and a decrease of net revenue of $186,515 34, or 20 per cent.

Statement of the Public Debt of the United States January 1, 1875.

Totals	$64,623,512 00	$1,938,705 36

Interest paid by United States, $24,325,396 98; interest repaid by transportation of mails, &c., $5,601,838 12; balance of interest paid by United States, $18,723,558 86.

The foregoing is a correct statement of the public debt, as appears from the books and Treasurer's returns in the Department at the close of business, December 31, 1874.

B. H. BRISTOW,
Secretary of the Treasury.

Grand Rapids and Indiana Railroad.

Eight million dollars bonds of the Grand Rapids and Indiana Railroad Company have been added to the Stock Exchange List. In the official statement of the company the bonds are described as follows:

$4,000,000 are "Guarantied Bonds." Principal and interest guarantied by the Pennsylvania Railroad Company, and, and are also a lien upon the land grant. No. 1 to 4,000. Coupons January and July.

$3,020,000 are "Unguarantied Bonds," which are secured by the same mortgage as the guartied bonds on the entire land grant.

$980,000 are "Ex-Land Grant Bonds," being a part of the originally $4,000,000 unguarantied bonds, which have from time to time been redeemed by the operations of the Sinking Fund. When the land certificate is detached they are no longer a lien on the land, but, by the terms of the Trust Deed, remain a first mortgage on the whole line and appurtenances. No. 4,001 to 8,000. Coupons April and October.

The following was the recommendation of the Committee on Stock List:

The Committee recommend that these bonds be placed on the free list in three classes and called:

Grand Rapids and Indiana 1st;

Grand Rapids and Indiana 1st guarantied;

Grand Rapids and Indiana 1st ex Land Grant.

A New Trunk Line to the West.

The Carolina Central Railway Company has just completed its road a distance of 242 miles from Wilmington to Shelby, connecting at Charlotte with the leading Southern roads. A connection will shortly be made with the Western North Carolina road, a sale of which has been decreed under the first mortgage. It is stated that immediately thereupon it will be extended to the Tennessee line, connecting with the Western and Northwestern road. When these two missing links are added the Carolina Central and the Western North Carolina will form the shortest line to the Atlantic for a large part of the South and West. The Carolina Central is almost entirely owned in New York and is said to be the only unfinished road in the United States upon which work was never stopped in spite of the panic. Its completion now will help to make Wilmington one of the leading cotton ports of the country, and as that city is nearer to Cincinnati and Louisville than any other Atlantic port, it must in time get a large share of the Western trade.

Mining Statistics.

From the report of the United States Commissioner of Mining Statistics, it appears that the progress of the mining industry in the Pacific States and Territories during the year 1873 was in general satisfactory. The total production was much larger than in 1872. The estimates of the production of the United States in gold since the discovery of gold in California show the amount in California in 1848 to be $10,000,000, and in 1873 $17,000,000. The highest amount was in 1865, $65,000,000. The entire production from 1848 to

1873 inclusive, was	$985,000,000
Other States and Territories	255,750,000
Being a total of	$1,240,750,000
The estimated silver product since 1847 is	186,050,000
Making the total gold and silver from 1848 to 1873, inclusive	$1,426,800,000
Gold product before 1848	14,440,000
Total gold and silver product of the United States	$1,441,240,000

OFFICE OF THE ILLINOIS CENTRAL RAILROAD COMPANY, NEW YORK, Dec. 15, 1874.

A DIVIDEND OF FOUR PER CENT. HAS BEEN declared by this Company, payable on the 1st day of February next, to the holders of full paid shares registered at the close of the 15th day of January next, after which, and until the 5th day of February, the transfer books will be closed.

L. V. F. RANDOLPH, Assistant Treasurer.

NOTICE.

The Coupons of the Mortgage Bonds of the Buffalo Branch Erie Railway Company.

Seven per cent Convertible Gold Bonds, Erie Railway Company.

Erie and Genesee Valley Railroad Company.

Avon, Geneseo and Mount Morris Railroad Company.

Buffalo, Bradford and Pittsburg Railroad Company.

Paterson and Newark Railroad Company.

Newburg and New York Railroad Company.

Jefferson Railroad Company.

And also the semi-aannal dividends on the stock of the Rochester and Genesee Valley Railroad Company and the Avon, Geneseo and Mount Morris Railroad Company, falling due 1st January next, will be paid on and after the 2d prox., at the treasury of the Erie Railway Company corner of Duane and West street, New York.

W. P. SHEARMAN, Treasurer.

OFFICE CENTRAL PACIFIC RAILROAD COMPANY, No. 9 NASSAU ST., NEW YORK, Dec. 24, 1874.

THE COUPONS OF THE FIRST MORTGAGE bonds of the Central Pacific Railroad Company, the Western Pacific Railroad Company, and the California and Oregon Railroad Company, due Jan. 1, 1875, will be paid in gold at the office of Fisk & Hatch, No. 5 Nassau st.

Holders presenting ten or more coupons will leave them for examination, in which case a receipt will be given and payment made on the following day.

C. P. HUNTINGTON, Vice President.

The Secretary of the Treasury on the Financial Situation.

Hon. B. H. Bristow, Secretary of the Treasury, while in Cincinnati on the 29th ult., visited the Chamber of Commerce, where he made a brief speech to the members. In the course of his remarks he said:

"We have passed through financial disasters greater in extent than almost any other people have ever suffered and yet survived. But the tremendous energies and recuperative powers of our people have been equal to all emergencies. We have not only survived, but we intend to build up our future prosperity on a basis more enduring than ever. We have gone down almost to hard pan, but we mean to come out without loss and to build up on a basis that cannot be shaken. I believe this is the sentiment of the people of Cincinnati. I believe with you, that there is no other real prosperity than that which looks to rebuilding on a foundation that cannot be broken. At all events, if any financial disasters do come upon us, it shall not be on account of any fault of ours.

"As I look at the financial question it can only be satisfactorily solved by carrying out in good faith the obligations of the nation, according to the import of the promises when they were made. After all that has been said and written on the great subject of our finances, there is but one simple, axiomatic truth that must never be forgotten, and that is, that honesty must ever be the best policy. There can be no policy that has not the principle of honesty underlying it that is worthy of a moment's consideration by a commercial community.

"Our pomises were made amidst dire necessity; our faith was pledged in the midst of a struggle that threatened our very national existence. Let us not forget the honor that requires us to redeem those promises at the earliest practicable day. The time has come when we must begin to do something, instead of talk in more glittering generalities.

I am glad to see that the Congress of the nation has at last begun to feel the importance of this matter, and that we have now some assurance that the body will recognize the proposition that the legal tender notes, issued under the pressure of our necessities, must be redeemed in that which the world regards as money. And when they are so redeemed, all the promises of the government may be so redeemed; and when this condition of things is satisfactorily accomplished, our future prosperity will be beyond all doubt."

Central Asian Railway.

M. Victor de Lesseps and Mr. Stuart have printed their report upon the journey they recently undertook for the purpose of tracing out a railway line between Turkestan and India. M. de Lesseps thinks that the most practicable road starts from Lahore, and, reaching Serinagapur by the Valley of the Jhelum, proceeds through the Sotchil and Karakorum passes to Yarkand, Kashgar, Khokand, Tashkend, Orenburg, Ekaterinburg, and Moscow. The Russian Government are said to be in no hurry to act upon this advice.

Chesapeake and Ohio Railroad.

A correspondent of the Baltimore *Sun*, writing from Richmond, Va., under date December 24, 1874, says:

The Chesapeake and Ohio Railroad Company has not yet been able to master the financial difficulties with which it has been beset since the great panic of last year. At the annual meeting just held here, it was authoritatively stated that it would be impossible for the company to proceed with any assurance of success unless all the bondholders agree to fund their bonds as proposed by the board. The board of directors are now seriously entertaining the thought of discontinuing the through freight and passenger trains which have for some time past been run with the hope of building up a profitable Western trade. But as there are no rail connections beyond Huntington, as the Ohio river is not always full of water, and as boats cannot always run, and as the Baltimore and Ohio railroad is an active and and irrepressible competitor, the Chesapeake and Ohio Company has found that these through trains do not pay. Mind it has not been determined to stop these trains, but the matter is being seriously considered, General Wickham, the vice-president, says.

Central Pacific Railroad.

Messrs. Fisk & Hatch, according to their usual custom, have issued a circular containing the earnings of the Central Pacific Railroad Company for each month of 1874, and also for the year as compared with previous years, as well as other information of interest to the bondholders of the company. The following is a statement of the earnings by months and for the year in comparison with previous years:

1874.	Gross earnings.	Earnings over operating expenses.
January	$848,558 34	$391,023 63
February	804,044 26	398,163 22
March	882,423 44	413,332 47
April	1,110,623 47	647,334 20
May	1,311,698 86	840 504 85
June	1,366,614 81	921,544 07
July	1,286,939 94	834,111 03
August	1,322,557 01	836,659 15
September	1,371,789 46	832,247 72
October	1,465,514 68	938,266 59
November	1,314,000 00	789,000 00
December	1,150,000 00	625,000 00
Total.	$14,234,714 27	$8,467,186 93

The gross and net earnings for the years 1872 1873 and 1874, compare as follows:

	Gross earnings.	Earnings over operating expenses.
1872	$12,734,729 88	$7,207,284 63
1873	13,872,632 27	8,214,908 20
1874	14,234,714 27	8,467,186 93

Increase of earnings over operating expenses for

1873 over 1872	$1,007,623 57
1874 over 1872	1,259,902 30
1874 over 1873	252,278 73

Interest and Dividends.

Coupons due January 1, 1875, on bonds of the Erie Railway Company, and bonds guaranteed by that company, also the semi-annual dividends on the stock of the Rochester and Genesee Valley Railroad Company and the Avon, Genesee and Mount Morris Railroad Company, due 1st January, will be paid at the treasury of the Erie Railway Company, corner of Duane and West streets, New York.

The regular quarterly dividend of 1¼ per cent. cash upon the stock of the Missouri Pacific Railroad will be paid by the leasee, the Atlantic and Pacific Railroad Company, on the 20th instant at its office, 3 Broad street.

The January coupons of the Carolina Central Railway Company will be paid in gold by Watson Matthews, Treasurer, 4 Broad street.

The Attleboro' Branch Railroad company have declared a dividend of 3½ per cent, payable January 1, 1875.

The Frankfort and Holmesburg Railroad company will pay a dividend of 3 per cent. on the capital stock, and the coupons due January 1, 1875, at the office of Wm. Taylor, 233 South Fourth St., Philadelphia.

For other dividends, and interest payable in January, see pages 39 to 49, inclusive, this week's issue.

Pacific Mail S. S. Co.

At a meeting of the directors of this company held on the 4th inst., the following address to the stockholders was adopted:

OFFICE PACIFIC MAIL STEAMSHIP CO.,
NOS. 59 AND 61 WALL ST.,
NEW YORK, January 4, 1875.

To the Stockholders of the Pacific Mail Steamship Company.

In consequence of the inability of the company to obtain access to their books, which have been in the possession of the Committee of Ways and Means of the House of Representatives for the past three weeks, the Board of Directors have been unable to prepare a statement of the company's business. As the year 1874 has closed, the board have decided to publish at the earliest date possible a statement covering all the business from May 31, 1873, to December 31, 1874.

By order of the Board of Directors,
RUFUS HATCH.
Managing Director.

Personal.

Mr. Mullet, late Supervising Architect of the Treasury Department, has become Vice President of the Chroma Steel Company, of Brooklyn, N. Y., at a salary of more than double that of his previous position, besides a contingent interest in the business.

Mr. Wm. A. Potter, the successor of Mr. Mullet, is a son of the late Bishop Potter, of Pennsylvania, and a brother of Mr. Clarkson N. Potter, a member of Congress from New York, and of Gen. Robt. B. Potter. In his profession he is a man of exceptional ability, and has achieved an enviable reputation. He is the architect of the Berkshire Athenæum, Congregational Church at Springfield, Mass., the Amherst College chapel, and the Princeton Scientific School and Library, which is said to be considered the best building for its purpose in the United States.

John W. Phelps has been appointed Superintendent of the Springfield, Athol and Northeastern Railroad.

M. M. Green has been elected President of the Columbus and Hocking Valley Railroad Company, vice B. E. Smith resigned.

☞ A dispatch dated Milwaukee, December 31, says it is understood that certain parties have made a canvass of the members of the Legislature, which meets the 13th of January, to ascertain their views of the Potter law, establishing the rates for passengers and freights. They are very reticent as to the results of the canvass, but it is believed that a decided majority is in favor of repealing the law. The fact that most of the small railway enterprises in the State are in a desperate financial strait will, it is believed, have a great influence in the repeal of the law, as also the stagnation that has overtaken business throughout the State.

☞ Articles of association of the Wabash and Kokomo Railroad Company, with a capital stock of $85,000, have been filed with the Secretary of State of Indiana. The northern terminus of said road is at the city of Wabash, from which point it extends southwest through the counties of Wabash, Miami and Howard, terminating at Kokomo. The estimated length of said road is twenty eight miles.

☞ The payment is announced in London, on and after the 1st of January, of the balance outstanding of the Delaware and Hudson Canal Company's Six per Cent. Sterling Debenture Loan, together with the accrued interest.

Embarass du Richesse.

On the 19th of November the Colonial Treasurer of New South Wales made a financial statement which astonished not only the people of the Colony, but all Australia. Fancy an Australian Government laboring under an *embarass du richesse*, with every indication of further troubles of a similar nature. On the 1st of January last there was a balance of £720,089 at a credit of the public accounts. The revenue actually received to 30th September amounted to £2,376,822, and £1,081,154 is expected for the ensuing quarter. The total charges for the year will absorb £3,506,780, leaving a surplus of £694,046 to be carried forward to 1875 account, and when added to the anticipated revenue for the year will leave £4,218, 286 to be dealt with. The regular estimates for the year provide for spending £3,423,451, or less than the amount the ordinary current revenue receipts will provide for. The surplus from this year will enable the Government to pay $261,000 interest on public debt for the present half year, and £51,500 to redeem debentures due on the first of June next; £241,229 received and expected from conditional purchases for balance due on land is to be appropriated for liquidation of the public debt, thus reducing the actual balance from this year to £130,317. Should the estimated receipts for 1875 realize his anticipations the Treasurer expects to have a surplus of £236,096 at the close of the year.

New Postal Relations with Canada.

The Postmaster General has ordered that on and after the 1st of January, 1875, all printed matter, of the second class, destined for Canada will be treated as though it was destined for the United States. The arrangement with the Canadian postal authorities being that it shall be delivered there free of charge, all matter of this class coming into our offices from Canada will be delivered by this Department free of charge. The same rule also applies to transient newspapers and postal cards. On and after February 1, 1875, the single letter rates to Canada will be three cents, prepayment obligatory, and all letters received from Canada will be delivered free of charge.

LANSDELL'S

Patent Portable Railway Syphon.

The Portable is invaluable on a freight or construction train, being used to take water at points where there are no water stations. With it water can be taken from any point within one hundred feet of the track where there is water six inches or more in depth. The valve C is tapped into the locomotive boiler; steam is let on through the hose B; water is drawn through the orifices D D, and forced through the hose E into the tender, filling any tender with warm water in from six to twelve minutes.

Lansdell's Patent Steam Syphons, Double Suction, adopted by the United States Board of Supervisors and approved by the Secretary of the Treasury for use on Steamboats.

For Price and particulars, apply to the General Agents of the Steam Water Station Company,

New York, Saturday, January 16, 1875.

Start the Unemployed to Work!

There are at this time in the United States, mainly in the seaboard and manufacturing portions, from 200,000 to 500,000 able-bodied male laborers destitute of employment, many of them destitute or nearly so, of the necessaries of life. There are besides an equal number of tradesmen, merchants and shelterers, whose business, livelihood, or capital are seriously abridged in consequence of the enforced idleness of the former class. In addition we may say that the organized industries of the whole country, the transporters, miners, foundries, workshops, mills, banks, insurers, and in fact nearly every species of employment, is suffering from a very severe inaction. This state of things is, of course, a sequel of the panic; but its severity is unduly prolonged by the need of something from without, which shall tend to brighten the prospect, restore confidence and thereby start capital into new investments and once more set the wheels of business in motion. There is as much money as before, and as much actual property; but there is less hopefulness and hence a torpid circulation of money and credits. Capitalists prefer to leave their money in bank at a low rate (or at no rate) of interest, to lending it to traders, manufacturers or projectors of improvements at the higher rates, chiefly because there is no visible hope of a return to the natural briskness of trade and credits. As panics are the result of instinctive terror, so their remedies should also be addressed to a restoration of tranquillity of mind.

It may be asked: what remedy can be proposed for this extreme depression? Of all the suggestions, including inflation of the currency, and other financial devices, we have met none which would be so effective and at the same time so simple, so certain, so beneficial and so legitimate, as the proposal for the government to lend the sanction of its encouragement to certain great necessary works of internal improvement. We are not now concerned with the particular works to be stimulated into activity, nor of the extent and manner of doing it. But if it were understood, tomorrow, that there were authority from Congress which would justify the construction of 3,000 miles of railroad in the country, in less than three weeks there would be a hundred furnace fires lighted which are now dark, a hundred mines now silent at work, and in less than three months more than three-fourths of all the idle laborers in the United States would be offered employment at fair wages!

This is a consummation so devoutly to be wished that one is tempted to ask "what prevents it from being done?" We have considered the usual objections made in newspapers and in political debates. They are (1) that it is not the province of government to assist or promote private interests by public funds; and (2) that the debt and taxation are already sufficiently onerous, without fresh burdens. The fallacy that underlies the first declaration arises out of a misstatement of the case. It is assumed that governments are ordained among men for merely negative purposes; that is, to prevent something being done, to prevent invasion, to repress insurrection and arrest breakers of the peace. This view has nowhere in history nor in speculative reasoning, any large support. A much more congenial, and beneficent theory of government is that it is instituted among men for the purpose of achieving some desirable object by their co-operation which they could not accomplish separately and singly. We hold, with the mass of mankind, that government is for a positive not a negative end; that it may and should initiate and promote the welfare and the happiness of the governed, as well as merely to keep them from destroying each other.

Again there is a confusion in regard to the meaning of private interests, as also in the use of public treasures. In the larger sense the railroads of the country are a public convenience, while in the technical and legal sense they are private property. They carry the public mails, the troops and subsistence of armies as needed; beside ministering to the daily wants of the greatest numbers. And yet had it not been for the aid of the States we should have had no such system of railroads or canals as we now have; but for the extension of the credit of the government to the Pacific Railroad we should, it is quite safe to say, have had no rail line to California. It is difficult to understand upon what other theory the government has for a century been erecting light-houses on its coasts, surveying harbors, deepening channels of rivers and otherwise assisting the floating commerce, than the idea that it redounded for the common benefit, although the first recipients of the benefit are the private owners of the shipping. It may be asserted that these are but part of the common defences, the commercial benefits being incidental. Such is not, in fact, the true history of their origin; but granted for this occasion, has not the nation armies and forts on land as well as sailors and ships on the seas? It is impossible to construct a railroad on land, which may not as much as a beacon on the coast, be of great service to the military power of the country.

Dismissing, however, the military aspect of the case, and returning to the needs of our suffering and starving laborers, it is but a short time since government aid was invoked in behalf of sufferers

from fire, sufferers from inundation and sufferers from insect plagues. Is it not time some voice should be heard in the national forum in behalf of the sufferers from enforced idleness—not by their own fault or choice—the relief for which is in the hands of our representatives?

The second objection falls more easily than the first. In the first place these desired objects can be accomplished without the addition of a dollar to the burden of the debt, and in the second place the taxation would be more easily borne than now, because we should have more labor and more wealth to pay with and the fewer paupers to keep. It is an easy thing to demonstrate that the annual loss to the country from this unwilling mass of idleness is greater than the entire cost of all the canals and railroads now seeking for encouragement at the hands of governmet, even if the sum were sunk in them forever, without any repayment. As we understand it, government will not lose a dollar by its loan of credit, but be repaid to the last penny, and at the same time effect a saving in the transportation of the public freights and of the expenses of all private persons. Is not this an object worthy the attention of government, far transcending the petty disputes which now mainly engross its attention?

Finances of Boston.

The total funded debt of the city of Boston, Mass., on the 31st of December, 1874, amounted to $43,474,841 96, and the unfunded debt (including loans authorized but not negotiated) $1,244,281 13—making a total of $44,719,123 09, against $43,466,304 18 on the 31st of December, 1873, showing an increase of $1,252,818 91. The means on hand on the 31st of December, 1874, for the payment of this debt were as follows: funds in the hands of the sinking fund Commissioners, $14,373,332 98; public land and other bonds pledged for the payment of the debt, $1,287,573 75—total, $15,661,906 73. The means on hand for the payment of the debt of 1873, at the close of that year, were $14,527,313 81—an increase of means during the year 1874 of $1,134,592 92.

The gross debt Dec. 31, 1874, was	$44,719,123 09
The means on hand for the payment of the same Dec. 31, 1874, were	15,661,906 73
Net debt, Dec. 31, 1874 was	$29,057,216 36

The net debt of the city Dec. 31, 1873, was $28,938,990 37, which shows an increase of the net debt amounting to $118,225 99 during the municipal year 1874, while the gross debt was increased $1,252,818 91.

During the year 1874 the payments, on account of the debt, amounted to $1,446,993 81, and the certificates of indebtedness were canceled.

The gross debt is classified as follows:

	Dec. 31, 1874.
City Debt proper	$27,748,655 18
Water Debt (net cost of the works)	10,962,898 74
War Loans (outstanding)	1,799,500 00
Roxbury Debt (outstanding)	502,900 00
Dorchester Debt (outstanding)	132,500 00
Charlestown Debt (outstanding: City $1,279,028 57, Mystic Water Works 1,287,000 00)	2,566,028 57
Brighton Debt (outstanding)	511 640 60
West Roxbury Debt (outstanding)	495,000 00
	$44,719,123 09

California Railroads.

ROUTES, LENGTH AND GAUGE.

There are 1,261 miles of wide gauge railroad completed and in operation in this State (all of which is four feet eight and one-half inch gauge) to wit:

CENTRAL PACIFIC RAILROAD.

	Miles.
Oakland to State line	276

RAILROAD.

San Rafael to San Quentin	3

VISALIA RAILROAD.

Visalia to Goshen	7

In addition to the wide gauge roads, there are narrow gauge railroads, to wit:

San Francisco and North Pacific Coast Railroad, Saucelito toward Russian river, 30 miles, completed.

Salinas and Monterey Railroad 18½ miles, was completed during the past season.

The Colfax and Nevada Narrow Gauge Road, 23 miles in length, is under contract, and to be completed next season.

The Watsonville and Santa Cruz Narrow Gauge Railroad, 22 miles in length, is now being constructed, and will be completed next season.

RECAPITULATION.

	Miles.
Broad Gauge	1,261
Narrow Gauge	48½
Narrow Gauge under Construction	45
Total	1,354½

Boston Street Railroad Business.

The following is a comparative statement of street railways of Boston for the year ending Sept 30, 1874:

The average receipts per mile have been as follows: Middlesex Railroad, 45.36 cents; Metropolitan Railroad, 37.34 cents; South Boston Railroad, 39.30 cents; Union (Cambridge) Railroad 41.38 cents; Highland Railroad, 30.92 cents.

The average expenses per mile run have been as follows: Middlesex Railroad, 38.79 cents; Metropolitan Railroad, 34.49 cents; South Boston Railroad, 33.90 cents: Union (Cambridge) Railroad, 38.58 cents; Highland Railroad, 28.01 cents.

The average net earnings per mile have been as follows: Middlesex Railroad, 6.57 cents; Metropolitan Railroad, 2.85 cents; South Boston Railroad, 5.40 cents; Union (Cambridge) Railroad, 2.80 cents; Highland Railroad 2,91 cents.

The average number of passengers carried per round trip has been as follows: Middlesex Railroad, 41.57; Metropolitan Railroad, 39.90; South Boston Railroad, 45.32; Union (Cambridge) Railroad, 45.75; Highland Railroad, 41.90.

Boston, Revere Beach and Lynn Railroad.

We learn from the Boston *Journal* that the subscription to the stock of this road is now entirely filled up. The capital stock is $300,000, the right of way valued at about the same amount being entirely contributed. The road which will be eight and one half miles in length, will be commenced as soon as the spring opens and it is expected will be completed by the first of June as preparations will be made in advance to carry on the work speedily, as it is to be constructed for a passenger road, a narrow gauge of three feet is decided upon. The ferry landing is to be at Rowe's wharf, the depot located on Atlantic avenue near the junction of Broad and High streets. The through transit from Boston to Lynn will be made in thirty minutes, passing through the property of the Boston Land Company and over Revere Beach. It will, besides the regular travel, be found one of the pleasantest for excursion trips of any conveyance from the city.

Providence and Worcester Railroad.

The income of this company for the years ending September 30, 1873 and 1874, was as follows:

	1873.	1874.
From passengers	$411,746 98	$400,341 53
" freight	584,739 47	506,771 37
" mails	8,874 52	6,114 38
" rents	7,464 37	11,880 38
" express	12,984 18	12,963 76
	$970,809 52	$938,071 42
Expenses, viz:		
Maintenance of way	$170,329 21	$180,364 69
Repairs of locomotives	42,855 00	39,884 10
Repairs of cars	65,620 00	70,662 65
Fuel	79,371 05	80,869 86
Oil	7,935 98	9,038 26
Passenger department	72,803 60	78,441 23
Freight department	162,187 90	154,575 13
Taxes	36,513 65	38,493 02
Rent to Milford and Woonsocket R. R. Co.	5,000 00	3,480 00
Rent to Hopkinton R. R. Co.	.....	7,500 00
All other expenses	71,089 78	70,066 84
	$718,706 17	$733,875 78
Net earnings	$257,103 35	$204,695 64

The receipts and payments, other than those for operating the road during the year ending September 30, 1874, are as follows:

Received for the company's notes	$690,654 69
Net income, as above	204,695 64
Increase amount of unpaid dividends	1,325 00
Total	$896,675 33
Paid and charged to construction and equipment	$653,886 68
Interest	80,000 00
Dividends January 1 and July 1, 1874, five per cent each	200,000 00
Materials on hand September 30, 1874	$176,033 93
Cash on deposit at bank	100,280 12
Interest due on deposits	1,133 52
Note	280 00
Balances due other roads	6,328 32
	$284,055 89
Less property on hand September 30, 1873	271,267 24
	12,788 65
Total, as above	$896,675 33

The length of road in Massachusetts is 25.51 miles; do., in Rhode Island, 17.90 miles—total, 43.41 miles. Length of double track, 30.65 miles. Length of branch, 1 mile, single track. Total length of road belonging to this company, 44.41 miles. Aggregate length of single track, 93.06 miles. Length of sidings 28¼ miles. Length of roads belonging to other companies operated by this company, 15.43 miles. Total miles of road operated by this company, 59.84 miles. The report says:

Notwithstanding the general depression that has affected all kinds of business—none more than railroad transportation—our gross receipts have fallen off less than we anticipated from the promise of the business of the year.

It has been the desire of the management, not only to see the receipts kept up, but also to maintain the road in a thorough state of repair; and it is to-day in the most perfect condition for service and economy.

We have completed the East Providence Branch, from Valley Falls to tide water, and the new year already feels the effect in a large reduction of the initial expense, with which we have been burdened at the Providence end of the road.

We have in the new branch a first class piece of road, which will prove a valuable and profitable addition to our line.

During the year we have planted 14 miles of steel rail in our main line, rebuilt a large and substantial bridge on the Smithfield road in the town of Pawtucket, reconstructed and strengthened many bridge abutments and culverts, and have constructed new and lengthened old turnouts, increasing the operating expenses—but placing every outlay where it must inure to the permanent advantage of the road.

We have added 230 new coal dumps to the coal transportation equipment, and have now the most generous outfit for that business in New England. We have also added one new and elegant smoking and baggage car. Not a locomotive or car that would admit of repairs has been discarded or neglected, but promptly and thoroughly put in perfect condition for service.

The present condition of the road and all that pertains to operating the same, warrants the belief that even with a large increase of business, our expense can be reduced, and at the same time nothing neglected that ought to be done.

The extensive Viaduct in process of construction in Worcester, in connection with other roads, is in a good state of progress and will soon be completed. This, and the building of the branch road, with the other improvements referred to above, have made the year one of unusual expenditure, but all will without doubt result ultimately to the great benefit of the company.

To your efficient and energetic Superintendent great credit is due for the successful carrying out of the plans for the additions and improvements of the year.

The company have 29 locomotives, 41 passenger, mail and baggage cars, and 1,257 other cars, and 2 snow plows.

Miles run by passenger trains, 231,210; by freight trains, 271,940; by other trains, 25,810—total, 528,960. Number of passengers carried, 1,715,636; do., carried one mile, 15,191,135. Tons of merchandise carried, 506,383; do., carried one mile, 15,237,902.

BALANCE SHEET, September 30, 1874.

Construction		$2,205,691 34
East Providence Branch Railroad		301,730 80
Viaduct at Worcester		24,824 79
		$2,532,246 43
Cars		570,074 00
Locomotives		263,339 35
Total construction and equipment		$3,365,659 78
Materials for operating and maintaining the road	$176,033 93	
Cash on hand	100,280 12	
Note on hand	280 00	
Interest on deposits due from bank	1,133 52	
Balances due from other roads, etc	6,328 32	
		284,055 89
		$3,649,715 67
Capital stock		$2,000,000 00

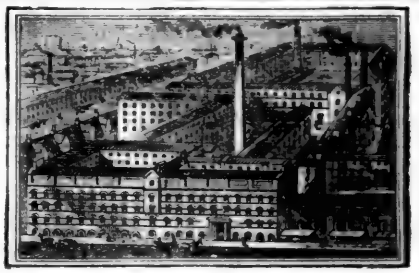
Notes payable		1,075,654 69
Total		$3,575,654 69
Dividends unpaid		4,135 00
Surplus, (balance income account,)		69,925 98
		$3,649,715 67

President.—WILLIAM S. SLATER.

Directors.—William S. Slater, Earl P. Mason, Paul Whitin, Isaac Davis, Henry Chapin, John Carter Brown, Gideon L. Spencer, Elijah B. Stoddard, Lyman A. Cook, Estus Lamb, John C. Whitin, James Y. Smith, George A. Leete, Eben B. Phillips, John R. Balch.

Treasurer and Clerk.—JOHN R. BALCH.



Superintendent.—WILLIAM D. HILTON.

Michigan and Ohio Railroad.

The Michigan and Ohio Railroad company recorded a mortgage in Franklin county on the 2d of January, and in all the counties along the proposed line of road, on which fifteen million dollars are to be raised for making the improvement. The bonds are to be issued in two series of seven and half million dollars each, the money to be raised as it is needed. The road will pass through Williams, Defiance, Putnam, Allen, Auglaize, Logan, Hardin, Union, Franklin, Pickaway, Ross, Pike and Scioto counties in Ohio, and through five counties in Michigan, connecting Grand Haven with Portsmouth.

Railway Enterprise in Mexico.

Official advices received at Washington from the City of Mexico confirm recent telegraphic reports of important railroad undertakings in that Republic. A contract was signed between the Government and an English Company on the 5th of December for the construction of a railroad from Mexico to Leon, and on the 12th of December another contract was signed with Edward Lee Plumb, representing the International Railroad Company of Texas, for the construction of a road from Leon to the Rio Grande, to connect with the International Railroad. This will make it necessary to construct 1080 miles of railroad to connect the existing railroads in Texas with the City of Mexico.

Manufactory of the Spencerian Steel Pens, Birmingham, England.

SPENCERIAN
DOUBLE ELASTIC

STEEL PENS

The superiority and excellence of these justly celebrated Pens, are appreciated, as is shown in their constantly increasing sale. They are comprised in 15 numbers, of which *one number* alone has an annual sale of more than

5,000,000.

The *Spencerian Pens* are manufactured of the very best material by the most expert workmen in Europe, and are famous for their elasticity, durability, and evenness of point.

The Spencerian Pens are for Sale by all Dealers.

We make Fifteen Numbers of Pens, differing in flexibility and fineness of point, adapted to every style of writing, as follows:

No. 1. College Pen, *Point Fine; Action Perfect.* This is a great favorite with our leading penmen, is largely used in the Schools and Commercial Colleges throughout the country, and gives better satisfaction than any Pen before the American Public.

No. 2. Counting-House Pen. *Point Fine and Flexible,* well adapted to the use of Correspondents and Accountants.

No. 3. Commercial Pen. *Point Medium.* An Easy Writing Business Pen.

No. 4. Ladies' Extra Pen. *Point Extra Fine and Flexible.* For Delicate Fine Hand Writing this is a very superior Pen.

No. 5. School Pen. *Point Fine, Medium in Flexibility.* For a durable School Pen it has never been equaled.

No. 6. Flourishing Pen. *Point Long, Flexible and Medium in Fineness.* For Off-hand Flourishing.

No. 7. Quill Pen. *Point Medium, Quill Action.* A Smooth, Easy Writing Pen. Its name well represents its qualities.

No. 8. Congress Pen. (New.) *Medium Flexible Point.* A very superior Pen for all styles of writing. This Pen undergoes a process that renders it non-corrosive and *three times* more durable than any ordinary steel Pen.

No. 9. Bank Pen. *Point Long and Flexible.* A great favorite with Accountants, Tellers, &c.

No. 10. Custom-House Pen. *Point Medium.* Well adapted to all styles of Bold-hand Writing.

No. 11. University Pen. *Point Medium, very Smooth and Flexible.* The action of this celebrated Pen is very fine.

No. 12. Epistolaire Pen. *Point very Fine and very Flexible.* This is the Finest Pointed Pen made, and for very Delicate Writing, Map and Fine Pen Drawing, it has no equal.

No. 13. Engrossing Pen. *Point Blunt and Smooth.* Particularly adapted to Coarse-hand Writing and Engrossing.

No. 14. Artistic Pen. *Flexible, with extra fine Point.* This Exquisite and Truly Celebrated Pen is the Best Pen extant for Fine Ornamental Writing.

No. 15. The Queen. *Point extra fine.* Admirably adapted to all kinds of Fine Writing.

☞ *Sample Cards containing all the FIFTEEN Numbers, securely enclosed, will be sent by mail on receipt of 25 cents.*

IVISON, BLAKEMAN, TAYLOR & CO.
138 & 140 Grand Street, N. Y.

The Value of Foreign Coins in American Money.

The following circular has been issued by the Treasury Department:

TREASURY DEPARTMENT,
WASHINGTON, D. C., Jan. 1, 1875.

The first section of the act of March 3, 1873, provides "that the value of foreign coin, as expressed in the money account of the United States, shall be that of the pure metal of such coin of standard value," and that "the values of the standard coins in circulation of the various nations of the world shall be estimated annually by the Director of the Mint, and be proclaimed on the 1st day of January by the Secretary of the Treasury." The estimate of values contained in the following table has been made by the Director of the Mint, and is hereby proclaimed in compliance with the above stated provisions of law:

Country.	Monetary Unit.	Standard.	Value in United States Money.	Standard Coins.
Argentine Republic	Peso fuerte	Gold	$1 00	None.
Austria	Florin	Silver	45.3	Florin.
Belgium	Franc	Gold and silver	19.3	5, 10 and 20 francs.
Bolivia	Dollar	Gold and silver	96.5	Escudo, ½ bolivar and bolivar.
Brazil	Milreis of 1,000 reis.	Gold	54.5	None.
British Possessions in North America	Dollar	Gold	1 00	—
Bogota	Peso	Gold	91.2	—
Central America	Dollar	Silver	91.8	Dollar.
Chili	Peso	Gold	91.2	Condor, doubloon and escudo.
Cuba	Peso	Gold	92.5	—
Denmark	Crown	Gold	26.8	10 and 20 crowns.
Ecuador	Dollar	Silver	91.8	Dollar.
Egypt	Po'nd of 100 piasters.	Gold	4 97.4	5, 10, 25 and 50 piasters.
France	Franc.	Gold and silver	19.3	5, 10 and 20 francs.
Great Britain	Pound sterling	Gold	4 86.6½	⅛ sovereign and sovereign.
Greece	Drachma	Gold and silver	19.3	5, 10, 20, 50 and 100 drachmas.
German Empire	Mark	Gold	23.8	5, 10 and 20 marks.
Hayti	Dollar	Silver	95.2	—
Japan	Yen	Gold	99.7	1, 2, 5, 10 and 20 yen.
India	Rupee of 16 annas.	Silver	43.6	—
Italy	Lira	Gold and silver	19.3	5, 10, 20, 50 and 100 lire.
Liberia	Dollar	Gold	$1 00	—
Mexico	Dollar	Silver	99.8	Peso or $, 5, 10 25 & 50 centavo.
Netherlands	Florin	Silver	88.5	½ florin, florin and 2½ florins.
Norway	Crown	Gold	26.8	10 and 20 crowns.
Paraguay	Peso	Gold	1 00	—
Peru	Dollar	Silver	91.8	—
Porto Rico	Peso	Gold	92.5	—
Portugal	Milreis of 1,000 reis.	Gold	1 08.4	2, 5 and 10 milreis.
Russia	Ro'ble of 100 copecks.	Silver	1 00	¼, ½ and 1 rouble.
Sandwich Islands	Dollar.	Gold	19.3	—
Spain	Peseta of 100 centim's	Gold and silver	26.8	5, 10, 20, 50 and 100 pesetas.
Sweden	Crown.	Gold	19.3	10 and 20 crowns.
Switzerland	Franc.	Gold and silver	82.9	5, 10 and 20 francs.
Tripoli	Mahbub of 20piast'rs.	Silver	11.8	—
Tunis	Piaster of 16 caroubs.	Silver	04.3	—
Turkey	Piaster.	Gold	91.8	25, 50, 100, 250 & 500 piasters.
U. S. of Colombia	Peso.	Silver	94 9	—
Uruguay	Patacon.	Gold	—	—

B. H. BRISTOW, Secretary of the Treasury.

Railroad Law.

RAILROAD COMPANIES—BACKING CARS THROUGH PUBLIC STREETS—RIGHTS OF PERSONS CROSSING.

The case of Maginnis *vs.* the New York Central Railroad Company (52 N. Y., 215,) has just been decided by the Court of Appeals. This is the second time it has been thus argued. The facts are at length set out in the following opinion:—

When the case was before this court the first time, the judgment was reversed and a new trial granted, for an error of the Judge in refusing to charge as requested upon a point not now material to be noticed; but we thought that the evidence was sufficient to go to the Jury under the circumstances, and that the refusal to nonsuit was not error. The theory of liability was not that if the train had stopped, or so nearly stopped as to appear to be standing still, it was not negligence for the deceased to cross the street; and that starting the cars in a backward motion from an actual or apparent rest, without proper signal or warning, was sufficient for the Jury to predicate negligence of defendants as the cause of the injury. The last trial did not develop such a change of facts as to require a different decision. There was no fact established from which, as matter of law, we can impute negligence to the intestate, or which absolutely relieves the defendant from the imputation of negligence.

The most that can be said is that the case of the plaintiff which was not strong before, is a shade weaker now. The train did not probably come to a dead stop; but it might be inferred that it was at the point of stopping, and that the intestate, in looking at it, was justified in supposing it to be standing still, and consequently, justified in crossing the street; and that, although there was no great suddenness to the motion, it was accelerated in order to pass Quakenbush street; and that the absence of a visible light, or other means of warning at the rear end of the train while being backed through a public street of the city, constituted a sufficient fault on the part of the company to render them liable for the injury. We think the previous decision of the court requires us to hold that the refusal to nonsuit was not error.

We must, therefore, consider whether any error was committed by the Judge in the refusals to charge as requested. The propositions contained in the first and second requests were charged as requested. They embrace the proper instructions as to the negligence of the deceased, and are, in substance, that if the deceased saw the train approaching, or failed to look in order to see if the train was coming, she was guilty of negligence and the plaintiff could not recover. The third request was that if the jury believed that deceased could, before going on the track, have seen the approaching train by looking, then her being on the track where the train hit her, under the circumstances of the case, was conclusive evidence of contributory negligence, and the plaintiff could not recover. The Judge said at first "I so charge;" and then added, "I charge, not that it is negligence, but evidence of negligence, I decline to charge that it is conclusive evidence. I will say it is high evidence." The propositions to the court were evidently prepared with critical care. The word "conclusive" evidence, in this request, means nothing more than that the facts stated constituted negligence in law, and the court was asked to so charge.

The first and second requests, which were charged, were that if deceased saw the train moving, or didn't look to see if it was coming, the plaintiff could not recover; and it is claimed by the counsel that this is substantially the same request, with the variation only, that if the deceased could have seen the train moving, and went on the track she was guilty of negligence. If this is the proper construction of the request it is substantially embraced in the first two requests. If she could see the train moving, she either did see it, or did not look to see it. In either case, the court charged that the plaintiff could not recover. But the language of the request is that if the deceased could have seen the "approaching train," it was negligence to go on the track.

It may be claimed, from the evidence, that the train was in fact approaching, though imperceptably; and it is clear that deceased could have seen the train; but this does not reach the precise point requisite to establish her negligence, which was that she could see that the train was moving. To say that she could see the approaching train, is only saying that she could see the train which was in fact approaching; while to say that she could see the train approaching is to affirm the vital fact that she could see that the train was moving.

This distinction was recognized in our previous decision. The request, the refusal to charge which we held to be error, was that if the deceased saw the train approaching and went on the track she was guilty of negligence, and if she could see by looking that it was approaching, it would follow that she did see it moving, or did not look, which in either case, would be negligence. The same distinction is made in the different requests to charge. We are to presume that the change in phraseology in this request was intentional. To give it the other construction it would involve the same principle, which the court had distinctly charged in first two requests, and it cannot be supposed, that the court intended to change its ruling. It is evident that neither court nor jury so understood it. Upon the construction here indicated the charge of the court was quite as favorable to the defendant as could be justified.

The fourth request was refused, that it was im-

material whether the bell was rung, or whether there was light at the rear end of the car. If this request was based upon the idea that there was conclusive evidence of the negligence of deceased, it cannot, as we have seen, be sustained. As to the ringing of the bell there was no evidence entitled to consideration in conflict with that of the fireman and engineer as to the fact whether the bell was rung or not. But the absence of a light or other proper signal or warning at the rear end of the car was material, upon the question of the defendant's negligence, and also as explanatory of the conduct of the deceased. The running of a train backward through a public street of a city in the night, without light, signal, or warning at the rear end of the train, at any rate of speed, is evidence upon the question of negligence, and the location and sufficiency of the light on this train was properly left to the jury.

The fifth request and charge relate to the negligence of the defendant. The request was that the rate of speed sworn to by a particular witness was not evidence of negligence. The response of the court was that if they gave the train a sudden and undue impetus, it was evidence of negligence. There was no claim on the trial that the rate of speed *per se* was evidence of negligence, nor did the court intend so to charge. The fair import of this instruction is, that if the impetus or motion given to this train was, under the circumstances of warning or signal, undue or improper, it was evidence of negligence. It would be a strained construction to hold that the Judge intended to charge, that if proper signal and warning were given, indicating that the train was moving backward, any speed proved on the trial would constitute negligence.

It would have been more satisfactory if the learned Judge had explained what was meant by "undue impetus," but we are required to give the charge such a construction as will sustain the ruling, if we are satisfied that the jury could not be misled.

The sixth request was that there was no evidence of any sudden or undue increase of speed before the deceased was hit. The court responded that this was a question of fact, and stated there was no evidence of the rate of increase. This was not error. The propriety of the application of the word "sudden" depended upon the construction of the evidence, and "undue" upon all the circumstances. These were questions of fact, as also whether the movement took place before the deceased was hit or not.

The seventh request was that if the train continued its motion all the way from the Union depot to where deceased was hit, and she could have seen the train, the plaintiff could not recover. The court so charged, "unless there was a sudden and undue increase of speed." The request is subject to the same criticism as the third request. It seeks to predicate negligence upon the ability of the deceased to see the train, and ignores the vital circumstance that she saw, or could have seen, that it was in motion.

The eighth request lacks the same element of fact to make it conclusive of negligence against the deceased.

The ninth request assumes that the deceased saw the train moving, and asks the court to charge that if she went upon the track supposing that the rate of speed, would not be increased, and that she could therefore cross in safety, it was negligence, and the plaintiff could not recover, and the court properly so charged. This charge, together with the first and second requests which were also charged, threw light upon other portions of the charge which, standing alone, might appear ambiguous. The court clearly held that if the deceased saw or could have seen that the train was in motion, it was negligence for her to cross so near the train as to be hit, although the motion of the train may have been accelerated suddenly or otherwise, and although the defendant may have been negligent in not having or giving a proper light or warning. We feel constrained therefore to reverse the order of the General Term, and affirm judgment for plaintiff on verdict.

Finances of Pennsylvania.

During the fiscal year ending November 30, 1874, the receipts into the State Treasury amounted to $5,871,968 27; to which add balance from previous year ($1,825,151 24)—making a total of $7,697,119 51. From which deduct: ordinary expenses, $3,946,126 62; loans redeemed, $1,230,166 90; interest paid on loans, $1,466,274 34—a total of $6,642,567 86; leaving a balance in the Treasury November 30, 1874, of $1,054,551 65. The total public debt November 30, 1874, was as follows:

Public Debt:		
Six per cent loans		$19,321,530 00
Five per cent loans		4,963,354 01
Four and a half per cent loans		87,000 00
		$24,371,884 01
Unfunded debt:		
Relief notes	$96,196 00	
Interest, etc., certificates	17,522 40	
Chambersburg certificates	83,032 96	
		196,751 36
Total Debt Nov. 30, 1874,		$24,568,685 37

The bonds in the sinking fund at that date amounted to $9,000,000.

During the fiscal year ending November 30th, 1873, the receipts of the Treasury amounted to $7,076,723 20—showing a reduction during the past year of $1,204,754 93. "This diminution," says the Governor in his message, from which the above was compiled "was occasioned by the repeal in 1873 of the taxes on gross receipts of railroads, net earnings of industrial and other corporations, and the tax on cattle and farming implements. It is worthy of remark that the relief afforded by the repeal of these taxes was mainly in the interest of corporations employing the greatest number of working men. With this reduction of the revenue, and with an increased expenditure of perhaps $500,000, made necessary by the new Constitution in the additional outlay for schools, Lesgislature and judiciary, it is manifest that the severest economy must be observed in all the departments of the government, and the appropriations considerably and wisely made, or the State will be unable to meet its obligations under the existing tax laws.

"By the Constitution the proceeds of the sale of public works and by act of last session approved May 9, 1874, the tax on the capital stock of all corporations, were assigned to the sinking fund, which can only be applied to the payment of loans redeemed and interest on the public debt. The receipts from other sources belong to the general revenue fund, and as all the expenditures of the Government are payable therefrom, it will be clearly the duty of the Legislature to limit the appropriation to the amount of this fund."

Cleveland and Pittsburg Railroad.

At the annual meeting of the stockholders of this company held in Cleveland on the 6th inst., the following gentlemen were chosen directors: J. N. McCullough, B. F. Jones, Pittsburg; Thomas A. Scott, Philadelphia; S. J. Tilden, John B. Trevor, Charles Lanier, George W. Cass, Isaac Kip, New York; Daniel McLaren, Cincinnati; J. V. Painter, R. P. Ranney, Cleveland.

President McCullough's annual report shows the following as the results of the operations of the road for the year 1874:

Receipts:	
From gross earnings	$3,740,384 15
From other sources	10,242 81
Total receipts	$3,750,626 96
Expenditures:	
For operating expenses	$1,906,195 43
Paid Pittsburg, Fort Wayne and Chicago Railroad in settlement of joint earnings	83 519 04
For betterments	723,875 70
Rental, interest, sinking fund, &c.	1,226,834 47
Total expenditure	$3,940,424 04

The balance sheet at the close of the year shows that the construction account amounted to $12,865,561 43; equipment, $3,373,485 61; machinery, etc., $168,215 66, making a total of $16,407,262 70, which, added to the cash in treasurer's hands, bills receivable, etc., $849,759 68, foots up $17,257,022 38. On the credit side is capital stock, amounting to $11,243,211 47; bonds, &c., $5,015,343 63; income, $527,783 39; liabilities, $470,683 89—total, as above, $17,257,022 38.

Provision has already been made for honoring the third mortgage bonds, $1,252,000, at their approaching maturity on the first of May next.

In conclusion the directors say, that "notwithstanding the financial crisis that has paralyzed all branches of business during the year just past, and which has borne with especial severity on the mineral traffic, which makes up so large a part of the business of your road, the obligations of the lessees have been promptly met, the various obligations of the company fully protected, and the guaranteed dividends regularly paid. Such a result, upon such circumstances, argues for the permanent security of the guarantee entered into by the lessee, and gives assurance of regular and uninterrupted dividends in the future to the stockholders."

THE LAKE SHORE AND MICHIGAN SOUTHERN RAILWAY CO., TREASURER'S OFFICE, NEW YORK, Dec. 29, 1874.

THE BOARD OF DIRECTORS OF THIS COMPANY have this day declared a Dividend of Three and One-quarter per cent upon its capital stock, payable on the 1st day of February next, at the Union Trust Company of New York.

The transfer books will be closed at the close of business on Saturday, the 9th day of January next, and be reopened on the morning of Tuesday, the 2d day of February next.

E. D. WORCESTER, Treasurer.

Jersey City Steel Works.

JAS. R. THOMPSON & CO.,

MANUFACTURERS OF

HAMMERED AND ROLLED

CAST STEEL,

OF ALL DESCRIPTIONS,

Warren Street, Jersey City, N. J.

Tool, Drill, Frog Plates and Points, Cutlery, Rake, Axe, Hoe, Machinery, Spring Wagon-Axle, Tyre, Sword, Bayonet, Rifle, and Pistol, ***made to Order.***

JAS. R. THOMPSON,
J. H. GAUTIER, B. ILLINGSWORTH,
O. G. GAUTIER, H. DICKINSON.

RAILROAD EARNINGS—MONTHLY.

	January.	February.	March.	April.	May.	June.	July.	August.	September.	October.	November.	December.	Total.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "†."

American Railroad Journal.

Saturday, January 16, 1875.

Financial and Commercial Affairs.

The Money market has been less active, since our last. The speculative inquiry for accommodation has been less urgent. There has not been much pressure for aid on the part of mercantile borrowers. The offerings of capital have been more liberal; due, in good part, to the January interest and dividend disbursements. Government has already paid out over twelve millions of the January interest on the national funded debt. Call loans have been quoted at 2¼@5; and best discounts at 6@8 per cent per annum. The City banks have been large gainers in their reserves; the deposits and specie showing the most notable increase. Over a million has been also added to the legal tender average. The loan and discount line has been moderately enlarged; while the circulation has been contracted slightly. The U. S. Sub Treasury balances were reduced; the specie board nearly 1¼ millions, and the currency reserve moderately. The City banks last week enlarged their reserve of legal tender notes $1,177,500, and their deposit item $10,144,600, while also increasing their specie average $5,248,100. They report an increase of $1,948,100 in the loans and discounts, and a reduction of $215,000 in their circulation. The U. S. Sub-Treasury in this city closed the week with a currency balance of $44,-451,853, against $44,796,805, the preceding week; and a coin board of $45,756,130 against $47,175,-648, on the previous return. The City bank exchanges, during the week, were $549,740,704, or a daily average of $91,621,784. The customs revenue of the port, during the week, was $1,793,-687. The City banks reported their average of gold last week at $23,222,100, and their greenback average at $50,821,100. Their deposits stood at $231,613,800. The loan item was $286,157,900. The circulation was $24,407,600.

The City Bank net reserve of specie and legal tender notes now shows an excess, over the legal requirement of reserve to liabilities, of $16,139,750.

The aggregate of the outstanding U. S. currency, of all denominations, Jan. 1, was $428,462,916. The outstanding amount of legal tender notes is 382 millions. The National bank circulation is now $347,876,131.

The U. S. Treasury balances on Wednesday were as follows: Currency, $11,578,655; special deposit of legal tenders for redemption of certificates of deposit, $42,680,000; coin, (including $28,109,100 in coin certificates,) $63,969,929.

The income of the Government, from internal revenues, thus far, in the fiscal year, commencing with July 1, 1874, has been over 61 millions.

Gold has been less active, and, as a rule, less firm. There has been less speculative inquiry noted. The customs demand has been moderate. The export movement has been the chief drain on the market. Toward the close, the bidding was more confident, stimulated, in good part, by the free shipments on Wednesday. The extremes of the week have been 111⅞@112¾, closing on Wednesday at 112⅜as against 112⅜ on Wednesday of the preceding week. The specie outflow last week was $1,616,121. The imports of specie at this port since Jan. 1, 1874 have been $5,537,590, against $18,520,688 the preceding year. The customs demand for Gold last week averaged only $298,948 a day. Foreign Exchange has been offered less freely and has been in fair demand closing more firmly. Bankers' sixty day bills on London closed on Wednesday at $4 85⅛@$4 86½; sight bills on London at 4 90@ $4 91 to the £ sterling. The week's exports of Domestic Produce have been to the currency value of $4,224,416.

The import entries of Foreign Merchandise at New York, including dry goods, amount for the past week to $5,803,864.

A fairly active inquiry prevails for Government Securities at generally stronger prices. The offerings of most issues have been on a restricted scale.

U. S sixes of 1881 closed on Wednesday of this week at 118⅝@118⅞; U. S. Five-Twenties of 1862, at 114¾@115; U. S. Five-Twenties of 1864 at 116⅜@116⅝; U. S. Five-Twenties of 1865 118¼@118½; U. S. Five-Twenties of 1865 consolidated, 117⅜@117⅝; U. S. Five Twenties of 1867,118¼@118½; U. S. Five-Twenties of 1868, 118⅛@118⅜; U. S. Ten-forties at 115⅛@115⅜; U. S. Fives of 1881,(Funding Loan) 114⅛@114⅜; Six per cent. currency Sixes from 117⅝@117¾.

Business at the Stock Exchange has been less active, during the week, and the market has been variable. The later dealings in the Railway and miscellaneous share list indicated a firmer range of values. State and Railway bonds have been in moderate request and prices have been quoted steady.

General business has been on a moderate scale, during the week. Values, in the leading instances, have been without important change. The Breadstuff movement has been limited, shippers operating quite reservedly. The Provision trade has been active, chiefly in the line of hog products, closing firmly. Cotton has been freely dealt in, mainly on speculative account, closing, however, weak in price. Wool and Tobacco have been quiet, but steady. Hides, Leather, and Skins have been more sought after. Naval Stores, Petroleum, Seeds, Hops, Hemp, and Oils have been slow of sale. Hardware has been attracting very little attention. Metals have been comparatively dull. American Pig Iron has been held with more firmness. Scotch Pig Iron has been quoted easier in price; Iron Rails, inactive and nominal. Eglinton Pig Iron quoted from yard at $34@$35; Glengarnock, $36@$37; No. 1 American Pig at $25@$27; No. 2 do. at $22@$25; Forge, $21@$24; English Rails at $47 50@$50, gold; American Rails at works, $50@$52; Old Rails, $30. Wrought Scrap, $28@$30. Ocean freights have been less active and at the close, easier as to rates.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

Brown, Brothers & Co.,

No. 59 WALL St., N. Y.,

Issue, against cash deposited, or satisfactory guarantee of repayment, Circular Credits for Travelers, in *dollars* for use in the United States and adjacent countries, and in *pounds sterling* for use in any part of the world.

THEY ALSO ISSUE COMMERCIAL CREDITS, MAKE CABLE TRANSFERS OF MONEY BETWEEN THIS COUNTRY AND ENGLAND, AND DRAW BILLS OF EXCHANGE ON GREAT BRITAIN AND IRELAND.

Finances of New York City.

EXTRACT FROM THE MESSAGE OF THE MAYOR.

What the liabilities of the City really are I am not at present in a position to inform you. Public attention has hitherto been directed principally, if not, indeed, exclusively, to that portion of the indebtedness which has assumed the form of one or other of the various descriptions of bonds and stocks issued by the City. The information furnished to me by the Controller is to the effect that this class of indebtedness was, on the 31st day of December, 1874, as follows:

Funded Debt—		
Payable from the sinking fund...		$22,931,563 36
Payable from taxation....		95,309,993 88
		$118,241,557 24
Temporary Debt—		
Payable from assessments.....$20,851,000 00		
Payable from building lien.... .... 3,700 76		
		20,854,700 76
Revenue Bonds—		
Payable from taxation of 1874...		2,707,500 00
Total		$141,803,758 00
Less Sinking Fund....		26,615,773 00
Balance		$115,187,980 00

But, in addition to these amounts, there is a floating debt which has been variously estimated at from ten to twenty millions of dollars. Many of the claims constituting this indebtedness are in litigation. Some—it may be many of them—are fraudulent, and all such must be resisted. Those, however, which are not fraudulent, ought to be paid. If the proper officers of the Government are now without authority to adjust and settle such claims, it ought to be conferred. All information which can be obtained in reference to this floating indebtedness, I shall direct to be communicated to you.

Northern Central Railway.

The Baltimore and Potomac road has been created a division of the Northern Central, with Frank Thompson general manager from Harrisburg to Quantico, and George C. Wilkins superintendent over the same distance. J. N. Du Barry, who is favorably known in connection with both of these roads, will take charge of the southern bureau of the Pennsylvania road at Philadelphia. A general agent of both roads is to be appointed as soon as a suitable railroad man, identified with Baltimore business interests can be secured. That official will be located in this city. As before stated, the newly appointed purchasing agent, A. W. Sumner, has instructions to secure supplies for the roads in this city wherever it is practicable.

Mr. Scott expresses a desire for an amicable arrangement between the Northern Central, Potomac, Western Maryland and Union roads, by which all may have an outlet to tidewater upon favorable terms, and it is believed the project will be consummated. A committee of Northern Central directors are understood to be negotiating with capitalists in Buffalo who have submitted plans for elevator improvements at Canton. Some of the directors of the road are favorable to erection of a new building at the northwest corner of the company's Calvert street station property, instead of remodeling the present depot building, the new structure to be 60 by 100 feet, and to cost $20,000 or $30,000, which would be used for offices, &c. The subject will be discussed at the next meeting of the directors.—*Balt. Sun.*

Last year's exports of specie from San Francisco were $30,944,178, against $27,123,688 the preceding year.

North Pennsylvania Railroad.

At the annual meeting of the stockholders of this company, held in Philadelphia on the 11th inst., the following named gentlemen were elected directors for the ensuing year: Franklin A. Comly, John Jordan, Jr., J. Gillingham Fell, Wm. C. Ludwig, Ellwood Shannon, Edward C. Knight, Alfred Hunt, Wm. C. Kent, Thos. Smith, Ario Pardee, James H. Stevenson.

From the report of the directors for the fiscal year ending October 31, 1874, which was read by the President, Franklin A. Comly, Esq., we learn that the total earnings were $1,424,463 18; expenses, $829,725 63. The net earnings were $504 737 55. Interest and taxes, $361,527 05. Balance carried to profit and loss, $233,209 60. A dividend of five per cent. has been declared, payable on the 1st of February.

The decrease in gross receipts was $53,076 90; decrease in expenses, $101,848 27; increase in net earnings, $48,771 37; increase in balance carried to profit and loss, $37,564 95.

The number of passengers carried during the year was 1,052,859, showing an increase of 68,136. The increase in the passenger receipts was $12,770 59.

The receipts of the Northeast Pennsylvania Railroad were $18,149 62, showing a deficit for general expenditures, interest, taxes, etc., of $8,586 28. This road has been extended from the county line to the Bristol Road, near Hartsville, and was opened on the 9th of November, and is now in running order.

The Stony Creek Road was opened on the 1st of January, 1874, and during the first ten months the receipts were $16,544 35. The deficit for necessary expenses, interest, taxes, etc., was $19,317 77.

The convertible privileges contained in the six per cent. mortgage bonds of the Company expired on the 31st of December, 1874. The total amount converted into capital stock was $243,000, which with bonds previously cancelled on account of the sinking fund, reduced the amount from $2,500,000 originally issued, to $1,930,500 outstanding at that date.

The balance sheet of the Treasurer shows that the Company is clear of floating debt with a balance of cash and cash assets on hand at that date of near a million of dollars. The great reduction in the price of steel rails afforded the Company an opportunity to renew the tracks on the main line with steel rails in place of iron. One thousand tons have been contracted for, and a part of it has been delivered.

The company is now engaged in the construction of a branch road, known as the Delaware River Branch, from the main line at Jenkintown, through Huntingdon Valley to the State line in the middle of the Delaware river, half a mile south of Yardleyville, in Bucks county, where it will connect with the Bound Brook Railroad, which is being constructed from near that point to Bound Brook, N. J. At this point it will connect with the Central Railroad of New Jersey, thus forming a through line between Philadelphia and New York. It will also connect with the Easton and Amboy Railroad near the same point.

The Delaware River Branch will be 20½ miles long. From Berks street to Jenkintown it is 8.1 miles, making the distance from Berks street to the State line 28.6 miles.

The Delaware and Bound brook Railroad is 27 miles long, and the Central Railroad of New Jersey is 32.4, making the entire distance between Philadelphia and New York 88 miles.

The whole line will be graded and the masonry constructed for a first class double track road, with a maximum grade of 37 feet to the mile, laid with steel rails, 66 lbs. to the yard. The contract for the rails has been made with the Bethlehem Iron Company, and the grading and masonry work on the Delaware River Branch has been given to Messrs. McGrann & FitzPatrick, of Lancaster, who are pushing the work, and hope to have the road graded and ready for the track early in the coming summer. It is expected that the road will be completed and ready for use before the end of the year.

It is believed that the available assets of the company will furnish sufficient means to complete the entire work without incurring a floating debt.

Philadelphia and Reading Railroad.

At the annual meeting of the stockholders of this company, held in Philadelphia on the 11th inst., the following gentlemen were unanimously elected officers for 1875: President, Franklin B. Gowen; Managers, H. Pratt McKean, A. E. Borie, R. B. Cabeen, J. B. Lippincott, John Ashurst, Charles E. Smith; Treasurer, Samuel Bradford; Secretary, David J. Brown.

From the report of the managers, which was submitted, we learn that the gross receipts during the year ending November 30, 1874, were $14,452,122, the gross expenses $8,731,916, and the net profits $5,720,206. During the year ending November 30, 1873, the earnings were $14,832,661, the expenses $9,474,895, and the net profits $5,357,766—showing a decrease in earnings of $380,539, with a decrease in expenses of $742,979, making an increase in the net profits of $362,440.

The receipts over cost of working the road are $5,720,204 82; to which add State taxes refunded under decision of U. S. Supreme Court, $70,810 33, also balance of interest account, amounting to $1,280,859 50, and amount to credit of Reserve Fund, 1873, $693,000 14—making a total of $7,764,874 79. From which deduct interest on bonded debt, interest on bonds and mortgages, sinking fund consolidated mortgage loan 1871-1911, and sinking fund Improvement mortgage loan 1873-97, amounting in all to $3,126,502, leaves as dividend fund, 1874, the sum of $4,638,372 79. Out of which have been paid three quarterly dividends (April, July, and October, 1874) of 2½ per cent each, amounting, with the State tax thereon, to $2,767,619 43, leaving $1,870,753 36; and there has been declared a dividend of 2½ per cent on the common and preferred stock, payable January 25, 1875, amounting, with the State tax thereon, to $933,982 17—leaving balance of reserved fund November 30, 1874, $936,771 19.

New York Canals.

The Auditor's report of the revenues and expenditures, on account of the State canals, shows the receipts for the fiscal year ending September 30, 1874, to have been from tolls $2,921,721 74, and from other sources $26,251 17. Total receipts, $2,947,972 91.

The payments for ordinary repairs were $1,297,716 37; salaries of collectors, clerks, inspectors, &c., $97,697 83. Salaries chargeable to the annual revenues, refunding tolls, &c., $74,070 73. Total $1,469,466 83. The surplus revenues of the canals therefore for the fiscal year were $1,478,506 08. This amount has been appropriated to the sinking fund, and the fund for the support of the government.

Compared with the year 1873, the receipts of 1874 show a decrease of $134,479 13, the payments an increase of $10,391 59, and the net receipts a decrease of $144,780 72.

The canal debt paying interest on September 30, 1874, was $10,165,000, and the amount, after applying all the sinking funds, will be $8,669,411 01; the outstanding and unpaid canal debt for which certificates of stock have been issued is $10,230,430; of this sum $65,430 does not pay interest.

The balance in treasury, and invested, October 1, 1873, was....	$4,096,255 50
Received for fiscal year ending September 30, 1874....	8,374,329 65
Total....	$12,470,585 15
Paid during same period....	9,424,257 37
Balance, Sept. 30, 1874..... ..	$3,046,327 78

The fund, composed of deposits made by repair contractors to secure faithful performance of their contracts, was on September 30, 1874, $9,571 05.

The expenditures for ordinary repairs and collection of tolls in excess of the income of the lateral canals for the fiscal year amount to $284,705.77, exceeding the previous year $56,256,62. This deficiency was charged to the Erie and Champlain Canals.

The total deficiencies on account of the lateral canals since 1840, aggregate $9,537,842 24, exclusive of extraordinary repairs, which foot up $1,960,503 05, and the expenditures since 1865, for the extension of the Chenango Canal, which amount to $1,837,510 73.

The expenses of the Engineering Department continue to be very large, $104,756 31 against $106,000 90 last year.

The enlargement of the Champlain Canal is strongly urged, so as to give a uniform depth of seven feet of water.

The last Legislature made an appropriation of $7,500 for the purpose of surveying the sources of the Upper Hudson with a view to increasing the supply of water. The plan proposed is the erection of dams at the outlets of large lakes, by which an immense quantity of water can be accumulated and stored and fed out during the summer as wanted. The Legislature is reminded by the Auditor "that the State has made but one earnest effort to introduce steam into our canals. That effort should be continued, and not relaxed until success is assured. With steam successfully established on our canals we shall command, without fear of diversion, our full share of Western trade."

☞ Horace Fairbanks, president of the Vermont division of the Portland and Ogdensburg Railroad, says that this division will be done, including the branch to Burlington and a five mile branch to the Canada line, next season. The eastern division is done to the Crawford House in New Hampshire, and from there to the Connecticut River at Dalton, N. H., the track of the Boston, Concord and Montreal road will be temporarily used.

FISK & HATCH,

Bankers,

5 Nassau St., N. Y.

U. S. Government Bonds of all issues and denominations bought and sold direct at current market rates, in large or small amounts to suit all classes of investors and Institutions, and for immediate delivery; and all business connected with investments in Government Bonds, transfers of Registered Certificates, Exchange of Coupon Bonds for Registered, Collection of interest, &c., attended to on favorable terms.

All other marketable Stocks and Bonds bought and sold on Commission; Gold Coupons and American and foreign Coin bought and sold; approved deposit accounts received.

FISK & HATCH.

Dividends, Interest, etc.

The Cleveland, Columbus, Cincinnati and Indianapolis Railroad Company have declared a dividend of 3½ per cent, payable February 1, 1875, at the office of the United States Trust Co., 49 Wall st., N. Y.

The Terre Haute and Indianapolis Railroad Company have declared a semi-annual dividend of six per cent, payable at the office of the Farmers Loan and Trust Co., 26 Exchange Place, N.Y., on and after January 20, 1875.

The Housatonic Railroad Company have declared a dividend of 4 per cent, payable January 20.

The Pennsylvania Railroad Company give notice that they will pay, upon presentation, before March 6th, 1875, their Scrip issued for the dividend December 6th, 1873, at par, and accrued interest thereon to date of presentation. On the 6th of March, 1875, this Scrip will cease to bear interest, and the company will pay all that may then be outstanding.

On and after this date, the Bonds of the New Jersey Railroad and Transportation Company of the loan for $300,000, due February 1, 1875, will be paid at par and accrued interest, on presentation at the Agency of the Pennsylvania Railroad Company, No. 57 Broadway, New York; and the Bonds of the Delaware and Raritan Canal, and Camden and Amboy Railroad and Transportation Company, of the Loan for $675,000 due April 1, 1875, will be paid at par and accrued interest, on presentation at the office of the Pennsylvania Railroad Company, No. 233 South Fourth street, Philadelphia.

The Commissioners of Finance, at a meeting held in Baltimore on the 9th inst., adopted a resolution to purchase at par the detached coupons of the unendorsed 1st mortgage bonds of the Western Maryland Railroad Company, which matured on the 1st of January, 1875, as authorized by ordinance of June 2, 1874. The amount of these bonds is $400,000. The interest on same, being for six months, amounts to $12,000.

At a meeting of the managers of the Schuylkill Navigation Co., held in Philadelphia on the 9th inst., a dividend of sixty cents per share on the preferred stock, and thirty cents per share on the common stock, was declared payable in scrip on the 1st of February, 1875, to the stockholders as registered January 18th, 1875. Said scrip will be convertible into the six per cent. mortgage loan of the company of the year 1872-1897, in sums of $100 and upwards, on and after the 4th of March, 1875.

The Delaware, Lackawanna and Western Railroad company will pay a dividend of 2½ per cent. in cash January 20th.

The West Chester and Philadelphia Railroad Co. will pay on demand a dividend of 4 per cent. on the preferred and consolidated preferred stock, clear of all taxes.

The North Pennsylvania Railroad Company will pay a semi-annual dividend of 5 per cent. on the 1st day of February.

A dividend of $1½ per share will be paid to the stockholders of the East Pennsylvania Railroad Company, at the office of the Philadelphia and Reading Railroad Co., Philadelphia, on the 19th of January.

The East Mahanoy Railroad Company will pay a dividend of $1 45 per share on the 15th instant.

The Lake Shore and Michigan Southern Railway Co. have declared a dividend of 3¼ per cent for the half year ending 31st ult., payable February 1.

The quarterly dividend of $2 50 per share on the capital stock of the United New Jersey Railroad and Canal Co. will be paid in Philadelphia at the office of the Pennsylvania Railroad Co., and in New York at 57 Broadway.

The dividend of 3½ per cent. on the capital stock of the Rome, Watertown and Ogdensburg Railroad Company, will be paid on and after the 15th of January at the Farmers' Loan and Trust Co., New York.

The George's Creek Coal and Iron Company, Baltimore, announces a semi-annual dividend of $6 per share, payable at the office of J. S. Gittings & Co., Baltimore.

The Baltimore, Catonsville and Ellicott's Mills Passenger Railway Co. have declared a semi annual dividend of 4 per cent.

The Federal Street and Pleasant Valley Passenger Railroad Co. have declared a dividend of 5 per cent. out of the profits of the last six months.

The coupons due January 1, 1875, of the bonds known as the "Guaranteed Bonds" of the Vermont Central Railroad, and the "Stanstead, Shefford and Chambly Bonds," are payable at the National Bank of Redemption, and the coupons of the "Missisquoi Railroad Bonds," at the Globe Bank, Boston.

For other dividends, and interest payable in January and February, see pages 71 to 81 inclusive, this week's issue.

Finances of the State of New York.

From the Message of Gov. Tilden to the Legislature, we learn that the receipts into and payments from the Treasury on account of all the funds, except the Canal and Common School funds, for the fiscal year ending September 30, 1874, were as follows:

Receipts	$26,465,370 43
Payments	19,636,308 36
Balance in the Treasury September 30, 1874	$6,829,062 07

The available balance amounted to $6.494,881 44, the difference being made up by the defalcation in the State Treasury in 1873 of $304,957 91 and the sum of $29,222 72 being an old balance due from the Bank of Sing Sing.

STATE DEBT.

On the 30th September, 1873 and 1874, the total funded debt was as follows:

	1873.	1874.
General Fund	$3,988,526 40	$3,988,526 40
Contingent (stock issued to the Long Island Railroad Company)	68,000 00	68.000 00
Canal	11,352,880 00	10 230,430 00
Bounty	22,121,000 00	15,912,500 00
Total	$36,530,406 40	$30,199,456 40

During the months of August and September, 1873, stocks of the bounty loan were purchased to the amount of $306,000, but not canceled until after September 30, 1873. Deducting this sum, the bounty debt amounted to $20,815,000, and the total debt to $36,224,406 40.

The actual reduction of the State debt during the fiscal year ending September 30, 1874, by cancellation of matured stocks, and by the purchase of $4,902,500 of bounty loan sevens of 1877, for the Bounty Debt Sinking Fund, is $6,024,950.

In addition to the $4,902,500 of bounty stock, purchased for the Bounty Debt Sinking Fund during the last fiscal year, and canceled, there have been investments for that sinking fund, since the date of the last report to the present time, in State securities and Government registered bonds to the amount of $4,381,500, at a cost of $4,972,091 35; add $327,283 88 premium and $3,210 commissions on bounty loan stock purchased and canceled, and $1,421,584 interest on bounty debt, makes a total of $11,626,667 23 paid on account of this sinking fund since the date of last report to the present time. The securities, now held in trust for this sinking fund, amount, at their par value, to $6,802,944 09, which could be disposed of, at the present market rates, at an average premium of over 12 per cent.

The following statement shows the amount of the State debt on the 30th September, 1874, after deducting the unapplied balances of the sinking funds at that date:

	Debt on the 30th September, 1874.	Balance of sinking funds on 30th September, 1874.	Balance of debt after applying sinking funds.
General	$3,988,526	$4,142,694	$.....
Contingent	68,000	32,823	35,176
Canal	10,230,430	1,561,019	8,669,411
Bounty	15,912,500	*7,125,278	8,787,222
Totals	$30,199,456	$12,861,814	$17,491,809

* Deducting interest accrued to October 1, 1874, payable January 1, 1875.

The State debt on the 30th September, 1873, after deducting the unapplied balances of the sinking funds, amounted to	$21,191,379 34
On the 30th September, 1874, to	17,491,809 32
Showing a reduction of	$3,699,570 02

TAXES.

The State tax levy for the current year amounted to 7½ mills.

The total amount of the tax will be $15,727,482 08, about $900,000 in excess of the amount levied during the preceding fiscal year.

Imports of Dry Goods at New York.

The subjoined table will show the total amount of the different classes of dry goods entered at this port for the years 1873 and 1874:

ENTERED FOR CONSUMPTION.

	1873.	1874.
Manufactures of wool	$22,536,183	$20,606,002
" cotton	17 660,858	16,593,821
" silk	17,689,818	21,350,294
" flax	9,969,706	9,416,275
Miscellaneous dry goods	6,835,684	6,974,614
Total	$74,692,249	$74,941,006

WITHDRAWN FROM WAREHOUSE

	1873.	1874.

Aggregate Steam Power of the World.

Dr. Engel, director of the Prussian Statistical Bureau, has been making estimates, on such statistical data as is available, of the total horse power of steam engines in the world, as every country has tolerably correct railroad statistics. Dr. Engel thinks that the following returns with reference to locomotives is not far from right:

	Year.	Number.
United States	1873	14,223
Great Britain	1872	10,983
Zollverein	1871	5,927
Russia	1873	2,684
Austria	1873	2,369
Hungary	1869	506
France	1869	4,933
East Indies	1872	1,323
Italy	1872	1,172
Holland	1872	331
Belgium	1870	371
Switzerland	1868	225
Egypt	1870	212
Sweden	1872	185
Denmark	1865	39
Norway	1871	34
Total		45,467

It may be assumed that there are still four or five thousand additional locomotives in countries from which no statistics have been received, so that something like fifty thousand engines of that description, of an aggregate of 10,000,000 horse power, are now in use. Dr. Engel estimates all the engines in use—locomotive, marine, and stationary—at about 14,400,000 horse power.

Assuming that the above statistics are approximately correct, it would appear that one third of all the steam engines and steam power in the world are employed in the United States. This will, in some degree, account for the extraordinary industrial progress of this country and the high rank it maintains in all departments of practical engineering. The population of the United States is 40,000,000 while the aggregate population of the other countries above named exceeds 350,000,000. —*Scientific American.*

☞ An order has just been issued by Postmaster General Jewell to the effect that on and after Jan. 15 the mails heretofore sent from New York, Baltimore, and New Orleans for Key West by steamer must hereafter be dispatched by rail. It is estimated that a saving of $90,000 to the Treasury will be effected by this change, while the mails will be carried to their destination with greater rapidity than by the water routes.

LANSDELL'S

Patent Portable Railway Syphon.

The Portable is invaluable on a freight or construction train, being used to take water at points where there are no water stations. With it water can be taken from any point within one hundred feet of the track where there is water six inches or more in depth. The valve C is tapped into the locomotive boiler; steam is let on through the hose B; water is drawn through the orifices D D, and forced through the hose E into the tender, filling any tender with warm water in from six to twelve minutes.

Lansdell's Patent Steam Syphons, Double Suction, adopted by the United States Board of Supervisors, and approved by the Secretary of the Treasury for use on Steamboats.

American Railroad Journal.

New York, Saturday, January 23, 1875.

The Great Southern Railway Company. (Consolidated.)

We have to chronicle the organization and energetic prosecution of a new and really meritorious enterprise, which is designed to develop the choice timber, cotton and sugar regions of Southern Georgia and Florida, and which will, at the same time, perfect and extend to the utmost Southern boundaries of the United States, a perfect system of rail transportation, connecting the great North and the Middle and Western States and Territories with the immensely valuable trade of Cuba, the West India Islands and South America. The Great Southern Railway Company, received its charter from the Legislatures of Georgia and Florida, with special and exclusive powers and privileges to build and operate a railroad from Millen, Georgia, via Jessup, Waynesville, Jeffersonton and King's Ferry, Georgia, and from Kings Ferry to Callahan, Jacksonville, Palatka, Turtle Harbor and Key West, in Florida, and to own and operate lines of steamships to ports in Cuba, West India Islands and South America. The route as located is the most direct which the topography of the country and the intrinsic value of the lands to be traversed, profitably, will permit. The distance from Millen, the Northern termini of the Road, in Georgia, to Turtle Harbor is five hundred miles, and thence to Key West 116 miles, making the trunk line of this road about 616 miles. The connection with Cuba and the West India Islands will be made by the steamers of this company in the following distances:

Key West to Havana	89	miles.
" to Matanzas	90	"
" to Cardenas	94	"
Turtle Harbor to Havana	176	"
" to Matanzas	154	"
" to Cardenas	138	"

The company have made contracts for construction of the entire road, and for the building of steamships and warehouses at Turtle Harbor, where there is an average depth of 27 feet of water. A beautiful harbor one and a half miles in width and three miles long. Work on the road is now going on between Jessup, Georgia, and Jacksonville, Florida, a distance of 95 miles. A large part of this portion of the road is ready for the iron and the company are just finishing a telegraph line to Jacksonville, on the St. Johns River, Florida, the end of the first division of the road. This will make a saving in railway transportation and travel between Savannah and Jacksonville of 110 miles, and ten or twelve hours in time—making this an exceedingly profitable section of the line as over 40,000 people go annually from the North to pass the winter season in the beautiful regions of Florida. The heavy freights coming down the St. Johns River, and its important tributaries to this point, find the quickest and cheapest transit by this road to the Northern and Eastern markets. The State of Florida has given a grant of land at the rate of 12,800 acres per mile to aid the construction of the road and the company have the privilege of making its selections of land as the road is finished in sections of ten miles. The land grant covers on the main line 6,400,000 acres. The lands are valuable for the production of cotton, sugar, rice and tobacco—and on the line, and included within the boundaries of the grant, the finest and largest orange groves in the world are to be found. Perhaps the most valuable feature for immediate realization to the treasury of the company, after sections of the road are built, will be from sales of its forests of celebrated Yellow Pine, Live-Oak, Cedar, Cypress and other valuable Timber. From an official report to the War Department of the United States, made in 1872 by General J. H. Simpson, Engineer in charge, it is estimated that ten trees to the acre, and an extreme average distance haul to the railroad of three and one half miles, the yellow pine alone on the line of this road is worth over $100,000,000. These figures are based also on government surveys—testimony given in U. S. Courts and accounts given by the largest lumber firms in that region.

FINANCIAL PLANS OF THE COMPANY.

In view of the great difficulty in floating railway loans at this time on the prevalent system of *interest bearing bonds*, the Great Southern Railway Company have adopted the plan, which for the last thirty years has proved most successful on the Continent of Europe in the negotiation of Government and Municipal loans. The loan of the Company is in the form of a Ten Dollar First Mortgage Land Grant and Premium Bond—secured by first lien on the railway, its franchises, equipments, steamships and upon all its lands. The proceeds from the sale of the lands and fifty thousand dollars every six months from the earnings of the road, together with surplus money realized from the loan and the interest accruing from the investment of the same in Government securities and real estate mortgages, are set apart as a cumulative sinking fund to redeem the bonds at par with a premium in lieu of interest. The Bonds are issued at fifty years, and it is estimated

that the Sinking Fund alone will be ample to pay all the premiums and principal of the bonds according to the plan of redemption. Certain numbers of the bonds are to be redeemed with premium by allotment six times in each year, commencing with January, 1875. The first allotment for redemption of 2,500 bonds of the company took place at Jacksonville, Florida, on the 6th instant. Our Florida Exchanges contain notices of the proceedings at this first allotment, and speak of the plan as having been very creditably presented by the company, and the high character of the gentlemen who officiated would seem to warrant the conclusion that the corporation are pursuing this foreign plan of redemption of loans with great carefullness and with honorable decorum. The following is taken from "The New South," Jacksonville, Florida, of the 9th inst.

GREAT SOUTHERN RAILWAY.

"The first allotment of the first mortgage land grant and premium bonds of the Great Southern Railway Company, took place at the Metropolitan Hall, in this city, on Wednesday, the 6th day of January, 1875. The company, through its President, Hon. T. W. Osborn, announced the policy which had been matured and adopted for the allotting and redeeming of its bonds. The following named gentlemen were then selected as a committee to superintend the first allotment: Peter Jones, Esq., Mayor of the city of Jacksonville; Paran Moody, Esq., and H. A. Pattison, Esq. Ex Attorney General A. R. Meek and John L Edwards, Esq., were selected by the audience as Secretaries to make record of the allotment.

"The plan for making allotments by the Great Southern Railway Company, and the eminently honorable and fair conduct of this first allotment for redemption of its bonds, met the warmest expressions of approval by the audience, and from the careful investigations of the committee and our own painstaking observations, we unequivocally pronounce the provisions of the company for transacting this important branch of its business to be in perfect good faith, entitling it to the entire confidence and esteem of the public at large."

From the "Florida Union," January 9th.

"THE GREAT SOUTHERN RAILWAY.

We have delayed the publication of the proceedings of the officers of the Great Southern Railway Company in regard to the first allotment of their First Mortgage Land Grant Premium Bonds, which meeting was held in this city at Metropolitan Hall on Wednesday last, with a view to investigate the matter, and have devoted considerable time to the details of the new plan adopted by the Company for placing their securities before the people. None are too poor to aid in the construction of the road, neither are any of our people so wealthy as to be entirely independent of the advantages and comforts that must necessarily accrue by shortening the distance between our city and Savannah to nearly one half and reducing time to six and a half or seven hours. We earnestly hope our people, one and all, will promptly support this earnest effort of the officers of the Company, and by the purchase of their bonds prove tangibly that they de ire and must have a better means of access to the whole country."

By reference to foreign files it is ascertained that most of the bonds issued on this plan are selling above par, and some are rated as high as four times as high as the original par value.

The Austrian Loans from 1829 to 1864 amounted to	$144,800,000
Russia 1864 to 1866	160,000,000
Prussia 1865	10 500,000
Bavaria 1855	11,200,000
Baden 1845 and 1867	14 000,000
Hessen Darmstadt 1825 / Kurhessen 1845	7,280,000
Braunschweig	7,000,000
Saxony Meiningen 1870-'71 / Saxony Gotha 1869	16,100,000
Oldenburg 1871	3,360,000
Poland 1835	60.000,000
Hungaria 1870	12,000,000
Sweden 1860	1,680,000
Holland 1871	3 000 000
Belgium 1868	8,000 000
Turkey 1870	158,000,000
Total Gold	$611,920,000

The City Loans on the Continent of Europe on the same plan, are nearly all selling above par, and some of them are in such demand that they are rated at more than twice the original value. 28 municipal loans were made by cities of all the governments of the Continent of Europe, and amounted between the years 1847 and 1871, to $140,480,000 Gold. The City Loans include those of Paris between 1860 and 1871. The foregoing gives a total of Government and City Loans of $752,400,000. The City of Paris has recently negotiated another loan on this plan for 30,000,000 francs.

The method of the foreign loans and that adopted by the Great Southern Company differ only as to the form of security. In all other respects the system is precisely the same. The continental loan is based on credit of the respective principalities and municipal corporations not quite so surely sound in some respects, it may be assumed, as a first mortgage on lands, the timber on which approximates in value the amount of the issue of bonds—and upon a valuable franchise and five hundred miles of first class railroad connecting and largely sharing in the interchanging traffic of the temperate and tropical zones of a whole hemisphere, and that hemisphere AMERICA.

The company receive these bonds at par in payment for land and for transportation of passengers and freight over its line—a new and useful idea, giving their security a practical value to the emigrating settler and the whole of the people who reside on the line or who go there for the healthful effects of that most delightful climate. The Hon. Thos. W. Osborn, late U. S. Senator from Florida, is the President of the Great Southern Company; Mr. James W. Johnson, Treasurer; and Mr. W. F. Wheeler, Secretary. The two latter gentlemen are in charge of the offices of the company at 71 Broadway, and Messrs. Emil Haas & Co., Financial Agents, have office at the same place.

☞ The directors of the Atlantic and Lake Erie Railroad Company, at a meeting held in Columbus, Ohio on the 15th inst., agreed upon a contract, under which the road is to be completed by January 1, 1878. The expense is to be paid out of money to be realized on bonds. The contract will be put before the stockholders, for ratification or rejection, at Bucyrus, on the 8th of February. The work is to commence in Perry county and extend northward.

Philadelphia, Wilmington and Baltimore Railroad.

The annual meeting of the stockholders of this company was held at Wilmington, Del., on the 11th inst., 54,000 shares being represented. The following directors were elected: Isaac Hinckley, Samuel M. Felton, William Sellers, Samuel Welch, Jessie Lane, Joseph Bringhurst, Samuel Harlan, Jr., Thomas Kelso, Enoch Pratt, Thomas Donaldson, Thos. Whitridge, Samuel M. Shoemaker, Jacob Tome, Nathaniel Thayer and Charles P. Bowditch. The only change in the direction is the election of Mr. Bowditch in the place of Wm. P. Minot, of Boston, who declined re-election. Subsequently Isaac Hinckley was elected president, Enoch Pratt vice president, and Alfred Horper secretary and treasurer.

Dividends, Interest, etc.

The Delaware and Hudson Canal Company have declared a dividend of five per cent, payable at the National Bank of Commerce, New York, on and after the 1st of February.

The Connecticut and Passumpsic Rivers Railroad Company have declared a dividend of three per cent, payable on the 1st of February to holders of preferred stock, at No. 7 Merchants' Exchange, Boston.

The Atlantic and George's Creek Consolidated Coal Co. have declared a dividend of 15 cents per share, payable in Baltimore on and after January 20th.

The Buck Mountain Coal Company announces a dividend of 3 per cent, or $1 50 per share, payable in Philadelphia on the 25th instant.

Chesapeake and Ohio Canal.

At the regular monthly meeting of the directors held at Annapolis, Md., on the 12th inst., President Gorman submitted the following report:

The canal tonnage during the month of December was 17,102 tons, which is an increase over the corresponding month of 1873 of 8,056. The total revenue for the month was $20,736 78. The expenditures for the month on all accounts amounts to $18,271 95; net revenue, $2,464 83. The expenses, as compared with December, 1873, show a decrease of $3,827 13. Owing to the very favorable weather the water was kept in the canal until the 28th of December, and then was only drawn off because all the coal companies had stopped shipments for the season. The coal tonnage for the year 1874 was 836,997 tons, which is an increase over the tonnage of 1873 of 39,159 tons.

☞ The Pennsylvania Railroad Company has just issued, through the London Asiatic Company (limited,) a sterling loan of £3,000,000, or $15,000,000, at about 91 per cent gold. The subscriptions amounted to £8,000,000, or $40,000,000. This new issue is part of the company's general mortgage loan.

Philadelphia and Reading Railroad.

At the Annual Meeting of the Stockholders of this Company, held in Philadelphia on the 11th inst., the following Report was presented:

To the Stockholders of the Philadelphia and Reading Railroad Company:

The Managers submit the following Report of the receipts and expenditures for the year ending November 30th, 1874, together with the Treasurer's general balance sheet, exhibiting the financial condition of the company at that date.

The following tabular statement in detail, for each branch of traffic, shows the comparative results of the year's business:

1873.	
Travel, 6,790,088, equal to 860,829 through passengers	$1,976,645
Mdse., 3,331,193 16-20 tons	3,603,177
Coal, 5,318,897 15 20 tons	9,104,095
Mail	60,903
Miscellaneous	87,841
Gross receipts	$14,832,661
Gross expenses	9,474,895
Net profits	$5,357,766

1874.	
Travel, 6,964,869, equal to 852,312 through passengers	$2,012,666
Mdse., 3,098 830 10-20 tons	3,380,301
Coal, 5,182,560 2 20 tons	8,920,914
Mail	52,687
Miscellaneous	85 554
Gross receipts	$14,452,122
Gross expenses	8,731,916
Net profits	$5,720,206

Travel	Increase,	$36,021— 1 8 10
Merchandise	Decrease,	222,876— 6 2 10
Coal	Decrease,	183,181— 2
Mail	Decrease,	8 216—13 5 10
Miscellaneous	Decrease,	2,287— 2 6 10
Gross receipts	Decrease,	$380,539— 2 6 10
Gross expenses	Decrease,	742,979— 7 8 10
Net profits	Increase,	$362,440— 6 8 10

Gross expenses, including renewal fund, rents of lateral roads, taxes, &c., in the

Year 1873, were 63 9-10 per cent of gross receipts.
1874, were 60 4 10 " "

The receipts and expenses, per through passenger and per ton, including renewal fund, rents of laterals, taxes, interest, &c., and based upon coal tonnage of Main Line only, have been as follows:

1873.

Per passenger.	Cost,	$1 99 6-10	Rec'd,	$2 29 6-10
Mdse., per ton.	"	76 8-10	"	1 08 2-10
Coal, per ton..	"	1 35 1-10	"	1 71 2 10

1874.

Per passenger.	Cost,	$2 14 4-10	Rec'd,	$2 36 1-10
Mdse., per ton.	"	89 5 10	"	1 09 1-10
Coal, per ton..	"	1 32 3-10	"	1 72 1-10

Including renewal fund, rents of laterals, taxes, interest, &c., and based upon entire coal tonnage of the company, on Main Line and on the branches or laterals:

1873.

Per passenger.	Cost,	$1 99 6 10	Rec'd,	$2 29 6-10
Mdse., per ton.	"	76 8-10	"	1 08 2 10
Coal, per ton..	"	1 09 7-10	"	1 89 1-10

1874.

Per passenger.	Cost,	$2 14 4-10	Rec'd,	$2 36 1-10
Mdse., per ton.	"	89 5-10	"	1 09 1-10
Coal, per ton..	"	1 08	"	1 40 5 10

The receipts and cost per passenger in the above table, and in all similar ones in previous reports, are calculated not upon the actual number of passengers carried during the year, but upon the aggregate number reduced into the equivalent of through passengers between Philadelphia and Pottsville. In consequence of the great number of merged and leased lines now worked by the company, the distance between Philadelphia and Pottsville no longer represents the length of the longest passenger route, while the number of passengers carried upon one of the leased lines alone greatly exceeds the aggregate of all the others transported by the company. There seems, therefore, to be no good reason why the reduction into through passengers should be made, and hereafter the tables will be based upon the actual number of passengers carried, the receipts from and cost of which for the year just closed were 28 89-100 cents and 20 76 100 cents, respectively, per passenger.

The result of the year's business, as condensed from transportation and income account, may be stated thus:

Receipts over cost of working the road		$5,720,204 82
State taxes refunded under decision of U. S. Supreme Court		70,810 33
		$5,791,015 15
Add balance of interest account, including interest and dividends on stocks and bonds held by the company, receipts from the Philadelphia and Reading Coal and Iron Company, &c., first deducting drawbacks on traffic of 1873, loss on line of Richmond coal barges, and upon the business of the Schuylkill & Susquehanna Canals, and interest on instalments on convertible loan 1873 '93		1,280,859 50
		$7,071,874 65
From which deduct—		
Inter't on bonded debt	$2,614,580 00	
Interest on bonds and mortgages	108,895 00	
Sinking fund consolidated mortgage loan 1871 1911	203,027 00	
Sinking fund improvement mortgage loan 1873-'97	200,000 00	
		3,126,502 00
		$3,945,372 65
Amount to credit of reserved fund, 1873		693,000 14
Dividend fund, 1874		$4,638,372 79
Out of which has been paid in April, 1874, two and a half p. c. dividend on $34,272,575 28	$856,314 38	
July, 1874, two and a half per cent dividend on $34,274,575 28	856,864 38	
October, 1874, two and a half per cent dividend on $34,274,575 28	856,864 38	
	$2,570,543 14	
State tax on dividends	197,076 29	
		2,767,619 43
		$1,870,753 36
There has been declared a dividend, payable in cash on the 25th of January, 1875, of two and one-half p. c. on the preferred and common stock $34,274,575 28	$856,864 38	
State tax on dividends	77,117 79	
		933,982 17
Balance of reserved fund		$936,771 19

The past year has been marked by a very great depression of all manufacturing industries, and especially the iron trade, upon the success of which the coal traffic is so dependent. The depression has been much greater than was generally expected, even after the financial panic of 1873 had shown the insecurity of the stimulated demand for the many new railroads that for two or three years had absorbed the product of existing iron works.

It might reasonably have been expected that during a period of such stagnation the traffic of the company would have fallen off very greatly; and yet, notwithstanding the very general suspension of manufactures, the gross receipts of the company are larger than those of any other year except the last, while the net profits are greater than those of any previous year without exception. As compared with 1873, the coal tonnage has fallen off three per cent; merchandise receipts have decreased six and one-fifth per cent; and passenger receipts have increased one and eight-tenths per cent. The following table exhibits the comparative traffic of the years:

	1873.	1874.
Number of passengers carried	6,790,088	6,964,869
Number of tons of coal 2,240 pounds	6,546,553	6,348,812
Number of tons of merchandise, 2,000 pounds	3,331,194	3,098,831
Number of tons of the company's materials, 2,000 pounds	651,648	493,591
Total tonnage of company (2,000 pounds), including weight of passengers and company's materials	11,932,262	11,836,261

The annual increase of the demand for anthracite coal for domestic uses has been so great as almost to make up for the loss of tonnage resulting from a decreased demand for manufacturing purposes; and nothing can so surely show the permanence and security of this demand for domestic uses as the fact exhibited by the statistics of the past year, viz, that during a period of unexampled depression, when nearly half of the furnaces and rolling mills were out of blast, and a large proportion of other steam power mills and factories either idle or working upon short time, the coal tonnage of the company has fallen but three per cent below that of the largest amount ever transported. Of the falling off of merchandise receipts, amounting to $222 876 as compared with last year, $184,692 is accounted for by the withdrawal of the cattle trade of the Pennsylvania Railroad Company, which was formerly transported to New York via Harrisburg, Reading and Allentown, but which, since January 26th last, has been taken from the lines of this company. The withdrawal of this traffic has resulted in a gain rather than a loss of net profits, as the receipts from it have averaged during the previous four years only eighty five one-hundredths of a cent per ton per mile—a rate entirely insufficient to yield any profit upon its transportation. The loss of the through western cattle trade has therefore been accompanied by such a saving of expenses as makes the net profit upon merchandise traffic greater than it would have been had this trade been retained at the customary rates heretofore paid for it. In view of the ruinously low rates at which through western trade has been carried, it is difficult to understand upon what ground the inhabitants of the Western States base their complaints of exorbitant charges against railroad companies and their demands for new east and west freight lines, as all experience seems to show that local producers and consumers along the lines of eastern railways have been charged unnecessarily high rates in order to enable existing railroad companies to carry the western traffic, not only at less than its cost, but at one half the rates at which it could be transported by any new freight railroad depending exclusively upon through trade.

It is believed that the increased receipts from passenger traffic are, in a great measure due to the abolition of the free pass system; and the Managers take great pleasure in informing the stockholders that during the year not a single free pass was issued to any one, except to an employe of the company, and the few persons who were entitled to free travel by existing contracts in consideration of the surrender of real estate, or as directors of the leased lines; and in case of the latter exception the pass was confined to the line leased, in strict accordance with the terms of the contract under which it was issued. The abolition of this most pernicious system has not only added to the revenues of the company and greatly relieved the executive officers from thousands of annoying and pertinacious demands heretofore made upon them, but it is believed that it has given entire satisfaction to the general traveling public. So long as certain favored individuals were allowed to travel for nothing, each person buying a ticket felt the injustice of the discrimination which compelled him to pay for what less deserving people obtained as a gift; but where an inflexible rule is applied to all, without fear, favor,

or affection, it is followed by an immediate and cheerful acquiescence.

A reference to the table exhibiting the monthly receipts will show how irregular and fitful the business for the year has been. Up to the 1st of July the profits for the year were $529,000 in excess of those to the same period of 1873, but in the months of July and August the absence of demand for coal involved the necessity of repeated suspensions of mining, and the net profit for those two months fell off so much that more than the previous gain was lost. A sufficient recovery was made, however, during the autumn to close the year's business with an increase of net profits amounting to $362,440 over those of the previous year. Had the traffic kept up to its usual amount in July and August, this increase of net profits would have been from $1,000,000 to $1,500,000.

Some estimate of the present capacity of the railroad and equipment may be formed from the fact that, in the month of October, alone, 902,985 tons of coal were transported, equal to a weekly tonnage of over 200,000 tons; and that during one day of the same month 48,282 tons were carried. The efficiency of the plant and the character and morals of the staff of officers and employes are attested by the gratifying fact that this large amount of traffic was transported without serious accident or detention; and that during the year, 6,964,869 passengers were carried over the lines without injury to any one resulting from fault or negligence of the company or its employes.

The second tracks upon the East Pennsylvania and Lebanon Valley Railroads are being laid, and before long the entire line between Harrisburg and Allentown will have a double track.

The completion of the Perkiomen Railroad has been delayed by the work upon the tunnel at the summit, but this is expected to be finished in a few months, and the entire line will be opened within the present year. When this line is completed its favorable grades and alignment, and the superiority of the terminal facilities of the company in Philadelphia must give it great advantages over any other route for the traffic of the Lehigh and Wyoming Valleys and Central and Northern New York moving to Philadelphia via Allentown from the lines of the Lehigh Valley and Lehigh and Susquehanna Railroads and their several northern connections.

A railway company known as the Lancaster and Reading Narrow Gauge Railroad Company, having located and completed the graduation and masonry of a line of narrow gauge railway from Lancaster southward to Quarryville, in Lancaster county, for the purpose of opening and developing a region rich in hematite iron ore, and being unable to complete the line, this company has guaranteed the first mortgage bonds of the former company to the amount of $810 000, with the proceeds of which the line is now being laid with a gauge of four feet eight and one half inches, to connect directly at Lancaster with the line of the Reading and Columbia Railroad Company, which latter company will work the new road under a lease of 999 years, at a rental equal to thirty per cent of the gross receipts. Although—as in all similar cases—the working of the leased line *per se* will not be profitable, it is expected that the large amount of iron ore traffic coming from it, and the advantages of returning freight of coal to the districts opened by the new line, will result in a profit to the Reading and Columbia Railroad Company, from the transportation over its road between Sinking Springs and Lancaster, much greater than the loss incurred by the lease.

The good character of the iron rails manufactured by the company, to which reference has been made in previous reports, is further shown by the following table, which is the same as that usually presented, carried down to the end of the past year. The percentages of rails removed, of those manufactured in the years 1873 and 1874, are not accurate, for the reason that the entire product of these years has not been laid in the track. The percentages of the previous years are correct, however; and of the product of 1868, over fifty per cent is still in the track, having during the seven years of its service been subjected to a tonnage of more than fifty millions of tons. Over ninety miles of steel rails are now laid in the most exposed places throughout the various lines, and to their good quality and that of the iron rails made at the company's mill, the saving of roadway expenses during the past year is to be attributed

During the year the two new iron steam colliers built at Chester, and five of the six built at Philadelphia (to which reference was made in the last report), have been finished and placed in the trade. The following table shows the result of the year's business, as compared with that of previous seasons:

	Tons coal carried.	Total Receipts.	Total Expenses.	Net Profits.	Average rate of freight received per ton.
1872 ..	$127,275	$355,460 03	$237,818 26	$117,641 77	$2 62
1873 ..	135,673	309,296 33	202,111 04	107,185 29	2 32
1874 ..	217,340	300,636 28	294,045 41	6,590 85	1 29

The small amount of net profits is due, first, to the expenses attending the receipt and introduction of seven new ships; and second, and principally, to the low rate of freight prevailing during the year. In consequence of the dullness of trade, vessels have been in such plentiful supply during the season that freights from Philadelphia to eastward ports have fallen, in the average, at least a dollar below the usual rates heretofore paid; and the steamers had to submit to the same reduction as sailing vessels. Had the rates kept up to the standard of 1873, the line would have shown a handsome profit. It must be borne in mind, however, that low rates of freight from Philadelphia to New England are of much more value to the company than profits upon its steam colliers, which carry but about one-tenth of the coal shipments of the Company, and that the increased car service and decreased cost of shipping coal at Port Richmond, due to the certainty and regularity of the supply of steam colliers, already amounts to a very handsome interest upon the cost of the fleet. Included in the expenses of 1874 is the sum of $43,038 05, charged to insurance fund of steam colliers, which is now in credit $78,900 67.

The ship yard, to which reference was made in the last report, has been completed, but has not yet been put in operation, in consequence of the reluctance of the Councils of the City of Philadelphia to agree to the vacation of certain proposed streets projected upon the property of the Company at Port Richmond, the existence of which, as thoroughfares, would have made it impossible to carry out the plans of the Company to completion. After a delay of nearly a year, Councils have passed a resolution directing the revision of the street plan, which, it is hoped, will be satisfactory to all parties.

The interruption of the coal traffic in the months of July and August had its effects upon the business of the Schuylkill Canal, which shows a loss for the year of $216,927 94. The net result of the business of the Susquehanna Canal, however, shows an improvement over last year of nearly one hundred thousand dollars. The transportation and income account will exhibit in detail the results of the working of these two lines of canal. The stockholders are referred to the accompanying report of the Chief Engineer of Canals for a statement of the work done through the year, and for an interesting report upon the important question of the water supply of the City of Philadelphia in connection with the works of the Schuylkill Navigation, from which it will be easily inferred, not only that the valley of the Schuylkill is able to furnish an abundant supply of water, but that by means of the works of the Navigation Company that supply can be protected and assured at a cheaper cost to the city than by any other plan heretofore suggested.

The traffic upon the Germantown and Norristown Branch continues to show the same gratifying yearly increase, which, since making the lease of the line, has resulted from the improved rolling stock put upon it and the increased facilities given to the traveling public. The number of passengers carried during the year upon this branch alone was 4,257,680, against 4,064,530 in 1873, and 3,712,816 in 1872.

The net result of the working of the Catawissa Railroad shows an improvement of $198,787 27 over that of the year 1873; and notwithstanding the large amount expended upon renewal and relaying track—all of which has been charged to expenses—the loss upon the lease for the year is but $148,199 37, against $346,986 64 for 1873. Since the lease was taken, the entire line of the Catawissa Railroad from Milton to Tamanend has been practically relaid with a new track, and a large amount of money has been expended upon other improvements, with a view of bringing the road up to the same efficient condition as that of the other lines worked by the Company. This result having now been accomplished, the revenues of the company will no longer be burdened by the charge of extraordinary repairs and renewals, which in the past two years have amounted to nearly $300,000.

The express business has realized a net profit of $54,540 81, against $41,915 60 for the previous year. The equipment account of $57,408 68 has not been increased, as all new equipment required during the year for the increasing business has been charged to the expense account.

Although the sum realized as profit is so much larger than that received last year, and so much greater than was ever derived from the Adams Express Company, it is to be borne in mind that the business is still being conducted under the most unrelenting opposition of the latter Company, which, during the year, has continued in business at the various stations of the Company, and which has smuggled most of its valuable traffic over the roads as passengers' baggage, without paying any charges therefor; its sole effort seeming to be, at any cost to itself, to cripple and destroy the express business of the Railroad Company, in the hope of demonstrating that railroad companies can only transact a profitable express business through the medium of that Company, which already enjoys the monopoly of it upon most of the railway lines in the United States. If, under such adverse circumstances, a result so favorable has been obtained, there can be no exaggeration in saying that the express and parcel business of the Company is worth at least one hundred per cent, more than the sum formerly paid for the privilege of making use of the agents of the Railroad Company to transfer the profits belonging to their employers to the treasury of the Adams Express Company.

During the year the capital stock of the Company has been increased to the extent of eighty shares, or $4000 by the conversion of a like amount of the six per cent. convertible mortgage bonds of 1886.

It will be observed that $403,027 have been charged to income account during the year, for the sinking funds of the consolidated mortgage loan of 1871 1911, and the improvement mortgage loan of 1873 97.

The entire sinking fund of the former mortgage, amounting now to $394,127, as follows:

Charged income account, 1873.....	$191,100 00
Charged income account, 1874.....	203,027 00
has been invested thus:	
In 331 seven per cent coupon consolidated mortgage bonds of $1000 each, purchased and canceled, cost	$343,205 05
51 seven per cent. registered consolidated mortgage bonds of $1000 each, purchased and canceled, cost	51,516 25
Total	$394,721 30
Over invested	$594 30

The sinking fund of the improvement mortgage is applied by drawings; and in July last the drawing of 200 bonds of $1000 each took place in London. Of the bonds thus drawn $112,000 have been presented and paid in Philadelphia; $47,000 have been presented and paid in London, and the balance have not yet been presented for payment, though by the terms of the mortgage interest upon all bonds drawn for the sinking fund ceases upon the first of October after each drawing.

The usual charge of $25,000 for the sinking fund of the loan due in 1877 is not made this year, as the aggregate amount heretofore carried to the credit of the sinking fund of this loan, viz.: $166,070 45, is greater than the amount of the loan now outstanding, viz.: $134,400.

The total amount heretofore charged income and now remaining temporarily to the credit of the accounts of bonds purchased and canceled, and to the sinking fund of the loan of 1877, is $780,870 45.

The purchases of coal lands made during the year by the Philadelphia and Reading Coal and Iron Co. added to those previously acquired, will make an aggregate of 100,000 acres. At present it is not designed to purchase any more, except such few tracts of intervening lands as may be found to be necessary additions to the present estate. At the time when the scheme of the Coal and Iron Company was first inaugurated, it was not necessary for the Company to become owners of collieries and miners of coal—it being believed that an acquisition of coal lands to be worked by tenants was alone sufficient for the purpose designed. An experience of one or two years as landlords showed how utterly inadequate, under existing circumstances, the individual tenants were to develop and improve the estate. But few private persons had sufficient capital to open and conduct a colliery in any other manner than to make it profitable during a few years, after which it was thrown upon the hands of the landlords, who were forced to expend large sums upon it in order to protect it from destruction. Added to this, the depressed condition of the coal trade, resulting from the repeated strikes of 1869, 1870 and 1871 had given little encouragement to individuals to engage in mining, and those who had survived contests with the workmen had but little capital left to improve their collieries and open new mines for the future. It seemed inevitable, therefore, that, if left to individual enterprise, the development of the coal region would be retarded for many years; and nothing remained for the Company but to profit by the experience and to follow the example of the large coal and railroad companies of the Wyoming region and to become miners of coal upon their own estates. This policy has been steadily pursued for the last two years, during which a large number of collieries, formerly worked by tenants, have been bought. New ones have been erected, and the old ones remodeled and improved. These works, which have occupied the greater part of two years, are now completed; and of the eighty two collieries now in operation upon the lands of the Company, thirty seven will be worked by the Company itself—the others remaining in the hands of the tenants until the expiration of their respective leases. The position occupied by the Company as miners of coal required, in addition to the very large expenditure made in purchasing, opening and improving collieries, a large investment to be made, outside of the coal regions, to enable them to handle and successfully dispose of the mines. Large retail yards in the city of Philadelphia, wharves and shipping facilities in New York and the various eastern ports, have been purchased and erected; and it is believed that no other company now possesses greater advantages than those of the Philadelphia and Reading Coal and Iron Company, in the ability to mine coal economically, and to dispose of a large product to the best advantage; the only improvement yet wanted to complete the system being a depot capable of storing at one place at least five hundred thousand tons of coal, in order to keep the collieries constantly at work, and avoid the expense of stopping them whenever orders are scarce, or vessels not in sufficient supply to carry away the product.

Among the most important of the new works commenced by the Company has been the sinking of two perpendicular shafts or pits in the vicinity of Pottsville, in order to reach and work the large white ash coal veins of the southern basin. This work has been prosecuted vigorously until a depth of 1128 feet was reached by the deepest shaft, from which a bore hole has been sunk into the Mammoth vein, at distance of 1954 feet from the surface of the ground. The shaft will be continued down to Primpose vein, a depth of 1569 feet from the surface, from which point the Seven foot vein and the Mammoth vein will be reached by a tunnel, as shown on the cross section of the basin hereunto annexed. The several veins of workable coal opened by these shafts are as follows:

Tracey vein..6 ft. th'k	Primrose vein 12 ft. thick
Diamond vein.4 ft. th'k	Seven foot "11½ ft. thick
Orchard vein.6 ft. th'k	Mammoth " 25 ft. thick

making a total thickness of coal of sixty four feet, exclusive of the smaller veins; and, in addition to these veins, there are the coal strata underlying the Mammoth vein, which can be reached in the future, if required, by an extension of the shafts. The extent of territory tributary to these shafts is so great that there can be but little doubt that at least one hundred millions of tons in the several veins already opened can be worked through them, and that, for almost an indefinite period, the proposed colliery will be one of the most productive known. When it is considered that the deposits of coal thus opened and proved extend throughout the entire length of the southern coal field, principally underlying lands bought at exceedingly low prices, and heretofore considered by many as comparatively valueless, and which are within one hundred miles of tide water at Philadelphia, the importance of the developments made by the shafts cannot be over estimated.

To supply the funds required for the various new works of the Coal and Iron Company hereinabove referred to, the building of new steam colliers, the double track upon the Lebanon Valley, and East Pennsylvania Railroad, &c., &c., an issue of ten millions of dollars six per cent. gold coupon bonds was made during the year. This loan was part of a general mortgage loan of $60,000,000, authorized by the managers, of which amount $35,000,000 will be retained for the present consolidated improvement mortgages, fifteen million will be reserved for future wants, and the ten million of dollars above referred to were issued by subscription in London in July last, at ninety per cent. in gold. To secure the advances heretofore made by the railroad to the Coal and Iron Company, the latter company executed a mortgage of $30,000,000 to the Railroad Co., which has been transferred and assigned to the trustees of the general mortgage, and in this manner the lands of the Coal and Iron Co. are pledged for the payment of the bonds created under the new mortgage a copy of which is hereto annexed for the inspection of the stockholders.

The tonnage of the lands owned and controlled by the Philadelphia and Reading Coal and Iron Company for 1874 was 3,006,774 against 3,218,376 in 1873,

The present annual capacity of the collieries upon these lands may be safely stated as follows:

	Tons.
From collieries to be worked by the Co..	3,000,000
From collieries leased to tenants.....	1,100,000
Total.....	5,100,000

And although it is not expected that manufactures will sufficiently revive during next year to require so large a product, it cannot be long before it will be absorbed by the increasing demand, and additional collieries will have to be opened to produce more coal.

When it is considered that the anthracite coal trade of the United States has now reached an annual product of 19,000,000 of tons; that it has doubled every ten years during the past; that in ten years it will be 40,000,000 of tons, and that the Philadelphia and Reading Coal and Iron Company owns at least one third of all the anthracite coal land of Pennsylvania, but little doubt can be reasonably entertained of the future success of the Company.

The pyramid printed on the opposite page, condensed from that annually published by P. W. Sheafer, Esq., of Pottsville, shows the gradual growth of the trade, with the tonnage of every tenth year since 1820.

Although there have been frequent periods when the yearly tonnage has fallen below that of the preceding year, it will be observed, by reference to the outline of the pyramid, that every period of contraction has been followed by a period of more than corresponding expansion. In a country as rich in mineral and agricultural resources and increasing as rapidly in population as the United States, there can be but little doubt that the future of the coal trade will show as great an increase as the past has done, and that the falling off of tonnage during the present crisis is merely temporary, and must of necessity be followed by a largely increased demand within the next two or three years.

The Managers have felt it to be the part of true wisdom to prepare for this inevitable increase of trade in proper time; and though the expenditure of one half of the capital invested in permanent improvements by the Coal and Iron Company during the last two years might have been postponed to a future day, without affecting the receipts of the present year, the result of such postponement would have been most seriously felt in the inability of the company to respond to the increased demand attending a sudden revival of manufacturing industry and the sure and gradual growth of the consumption for domestic purposes. In the same manner, had it been considered safe to ignore and look only to the present year of depression, a very great apparent saving of expenses might have been made by the Railroad Company, but such a saving would have been but poor economy, and must necessarily have resulted in a depreciation of plant that would have been severely felt when tested by the strain of a large traffic. Whilst, therefore, the improvements upon the estate of the Coal and Iron Company have secured for the railroad a certain traffic, which can always be relied upon as fully commensurate with the wants of the market, the roadway, rolling stock, and the other plant of the Railroad Company have been kept up to their usual state of efficiency, and are amply sufficient, upon the shortest demand, to move a traffic of 200,000 tons of coal per week throughout the entire season.

By order of the Board of Managers.

FRANKLIN B. GOWEN, President.

PHILADELPHIA, January 6th, 1875.

RAILROAD EARNINGS—MONTHLY.

American Railroad Journal.

Saturday, January 23, 1875.

Financial and Commercial Affairs.

Money has been only moderately active. The speculative inquiry, for use at the Stock and Gold Boards, has been the most urgent, yet has not been sufficient to afford prompt and lucrative employment, in a controllable form, for the bulk of the offerings of capital. Call loans have been quoted at from 2@5, ruling generally at 2½@3½ per cent per annum, to the leading Street borrowers. The demand from mercantile sources for discount accommodation has been comparatively moderate, as yet, and rates have been quoted nominally unchanged; though on the best names, terms favorable to borrowers have been obtainable. The range on very choice to prime commercial credits has been from 5@7 per cent per annum. The few failures reported, during the week, in the financial and commercial lines, have made no perceptible impression on the loan and discount market as against parties, in good standing, needing accommodation. There has been a considerable influx of currency reported from the interior, within the week, which has tended to strengthen the city bank reserves; and the deposit and legal tender items, on the last weekly report, show an important increase. The specie item is also augmented moderately. The loan and discount average shows a marked decrease. The U. S. Sub Treasury office reports a gain of currency, and a loss of specie, as the result of the week's business. The City banks last week enlarged their reserve of legal tender notes $4,450,800, and their deposit item $5,283,700, while increasing their specie average $268,500. They report a reduction of $3,185,200 in the loans and discounts, and of $118,700 in their circulation. The U. S. Sub-Treasury in this city closed the week with a currency balance of $45,310,451, against $44,451,858, the preceding week; and a coin board of $44,166,664 against $45,756,180, on the previous return. The City bank exchanges, during the week, were $499,067,586, or a daily average of $83,176,931. The customs revenue of the port, during the week, was $1,920,000. The City banks reported their average of gold last week at $28,490,600, and their greenback average at $55,271,900. Their deposits stood at $286,897,500. The loan item was $282,972,700. The circulation was $24,288,800.

The City Bank net reserve of specie and legal tender notes now shows an excess, over the legal requirement of reserve to liabilities, of $19,588,125.

The aggregate of the outstanding U. S. currency, of all denominations, Jan. 1, was $428,462,916. The outstanding amount of legal tender notes is 382 millions. The National bank circulation is now $350,256,446.

The U. S. Treasury balances on Wednesday were as follows: Currency, $10,500,000; special deposit of legal tenders for redemption of certificates of deposit, $42,680,000; coin, (including $28,000,000 in coin certificates,) $71,000,000.

The income of the Government, from internal revenues, thus far, in the fiscal year, commencing with July 1, 1874, has been over 62½ millions.

Under the warlike rumors of the week, the Gold speculation has shown more animation, and, at times, renewed buoyancy as to price. The rumors, however, were not confimed in any trustworthy way, and the later operations at the Gold Board indicated less firmness. The export demand has been fair. Some increase is noted in the customs drain, preparatory to the Spring business. The extremes of the week have been 112⅛@112⅝, closing on Wednesday at 112¼ as against 112⅜ on Wednesday of the preceding week. The specie outflow last week was $2,328,069. The imports of specie at this port since Jan. 1, have been $89,935. The customs demand for Gold last week averaged $316,123 a day. Foreign Exchange has been offered in fair request and held more firmly. Bankers' sixty day bills on London closed on Wednesday at $4 86@$4 87; sight bills on London at 4 89½@$4 90½ to the £ sterling. The week's exports of Domestic Produce have been to the currency value of $4,659,275.

The import entries of Foreign Merchandise at New York, including dry goods, amount for the past week to $7,204,672.

Government Securities have been quite firm, as a rule, on a fairly active investment inquiry for the leading issues, especially of the later gold-bearing bonds, and the currency sixes.

U. S sixes of 1881 closed on Wednesday of this

week at 118⅛@118¾; U. S. Five-Twenties of 1862, at 114¾@115; U. S. Five-Twenties of 1864 at 110⅜@116⅝; U. S. Five-Twenties of 1865 118¼@118½; U. S. Five-Twenties of 1865 consolidated, 117½@117¾; U. S. Five Twenties of 1867,118⅜@118⅝; U. S. Five-Twenties of 1868, 118⅜@118⅝; U. S. Ten-forties at 115¼@115½; U. S. Fives of 1881, (Funding Loan) 114@114¼; Six per cent. currency Sixes from 117⅞@118⅛.

There has been a moderately active business reported at the Stock Exchange during the week, but prices have been quite variable. The later dealings in the Railway and miscellaneous share list indicated a weak and feverish market. State and Railway bonds have been rather more sought after, and prices have been quoted firm in the leading instances.

General business has been comparatively tame, in the leading kinds of domestic produce, other than Cotton, which has been quite freely dealt in,in good part for export, at much firmer prices. Breadstuffs, Provisions, Petroleum, Oils, and Naval Stores closed generally weak as to values, Tobacco and Wool in fair request at former figures. Hides, Leather, Fish, and Seeds, in moderate demand at unchanged rates. The Metal trade has been more active, chiefly in the line of American Pig Iron, in which the dealing have been unusually extensive at stronger prices, equal to about 23,000 tons having been disposed on the basis of $26@$27, for No. 1, $23@24, for No. 2, and $19@$23, for Gray Forge. Of Scrap Iron, 2,700 tons have been disposed of within the range of $28@$33 per ton. Other kinds have been moderately sought after at about steady rates. Eglinton Pig Iron quoted from yard at $34@$35; Glengarnock, $36; No. 1 Amercan Pig at $26@$27; No. 2 do. at $23@$25; Forge, $20@$24; English Rails at $47 50@$50, gold; American Rails at works, $50@$52; Old Rails, $30. Wrought Scrap, $28@$33. Ocean freights have been less active and at the close, less firm.

Brown, Brothers & Co.,

No. 59 WALL St., N. Y.,

Issue, against cash deposited, or satisfactory guarantee of repayment, Circular Credits for Travelers, in *dollars* for use in the United States and adjacent countries, and in *pounds sterling* for use in any part of the world.

THEY ALSO ISSUE COMMERCIAL CREDITS, MAKE CABLE TRANSFERS OF MONEY BETWEEN THIS COUNTRY AND ENGLAND, AND DRAW BILLS OF EXCHANGE ON GREAT BRITAIN AND IRELAND.

Michigan and Ohio and Scioto Valley Railroads.

The Michigan and Ohio Railroad Company, who are engaged in building a line from Grand Haven, on the Shore of Lake Michigan, to Portsmouth, on the Ohio River, 400 miles in length, intersecting all the East and West trunk lines, and connecting with the Chesapeake and Ohio at the Ohio river, is reported to have negotiated a portion of their fifteen million loan in the London market. Work has been commenced at the western terminus, and arrangements are now in contemplation to begin at the eastern end in the Spring. This road will unite the lumber, wheat, plaster and iron of Michigan with the coal and provisions of the Ohio Valley; and, it is stated, the road is offered 500 tons per day of East bound freight from Milwaukee. The original survey contemplated a line passing diagonally across the States, through Defiance, Urbana, London and Circleville, thence down the Scioto Valley. A company had already organized to build a line of 90 miles from Columbus to Portsmouth covering the same Valley. A conference meeting was held in Columbus on the 14th inst., to see if the two interests could not be united so as to carry the Michigan line through that city. Among those present, beside the principal officers, were Gov'r Allen of Ohio, and Mr. Ewing Miller President of the Board of Trade. The offer on the part of the Michigan and Ohio, was that in consideration of the right of way and a subscription of $5,000 per mile they would have a line of steel rails in operation within one year. It is believed this offer will be accepted.

☞ THE PHŒNIX IRON COMPANY, of Pa., whose office is at No. 410 Walnut St., Philadelphia, have issued in handsome style and suitable pocket form, a Handbook of Useful Information for Architects, Engineers, Bridge Builders and other workers in wrought Iron, containing among other things, plans and drawings of many of the most important structures in iron, such as roofs, bridges, trusses, floor beams, &c., &c., together with tables of the weight, tensile strength, deflection and strain of wrought and cast iron columns, beams and girders, of all ordinary sizes and measurements. There are also tables of logarithms, geometrical expressions, weights, linear, square and cubic measurements, both English and French, and their equivalents, which will be found useful to all persons engaged in building or other constructive arts. See the card of this company on another page of the Journal.

☞ The Illinois Central R. R. Co. has recently negotiated in Scotland, through Messrs. J. S. Kennedy & Co., of this City, a loan of £500,000, to take up the same amount of Sterling Bonds due in London on the 1st of April. The new bonds bear six per cent. interest, and have twenty years to run. This company has in Sinking Fund $2,735,000 to pay the balance of the Construction Bonds, which also mature on the 1st of April. The original debts of the company will then be paid off, with the exception of $2,500,000 six per cent Currency Bonds, held in Amsterdam, which do not mature until 1890.

☞ W. E. Livingston has been chosen President and F. H. Nourse Clerk and Treasurer of the Salem and Lowell R. R. Co.

☞ A new road is being built via Greenwood Mining District, Arizona, to the Colorado river; also, from San Bernardino to the Colorado river. When completed, it will shorten the distance between Prescott and San Bernardino 100 miles.

PROPOSALS.
LETTING NO. 12.

SEALED PROPOSALS WILL BE RECEIVED BY the Trustees of the Cincinnati Southern Railway, until MONDAY, February 1, 1875, at 12 o'clock noon, for 25,000 tons railroad iron, also for 22,000 tons steel rails.

Specifications can be had at 70 West Third street, Cincinnati, Ohio.

The Board reserves the right to reject any or all bids.

By order of the Board.

MILES GREENWOOD, Pres't.

THOS. D. LOVETT, Consulting Engineer.

PENNSYLVANIA RAILROAD COMPANY,
TREASURER'S DEPARTMENT,
PHILADELPHIA, January 11, 1875.

NOTICE IS HEREBY GIVEN THAT THE Bonds of the New Jersey Railroad and Transportation Company of the Loan for $300,000, due February 1, 1875, will be paid at par and accrued interest, on presentation on and after this date at the Agency of the Pennsylvania Railroad Company, No. 57 Broadway, New York, and that the Bonds of the Delaware and Raritan Canal, and Camden and Amboy Railroad and Transportation Co., of the Loan for $675,000, due April 1, 1875, will be paid at par and accrued interest, on presentation on and after this date, at the office of the Pennsylvania Railroad Company, No. 233 South Fourth street, Philadelphia.

BAYARD BUTLER,
Treasurer Pennsylvania Railroad Co.,
Lessee of the property of the United New Jersey Railroad and Canal Co.

OFFICE PENNSYLVANIA RAILROAD CO.,
PHILADELPHIA, January 11, 1875.

NOTICE IS HEREBY GIVEN THAT THE Pennsylvania Railroad Company will pay, upon presentation, before March 6, 1875, their Scrip issued for the dividend December 6, 1873, at par, and accrued interest thereon to date of presentation.

On the 6th of March, 1875, this Scrip will cease to bear interest, and the Company will pay all that may then be outstanding.

BAYARD BUTLER, Treasurer.

OFFICE OF THE ILLINOIS CENTRAL RAILROAD COMPANY, NEW YORK, Dec. 15, 1874.

A DIVIDEND OF FOUR PER CENT. HAS BEEN declared by this Company, payable on the 1st day of February next, to the holders of full paid shares registered at the close of the 15th day of January next, after which, and until the 5th day of February, the transfer books will be closed.

L. V. F. RANDOLPH, Assistant Treasurer.

THE LAKE SHORE AND MICHIGAN SOUTHERN RAILWAY CO., TREASURER'S OFFICE,
NEW YORK, Dec. 29, 1874.

THE BOARD OF DIRECTORS OF THIS COMPANY have this day declared a Dividend of Three and One-quarter per cent upon its capital stock, payable on the 1st day of February next, at the Union Trust Company of New York.

The transfer books will be closed at the close of business on Saturday, the 9th day of January next, and be reopened on the morning of Tuesday, the 2d day of February next.

E. D. WORCESTER, Treasurer.

POPULAR LOAN.

The Great Southern Railway Co.

(CONSOLIDATED)

UNDER CONSTRUCTION IN

GEORGIA & FLORIDA,

OFFER FOR SALE ITS

First Mortgage Land Grant and Premium Bonds.

Payment Secured by First Lien on 500 Miles of Railway, Equipment, Franchises, Steamers,

and

6,400,000 Acres

of selected Yellow Pine, Cedar, Live Oak, Cotton, Sugar, and other valuable Agricultural Lands. Also a Sinking Fund from Earnings of the Road.

Bonds Redeemed, with Premium, Six times in each year, beginning January, 1875.

Every Bond, when Redeemed, must receive a Premium from $1.00 to $50,000, besides the Original cost of the Bond.

The Company will receive the Bonds at par in payment for Land and for transportation of passengers and freight over its line.

The Great Southern Railway Company is incorporated by the Legislatures of Georgia and Florida. It is designed to connect the Railway system of the United States with Cuba and the other West India Islands, Southern Mexico, and Central America, the Panama Railway and South America. It is a direct, immediate, *and the only possible railway line*, stretching four hundred miles South of any other railroad, *between the temperate zone and the tropics of America*, between **50,000,000** people in the United States and Canada, and **40,000,000** in the West Indies, Central and South America.

It will reduce the water transportation between the Railroad system of the United States and Cuba **to a run of only Five Hours by Steamship**, *and to Southern Mexico, Central America and South America it will shorten the line* **Sixteen Hundred Miles** *over the route now generally traversed.*

In a Political and Military point of view, the importance of this line to the United States can hardly be overestimated.

In the transportation of **U. S. Mails, Express and Fast Freights, Military Stores and Supplies, Sea Island Cotton, Tropical Fruits, Market Gardening,** &c., it will do a larger business for the length of its line than any railway in the United States.

It will be a Commercial and Political bond of peace and amity between the people of North and South America.

HON. THOMAS W. OSBORN, *President.*
JAMES W. JOHNSON, *Treasurer.*
WM. F. WHEELER, *Secretary.*

☞Orders for Bonds, and for Circulars, Maps, etc., apply to

EMIL HAAS & CO., FINANCIAL AGENTS,
71 Broadway, New York.

Baltimore and Potomac Railroad.

A special meeting of the directors of the Baltimore and Potomac Railroad Company was held in Baltimore on the 14th inst., at which the changes in officials to manage the road, heretofore announced, were formally indorsed. A. J. Cassatt was elected vice president, Frank Thomson general manager, and George C. Wilkins superintendent. This action brings the road under the system of management of the Pennsylvania Railroad lines. J. N. Du Barry, the retiring vice president, goes to Philadelphia to assume control of the southern bureau of the Pennsylvania Railroad. He became connected with the Northern Central Railroad in 1861. E. L. Du Barry, retiring superintendent of the Potomac Railroad, becomes superintendent of the Frederick and Pennsylvania Line Railroad. George C. Wilkins assumes the position of superintendent of the Northern Central and Potomac Railroads from Harrisburg to Quentico.

Finances of Nevada.

Gov. Bradley, in his message, says that the money on hand in the State Treasury December 31, 1874, amounted to $488,356 28; outstanding warrants, $45,284 27; currency, $29,283 11; School Fund outstanding warrants, $10 22; coin securities in the Treasury, $360,000. Total debt of the State, $660,000. The real assets are the funds in the General Fund, and are, net, $304,398 10. After subtracting all assets from the liabilities the net indebtedness of the State is $188,164 33. If, however, the State bonds in the School Fund, $104,000 in amount, are a proper subject for deduction, in that case the debt will stand at $84,164 33. The real and personal property assessed for taxation declined in value since 1873 $236,226 02, but the increase in 1873 over 1872 was $3,987,359 92. The climatic and other causes for these showings are set forth, the falling off in revenue being attributed to the diminished bullion yield in eastern Nevada. The school fund amounts to $250,000.

Baltimore City Passenger Railway.

At the annual meeting of the stockholders of this company, held in Baltimore on the 13th inst., the following board of directors was elected, viz: Enoch Pratt, Oden Bowie, John Bolgiano, Alfred Jenkins, G. D. Clark, Thomas Wilson and Chas. E. Savage. At a subsequent meeting of the directors Oden Bowie was re elected President, and R. C. Smith Secretary and Treasurer. The report of the president and directors of operations for the past year shows total gross receipts $605,751, against $636,258 for 1873, a decrease of $30,507. The general expenses in 1874 were $407,255, and in 1873 $444,816, a decrease in general expenses of $37,561. There was a decrease in the number of passengers carried of 926,299 from the number carried in 1873. This decrease of passenger traffic is attributed solely to the general business stagnation of the year. Having secured a reduction of the park tax from 20 to 12 per cent on gross receipts, the report asks the further reduction of 2 per cent, making the tax 10 per cent on gross receipts, as originally asked.

☞ At a meeting of the stockholders of the Utah Southern Railroad on the 16th inst., Brigham Young, William Jennings, John Sharp, Feramore Little, and W. H. Hooper were elected Directors. The road is completed to Payson.

Industrial Affairs.

The Harrisburg Car Works have received another contract for the building of cars which will keep about 300 men employed until April.

The Wason Car Manufacturing Company, Springfield, Mass., are full of orders, employing about four hundred men.

Both the Youngstown and Enterprise rolling mills in Mahoning county, are running full tilt and double turn.

The Granite Hame Works at Sunapee, N. H., after a short suspension have started up and are now in full blast.

At Putnam, Ct., all the mills are running full time, with generally a slight reduction of wages in the cotton mills.

At Danville, Penn., all the iron mills and furnaces are in full blast for the first time for eight months.

Thirteen hundred men connected with the works of the Messrs. Burden, Troy, N. Y., have signified their willingness to resume work under the reduction, and about three hundred have decided to work in the mills of Corning & Co.

Texas has one blast furnace in operation and one in process of construction.

☞ The Washington Chronicle says that the District committee of the House have had under consideration for some days the memorial of the citizens of Washington, asking that an act be passed to allow them to direct, by an election of the people, the authorities of the District to divert to the Southern Maryland Railroad the amount of the subscription authorized and directed to be made to the Piedmont and Potomac Railroad, by an act of the Legislative Assembly of the District of Columbia, approved 19th August, 1871, and ratified and confirmed by an act of Congress, approved 23d May, 1872; the said Piedmont and Potomac Railroad Company not having availed itself of the provisions of said acts. This memorial is signed by the largest number of responsible citizens that have ever attached their names to any petition from this District to Congress, on any matter whatsoever.

☞ Wm. McGilvery of Searsport, Me., has been elected President, F. O. Hickborn, of Stockton, Secretary, and F. A. Snow, of Winterport, Treasurer of the Penobscot Bay and River Railroad Company. A meeting of the directors will held at Belfast, Me., in a few days, when Gen. Ledlie, the contractor, will be present, and arrangements will be made for commencing work on the road early next spring. An extension of the charter for five years has just been asked and will be granted by the Legislature.

☞ Gov. Jacob, of West Virginia, in his message congratulates the State upon the healthy condition of her finances, and says all demands upon the treasury have been met, with a balance in the treasury of $282,000. He recognizes the liability of West Virginia for her pro rata of the Virginia State debt up to the time of the creation of the State.

☞ Gov. Stearns, of Florida, in his annual message, says that the State is prosperous, peaceful and patriotic, that the debt has been reduced $21,000, and that the total debt of the State is $1,599,478 72.

☞ The stockholders of the Citizens' Passenger Railway Company of Baltimore have elected James S. Hagerty president.

☞ A horse railroad from Georgetown, D. C. to Tennallytown is proposed.

New York, Saturday, January 30, 1875.

Can Congress Relieve the Prevailing Industrial Distress?

If the gentlemen who have been chosen to express the popular voice in Congress will rise to the true dignity of their duty, they will not leave for their homes, until they have done their utmost to relieve the wide-spread distress and apprehension which now afflicts the mass of their countrymen.

What, then, can Congress do? We entertain no superstitious reverence of the potency or efficiency of mere legislative enactments; but, as we have shown, governments are instituted among men for the purpose of achieving certain desirable ends which they cannot, without that co-operation, secure for themselves. It is in the power of the nation collectively to accomplish that which the individuals or classes, with their clashing, inconsequent efforts, fail to do for one another. Among the most pressing needs of the time, or of any time, is the want of some external impetus which shall set the wheels of industry in motion, start the unemployed at work, banish the fear of bankruptcy, and restore trade and manufactures to their wonted, their natural, activity. Here is the capital; here are the laborers and machinery; but the capitalist is timorous; the laborer is needy and hopeless, while the machinery is subject to constant depreciation and loss. The longer this state of things exists the more desperate become the laboring classes, and the more timid the hoarders of capital. All classes are losing by the stoppage; and the very safeguards of property possession are menaced by its continuance.

If assurances were received from abroad that London capitalists had engaged to advance, within the year, a hundred millions of dollars to any of our industrial interests which consume the product of labor, an improvement would be felt within thirty days in the accommodations of the banks of this whole country; and in six months, it is safe to say, laborers would be in demand, trade would improve, debts would be paid, mortgages lifted, and, gathering impetus as it spread, the wave of encouragement would carry prosperity and happiness to all classes. With the first announcement a hundred negotiations, which now hang doubtfully in the balance, would be closed; thenceforward an appeal to the hopeful, healthful side of human-nature, and trade-nature, would go forth.

But there is no need to go abroad for aid. We have all the needed elements among us except confidence. Private credit, reflecting this condition of confidence, is impaired. The national credit, however, never was better; it has passed its greatest strain, while private, and even corporate, credit has scarcely emerged from the extraordinary pressure. The Nation is young, and grows by every stroke of labor. In a time of profound, victorious peace, unharmed of the elements, this is the opportunity and the occasion for inaugurating those great works of constructive enterprise which add to the glory and strength of the country, and minister to the wants of its people; but which are, at the same time, too huge for the unassisted energies of private parties.

Among the few grand functions of a popular government, is that of contributing to the betterment of the condition of its population. Let it never be a reproach to republican government, that only despots can alleviate the condition of their starving masses by putting them at work. If this be not a proper mission of government, to what end are forts built, ships manned, and light houses erected on our coasts; why are our harbors surveyed, our rivers dredged; why else, should government assume to itself the coining of money, the distribution of our letters and newspapers, or bestow seeds to its citizens, and provisions to the famished and plague stricken both at home and abroad?

Like the blood in the human body, a constant movement of money and credits must be kept up in the social organism. If there be stagnation, or congestion, the dissolution hastens; but if the life-giving current can be set in motion it finds its way from the centres to the capillaries, and begins its way back again in a ceaseless round of reciprocal circulation. That stimulus it is now in the power of Congress to impart. This is the time; and delay only increases the ravage and the difficulty. This opportunity lost, the responsibility will be placed on those now entrusted with the management of affairs; but its correction and redemption will belong to their successors.

We do not see why there should be any tenderness or hesitancy in doing a good, honorable, manly action in an upright and manly way. No excuse is needed for advocating such a blessing to the community. The mere fact that some trifling or incidental benefit may inure to a few persons should not be allowed to thwart or impede the good of the masses. We urge, therefore, that before adjourning, Congress shall select from the struggling enterprises of merit, the completion of which shall redound to the public benefit, and offer to the owners thereof the loan of its credit, with the condition that it be expended in proper works, and that it be repaid within the period of a generation.

Three hundred millions borrowed of capitalists, (who would lend with alacrity to the government) at a low rate of interest, and re-loaned to energetic parties, would, in the filip it would give to industry, result in a gain of three hundred millions in the net products of the country in a single year. In the course of a generation its accumulated difference would amount to three thousand mil-

lions—and still the whole sum could be returned to the public treasury so that not a dollar be lost; but contrariwise, the taxable property of the people, and their ability to meet the expenses of their government, would be expanded and multiplied immensely. Perhaps a hundred millions so borrowed would suffice for the purpose; but three hundred are not too much for a young nation like this to expend for the improvement of her peaceful pursuits.

What particular enterprises most need this aid is hardly a question for debate. The officials can scarcely go amiss in their selection; and in case of doubt it would be better to include the doubtful candidate rather than to exclude it; for should the Pacific Railroads, and the water routes, all be included in the scheme of government aid, the more effectual would be the relief which is now expected of our public men assembled in Washington.

Peach Bottom Railway.

The Hartford Ægis, published at Belair, Maryland, gives an account of the annual meeting of the Peach Bottom Narrow Gauge Railway, when S. G. Boyd was elected president and Wm. Wallace secretary, and says:

The annual report states that the business of the road has been satisfactory, and its affairs are in a prosperous condition. The road is narrow gauge, and is intended to run between Oxford and York, Pennsylvania. A portion is completed and the cars running from each end. The western division is thirty nine miles in length, and extends from York to Peach Bottom. On this portion of the road the cars are running from York to the forks of Muddy creek, a distance of twenty three miles. Of the remaining portion of the western division fourteen miles are graded, and a force is now at work finishing the grading to Peach Bottom. It is expected that the whole road will be completed and the connection of the two divisions made at Peach Bottom by next fall. The net amount of profits of the western division for the month previous to the meeting was $1,500. The road is realizing enough to pay seven per cent. on its entire indebtedness. It is being built and equipped, it is stated, for less than $10,000 per mile. On the eastern division the cars are running for a distance of twelve miles from Oxford toward Peach Bottom.

The Fitchburg Railroad and the Hoosac Tunnel.

There has been much speculation and inquiry as to the early utilizing of the Hoosac Tunnel for freighting purposes, and we are able to day to speak definitely and by authority of what one railroad company is doing and proposes to do in this matter. For several days past a conference has been going on, through their representatives, between the Fitchburg Railroad Company, which, by its leases, now controls a line from Boston to a point near the eastern end of the tunnel, and the Troy and Boston Railroad Company, which runs from the western end of the tunnel westward. The conference terminated yesterday in a fixed arrangement of the two corporations and a practical union for certain purposes between them.

Under this arrangement the Fitchburg Railroad Co. contracts with the Troy and Boston Railroad to transport freight from Troy to the western tunnel terminus, and with Mr. N. C. Munson from the eastern tunnel terminus to Shelburne Falls—Mr. Munson being under contract to rebuild this portion of the Troy and Greenfield Railroad. The Fitchburg receives and delivers freight at this point, and the Company will at once arrange for two daily fast freight trains through the tunnel to the West.

In furtherance of this plan the two corporations are now arranging with the New York Central and the Michigan Central Railroads for terms and tariffs; and under the new arrangement it is expected that between eight hundred and a thousand new cars will be in use from the beginning.—*Boston Traveler.*

Boston and Albany Railroad.

The receipts and expenditures of this road for the financial years which terminated September 30, 1873 and 1874, have been as follows:

Receipts:	1873.	1874.
From passengers	$3,011,562 19	$3,015,376 86
" freight	6,221,183 26	5,283,599 21

Premiums on sale of bonds during year		36,251 50
Premium account commencement of year		226,785 59
Total surplus		$3,559,831 47

The auditor reports the amount of uncollected bills at all the stations, for business prior to October 1st, to be $36,331 44, of which $14,982 82 was for freight on hand; the balance, $21,348 62, has been most of it outstanding several years, $10,810 95 will be collected, leaving $10,587 67 worthless. The president in his report says:

In giving you an account of our acts and doings for 1873, we observed, "that the year had been marked by unusual activity, both in the regular operations of the road, and in prosecuting works of permanent improvement."

The past year has been no less marked by the sudden and unprecedented depression in the general business of the corporation. Had this depression shown itself in the business of our company alone, we should have been inexcusable not to have discovered and applied before to-day some adequate remedy; but the disease is too firmly seated and too epidemic in character to admit of mere temporizing or superficial treatment. Commencing in one of the wildest panics ever known, it spread rapidly in all directions, fastening itself with greater or less tenacity upon every industry in the land. More than a year has now elapsed since the disorder first came to the surface, and yet, through an apparent want of courage in probing deep to its roots, we find to-day nearly every material interest in the country weakened, and not a few utterly paralyzed, by its wasting influence. During the greater portion of this time, money has been abundant, and, except on time contracts, at exceptionally low rates of interest; yet, for the want of a fixed and permanent measure, by which the value of labor and capital can be adjusted and equalized, both have, to a considerable extent, become unproductive. Nothing, in our judgment, will now tend so much to restore the confidence of business men, and impart a healthy tone to the languishing industries of the country, as an unequivocal pledge of Government that our currency shall be elevated to the standard of gold at the earliest practicable moment.

The permanent improvements which were in progress at the commencement of the year, have been carried forward to this time, with such economy as the changed condition of things justified, and our property and facilities for business are now so ample that comparatively small outlays will be required in the immediate future. Taking advantage of the great reduction in the price of steel rails, we have laid in our main track during the past year about 13,000 tons; 10,000 tons more will give us steel in both main tracks from Boston to Albany; and it is submitted that the favorable rate at which steel can now be had should be taken advantage of to complete this work.

We have steadily prosecuted the work upon our depot at Worcester, the elevator at East Boston and the new track and roadway at Russell; and have also built, since making our last report, about 800 feet of iron bridges. It may be desirable to replace during the coming season some 400 feet of wooden bridges with iron; and whenever business shall again revive, the work of substituting stone or iron for wood should be carried forward until none but permanent and indestructible structures shall be found upon our road. By the addition of new locomotives and cars, we have more than made good all depreciation in that department.

The filling of the flats on the back bay, bought of Nathan Matthews, has been completed, and the side tracks for switching and making up trains built thereon, are now in daily use. That portion of the land lying on the north side of our main track, containing about 550,000 square feet, it is believed, will, at no distant day, afford a most eligible and central site for a passenger depot. Very little has been done on the flats at South Boston. We have, however, entered into a contract with the State, the city of Boston, and the Boston Wharf Company, by which these flats will be connected with the business portion of the city by new streets, and two substantial bridges over Fort Point Channel. The manner in which we shall reach these flats with our tracks is as yet undetermined. A company has been formed for the purpose of connecting them with the roads on the south and west sides of the city, and if this enterprise is carried to completion, it is believed that by means of their road we may reach our property at that point with advantage to ourselves and to the new company.

By a compromise with the city authorities of Springfield, an arrangement has been entered into, by which Chestnut street has been carried under the railroad. To accomplish this result, a slight elevation of our track has been made at Chestnut street, and as soon as the season will permit, the same elevation will be made at Main street, preserving substantially the same grade as heretofore between the two streets. Changes and alterations in the depot are also being made which will materially improve the accommodations at that point. While the present solution of this long agitated question will afford considerable relief, we cannot but regret that the evil was not wholly eradicated by separating the grade of the highway and railroad at the Main as well as the Chestnut street crossing.

The falling off in our business and receipts the last year, and a comparison of the same with former years may be seen by refering to tables A, B and C. You will there find that while the gross receipts for freight have fallen below those of 1872 and 3, there has been a slight gain in passenger receipts over any former year, and that the gross receipts for the year exceed those of 1871 by $1,000,785 47. How much further the business of the corporation may be reduced, it is impossible now to determine; but should it fall,

even to the receipts of 1871, we should then have a larger per cent of gross earnings to the cost of our road than is realized by most other first class railroads in the country. But we anticipate no such reduction. When we look at the superior condition of our roadway, the increased number and character of our locomotives and cars, and our enlarged capacity for handling and storing grain and other agricultural products, we are confident that the time is near when our business will not only equal but exceed that of 1873.

There arises, furthermore, at this point, another element to insure the future of our Massachusetts roads. Prompted by the matchless energy of Commodore Vanderbilt, the New York Central road has laid four tracks of steel rails from Lake Erie to the waters of the Hudson, by which Boston, as well as New York is assured of a route to the West, cheaper, more certain and expeditious than any that has yet been built or projected, and in this connection we are constrained to say, that the New York Central Road, under its present management, has contributed to the prosperity of Massachusetts and the city of Boston in a measure that is greatly underrated. Having all proper regard for its own business to the seaboard, it has always given a ready and generous co-operation to every movement made in the direction of increased traffic, to Boston. Its roadway from Albany to Buffalo is, to day, the most ample and perfect of any in the world, and every dollar expended upon it is a contribution to the business facilities of Boston as well as New York. The re establishment of the Cunard line of steamships, at East Boston, is due more to the active efforts of this and other connecting railroads, than to all other outside influences. But some one may say: this is not all to enure to the benefit of the Boston and Albany Railroad, since the Tunnel route will soon be in condition to divide with you the through Western traffic. This, to a limited extent, we admit, and we welcome them to the field, for, by their coming, we look for an element of reasonable conservatism rather than of profitless competition. The laborer is worthy of his hire, and when we shall become co-laborers, the efforts of both, we believe, will be better appreciated than ours have been in the past. Let the merchants and capitalists of Boston now turn their attention to the improvement of their facilities for receiving and distributing the products of the West, which the Boston and Albany and Tunnel routes will bring to their doors, and they shall reap a richer and more enduring harvest than can be realized by spending their own and the State's money in extending new roads over untried territory.

The necessities of the current year, to insure the completion of works now in progress and in contemplation and to meet $665,000 of Western railroad bonds falling due on the first of October next, can only be met by temporary loans, or by a further issue of bonds or stock. Besides the bonds above referred to, we have now outstanding $5,000,000 of 7 per cent 20 year bonds, and $103,000 Albany bonds due in 1876. For the payment of the latter, there is a sinking fund which, to day, exceeds the bonds by about $30,000. The 20 year bonds were issued under the general law of the Commonwealth, and in pursuance of your vote passed November 2, 1871.

Notwithstanding the present depressed state of commerce and manufactures, no careful observer can fail to see that with the natural growth of the country, further outlays will be constantly required to meet the necessities of future business. It is for us to anticipate rather than to wait the pressure of these necessities. In this view of the case, the future financial policy of this corporation becomes a question of the first importance. For our opinion upon this point, we beg to refer to our report for the year 1871. We have seen nothing to change, but much to confirm the views therein given. If the option may not be accorded us of going to our stockholders for the money required to protect and develop their property, it is submitted whether we should not obtain authority to bond our road by a long loan, in a sum sufficient to consolidate all outstanding obligations and protect the future against the necessity of a resort to temporary measures.

The company have 61 passenger and 177 freight locomotives; 166 passenger, 47 baggage and postal, 4,562 merchandise, and 509 other cars. Also, 98-284ths of 55 passenger, 3 express, 5 post office, and 10 baggage cars of the New York and Boston Express Line.

The number of miles run by locomotives with passenger trains, was 1,378,018; with freight trains, 3,606,159; with gravel trains, etc., 85,613—total, 5,069,790.

The number of through passengers carried, was 77,073; way do. 5,812,309—total, 5,889,382. Number of passengers carried one mile, 122,063,286.

The total number of tons moved was 2,668,403, of which 676,031 went west, and 1,992,372 east. The through tonnage westward amounted to 102,636; do. eastward, 602,144. All other tonnage westward, 573,395; do. eastward, 1,390,228. Equivalent number tons carried one mile, 290,672,369—equal to 1,453,362 tons carried over the whole road.

An aggregate of 412,735,655 passengers or tons of freight carried one mile in 1874, against 488,333,412 passengers or tons of freight carried one mile in 1873.

The cost of transportation of each passenger and each ton of freight one mile this year has been 1.614 cents, against 1.725 cents in 1873.

BALANCE SHEET, September 30, 1874.

Cost of road		$23,285,640 37
Cost of equipment		4,453,045 78
Cost of South Boston property		442,722 73
Hudson River bridges		475,485 00
Notes receivable		86,833 41
Materials		1,627,151 44

Assistant Sup't.—WALTER H. BARNES, Boston.

Assistant Superintendent.—J. B. CHAPIN, Albany.

Treasurer.—C. E. STEVENS, Boston.

Cheap Passenger Trains.

The Massachusetts Railway Commissioners, in their annual report, dwell at some length upon the decided success of the workingmen's trains on the Eastern Railroad, which have been run morning and evening between Boston and Lynn at five cents fare. They say "that the growth of travel on these trains for the present year over that of the last has averaged 42 per cent., being highest (101 per cent.) in January, and least (20 per cent.) in May. As the tickets for this train are sold only in slips of twenty each, and as no money is received on the cars, the regular fares being exacted, each passenger represents a five cent fare to the road. The receipts of the company from this source throughout the year averaged therefore, $19 28 per trip. According to the returns of the Eastern Railroad, the average cost of running a passenger train is $1.088 per mile, or $14 14 for the trip from Boston to Lynn. It would therefore appear that during its second year the cheap train not only paid its expenses, but earned a net profit at the rate of $5 14 per trip, or 39.5 cents per mile run.

"The average net earnings of passenger trains on the same road during the year were 48.4 cents per train mile, showing that the cheap five cent train was only 18 per cent. less profitable than the average passenger train. As compared with the previous year, the regular passenger earnings of the Eastern road increased 30.4 per cent as respects the gross receipts and 107.7 per cent. as respects net receipts, whereas the increase in the gross receipts of the cheap train was 42 per cent., while the net loss of 15 per cent. on cost of operation in 1872-3 was converted into a net profit of 51 per cent. in 1873-4. During the former period the earnings of the cheap train were 15 per cent. of the entire passenger receipts of the Saugus Branch, and during the latter period they were 18 per cent. If the rate of progress which has hitherto been maintained is continued, the indications are that in another year the Eastern Railroad workingmen's trains will be found to be among the most remunerative per mile run which leave the city of Boston."

New York Elevated Railroad.

The directors of the New York Elevated Railroad, recently elected, are: Milton Courtright, John F. Tracy, W. L. Scott, James A. Cowing, A. S. Barnes, David Dows, F. H. Tows, William L. Wallace, A. H. Barney, John H. Hall, Daniel Terrance, Harvey Kennedy and John D. Mairs. Milton Courtright was re-elected President, and James A. Cowing Secretary and Treasurer. The company has several gangs of men at work, strengthening and improving the present structure. A number of "Turnouts" are also being put in at proper distances along the track, so as to reach every station on the route every ten minutes. It is also preparing for the immediate extension of the road to Central Park at 59th Street.

Electric Railway Whistles.

The French have lately introduced a system by which a stationary electric battery is made subservient to blow the whistle of an approaching locomotive, in case the road is not clear, without the engineer having to give any attention to it. Such an arrangement is, of course, exceedingly valuable at night, and especially during a fog when signals cannot be seen at a distance. It is the reverse of the system introduced on the Hudson River Railroad, by which every approaching engine sets a stationary electro magnetic alarm bell at the depot in motion. In the French system referred to, the obstruction at the depot starts the steam whistle on every approaching locomotive when the train is still far enough away to slacken speed and stop. It has now been in uninterrupted operation on the line of the Northern company of France for time, and has been found practically successful in use, regularly informing the engineer whether the way is clear or not. The signal tender turns a disk and sends an electric current in the direction of the coming train to a bar placed between the rails; when the engine reaches the spot, a metal brush, placed between the wheels, sweeps the bar, the current passes to the engine, and, by means of an electro-magnet, presses upon a lever which opens the steam whistle, thus making it blow automatically. The rapidity with which the danger signal can be sent appears to be much in its favor.

"When and Where Scales were First Made."

A MATTER OF HISTORY.

It is known to but few that Philadelphia was first and foremost in this branch of mechanical arts. In the year 1822 Thomas Ellicott made the *first* platform Scale in the country with graduated Beam, for the Lehigh Navigation Co., for their Depot in Philadelphia. This was the commencement of the present "Philadelphia Scale Works," and was eight years previous to the starting of what is claimed to be "*the oldest scale works in the country.*" This is no doubt a surprise to the reader, but it is a fact which can be substantiated. In the year 1850 Mr. A. B. Davis, (the originator of the Philadelphia Scale Works) *made the first successful long Railroad Track Scale.* He put one in for the Columbia Railroad, then owned by the State, now the Great Pennsylvania Railroad, and one at Cressona, for the Philadelphia and Reading Railroad. These scales are still in use and giving satisfaction. A new feature was introduced in these scales, consisting of short main levers placed at right angles with sides of scales. This ingenious arrangement of levers (which has since proved a success) was unfortunately neglected to be patented by Mr. Davis, and has since been copied by Eastern co-temporaries. There have been many changes in the firms of this old establishment, caused by death, want of congeniality, &c., &c., which has stood very much in the way of its prosperity, permitting other concerns retaining their original name steadily to advance and get ahead, although starting many years after—the building up of a name being so essential to the progress of any business.

There is much credit due to Mr. A. B. Davis as the pioneer of the many useful inventions and improvements in scales now existing. For instance, what iron master does not appreciate the Furnace-charging Scale Patented by that gentleman, and now acknowledged to be the best in the market; also the First Power Lever Wagon Scale, (which we believe will eventually supersede the old style "swinging" scale); the Compound Parallel Crane Beam (since copied by other works;) and the Double Linked Beam (for net and tare)—are some of that gentleman's most valuable inventions.

The Messrs. Riehle Brothers, Proprietors of these Works, are manufacturing all the above scales with improvements, and have established themselves as the makers only of first class Scales and Testing Machines, employing skillful Mechanics and using the best material only; and have now on their list of references some of the largest Railroad, Coal and Iron Companies in the country. They have recently obtained Patents for improvements on Scales and were awarded Silver and Bronze medals for Scales and Beams at the late Fair of the Franklin Institute, Oct., 1874 (See their advertisement in another column of our paper.)

Erie Railway.

From the annual report of the Erie Railway Company, made to the State Engineer and Surveyor for the year ending September 30, 1874, we learn that the total amount of capital stock paid in at that date was $86,536,910, the total amount of funded debt $45,576 814, and the floating debt (consisting of loans and bills payable) $2,552,203—making the total amount of funded and floating debt $48,129,017, and the total amount of stock and debt $134,565,927. The amount of funded debt by last report was $37,917,142—showing an increase of $7,659,672. The floating debt by last report was $2,714,103—a decrease of $161,900. The average rate of interest on funded debt, currency, is 7 5-14 per cent.

COST OF ROAD AND EQUIPMENT.

	By last report as redistributed.*	By present report.
For telegraph	$12,666 52	$12,666 52
For graduation & masonry	2,751,789 93	3,651,150 06
For bridges	39,405 23	301,793 84
Superstructure, including iron	5,233,338 62	6,183,819 07
Pass'ger & freight stations, buildings & fixtures.	1,668,242 65	1,894,163 13
Engine and car houses, machine shops, machinery, and fixtures	1,912,598 26	1,967,892 05
Land, land damages, & fences.	712,226 61	843,957 08
Locomotives and fixtures, and snow plows	4,409,135 43	4,485,717 89
Passenger & baggage cars	1,284,386 50	1,284,482 29
Water transportation, New York Harbor	113,249 99	223,035 41
Freight and other cars	6,496,441 67	7,152,804 03
Pavonia & Twenty-third street ferries	688,917 19	689,464 82
Engineering and agencies	5,918 94	77,333 90
New York & Erie Railroad & Erie Railway and its franchises	86,301,799 72	86,307,620 78
Total cost of road equipment	$111,680,092 26	$115,075,900 87

* The amount charged to the account of "New York and Erie Railroad and Erie Railway and its franchises" was:

In the report for the fiscal year ending Sept. 30, 1873	$86,556,405 65
In the report for the fiscal year ending Sept, 30, 1872	86,296,899 72
Increase	$259,505 93

This increase is more properly distributed as follows:

Water transportation, New York Harbor	$113,249 99	
Land, land damages, and fences	135,437 00	
Engineering & agencies	5,918 94	
		254,605 93
Corrected increase		$4,900 00
Corrected amount, account of "New York and Erie Railroad and Erie Railway and franchises"		86,296,899 72
		$86,301,799 72

CHARACTERISTICS OF ROADS.

	Miles.
Length of main line in New Jersey	30.12
Length of main line in New York	386 83
Length of main line in Pennsylvania	42.05
Total first track of main line	459.00
Total second track of main line	266.75
Total side track of main line	182.08
Total third rail of main line	43.80
Total track of main line	929.73
Total first track of branches	500.00
Total second track of branches	39.60
Total side track of branches	133.21
Total third rail of branches	70.50
Total track of branches	708.06
Length of branches owned by the company	96.75
Length of branches leased by the company	342.75
Length of branches operated by the comp'ny	60.50
Total length of branches	500.00

DOINGS OF THE YEAR IN TRANSPORTATION.

Number of passengers (all classes) carried in cars	4,223,130
Number of miles traveled by passengers, or number of passengers carried one mile	160,204,125
Number of tons, of 2,000 pounds, of freight carried in cars	6,864,276
Total movement of freight, or number of tons carried one mile	1,047,420,268

RATES OF FARE.

The rates of fare for passengers, charged for the respective classes per mile, as follows:

	Cents.
For first class through passengers	2.032
For first class way passengers	2.755
For emigrant through passengers	1.197
For emigrant way passengers	1.587

The earnings of the road for the year ending September 30, 1874, were:

From passengers	$3,705,574 06
" freight	13,740,042 44
" other sources	1,153,282 26
	$18,598,898 76

Expenses, viz:

Maintaining the road.	$3,485,662 20	
Repairs of machinery	2,799,102 30	
Operating the road..	7,278,973 82	
		13,563,738 22
Earnings less expenses		$5,035,160 44

The above expenses are allotted as follows:

	To passenger transportation.	To freight transportat'n.
Maintaining the road.	$1,394,264 85	$2,091,897 35
Repairs of machinery	634,751 05	2,164,351 25
Operating the road...	1,975,770 45	5,303,208 37
Totals	$4,004,786 35	$9,558,951 97

RECEIPTS.

From passengers	$3,705,574 06
From freight	13,740,042 44
From other sources, viz:	
Mails	389,005 71
Express	526,487 83
Package and train service	83,522 81
Proportion of W. U. Telegraph receipts	31,673 83
Use of Bergen Tunnel	41,846 24
Storage, demurrage, &c	7,228 46
Train privilege, sale of papers, &c.	11,944 44
Northern R. R. of New Jersey	61,572 94

PAYMENTS, OTHER THAN FOR CONSTRUCTION.

For transportation expenses	$13,563 738 32
Interest on mortgage debt	2,799,805 64
Rental of leased lines	717,345 75
Guaranteed payments to Suspension Bridge and Erie Junction Railroad, in excess of 30 per cent of its earnings	56,977 98
Guaranteed payments to Paterson and Newark Railroad in excess of 35 per cent of its earnings	11,875 90
Proportion of loss operating Cin., Ham. and Dayton Railroad	61,625 65
Proportion of loss operating Pavonia Ferry	10,817 21
Proportion of loss operating horse railroad	18 529 24
Hire of cars	460,955 48
Interest other than on mortgage debt	165,807 00
Insurance	209,507 73
Taxes on Long Dock, Grand Opera House property, &c	101,619 22
Taxes, State of Pennsylvania	20,819 24
Taxes, State of New Jersey	29,208 29
Sundry claims, appertaining to past fiscal year, adjusted and settled.	143,313 75
Rents payable over rents receivable	78,158 63
Miscellaneous payments	134,658 12
Surplus	14,135 61
Total, as above	$18,598,898 76

Lehigh Valley Railroad.

At the annual meeting of the stockholders of this company held in Philadelphia on the 19th inst., the following board of directors was elected: Asa Packer, Charles Hartshorne, William W. Longstreth, J. Gillingham Fell, John Taylor Johnston, William H. Gatzmer, David Thomas, Ashbel Welch, Ario Pardee, William L. Conyngham, William A. Ingham, Joseph Wharton, George B. Markle. The report of Asa Packer, Esq., President, was read and adopted. From it we learn that its anthracite coal business for the year ending November 30, 1874, was 4,150,660 tons, against 4,144,340 tons to the same time in 1873, being an increase of 6,320 tons. In addition to this anthracite tonnage there was a bituminous tonnage of 26,622 tons, against 28,026 tons in 1873, a decrease of 1,404 tons. The total coal tonnage during the year was 4,177,282 tons, against 4,172 366 tons in 1873, giving a net increase of 4,916 tons.

The receipts from all sources, including interest from investments, net income from coal lands, etc., were $7,836,967; operating expenses of the road, $3,471,418; giving a net income of $3,865,548. While the receipts from all sources have fallen off $87,928, the operating expenses have been reduced $413,441, showing an increase of net income of $325,513 over that of 1873. The usual quarterly dividend of 2½ per cent (10 per cent per annum) have been paid. During the year the company negotiated five millions of sterling bonds, under a consolidated mortgage, and have disposed of $859,000 of the registered bonds due in 1923. The capital of the company at the close of its fiscal year was represented as follows:

Preferred and common stocks (including scrip instalments)		$24,505,447 59
Six per cent bonds (coupons and registered), due in 1898		5,000,000 00
Seven per cent registered bonds, due in 1910		6,000,000 00
Consolidated mortgage bonds:		
Sterling	$5,000,000 00	
Registered	859,000 00	
		5,859,000 00
Total		$41,364,447 59

Of floating debt, less cash on hand, the company has none. The length of the Lehigh Valley Railroad proper, from Easton to Wilkesbarre, is 101 miles, the whole distance being through a succession of regions of the best of anthracite coal lands, of which the company holds immense tracts, and which, sold at present market prices of such property, would realize more than sufficient to pay off the entire bonded debt of the company.

The company has acquired during the year a controlling interest in the Philadelphia Coal Company, which holds leases on very valuable tracts of the Girard lands in the Mahanoy basin, belonging to the city of Philadelphia. This company has three collieries in operation and others in process of erection.

The business of the Pennsylvania and New York Canal and Railroad Company, an extension of the Lehigh Valley, has progressed satisfactorily, and the line has been further improved and considerable additions have been made to its equipment.

The work on the Easton and Amboy Railroad has been continued, and much of the line is now ready to be used, and the whole will be opened for business as soon as the connection is made through Musconetcong Tunnel, which will probably be done in April next. About fifty miles of track are now laid, and the coal wharves at Perth Amboy will be ready for the shipment of all the coal that can be brought to them this year. The amount expended upon this work to the end of the fiscal year was $6,202,568 75. The officers of the company for the ensuing year are: President, Asa Packer; Vice President, Charles Hartshorne; Treasurer, Lloyd Chamberlain; Secretary, John R. Fanshawe; General Superintendent and Chief Engineer, Robert H. Sayre; Assistant Secretary, Israel W. Morris; Auditor, John B. Garrett.

Michigan Central Railroad.

The Treasurer submits to the President and Directors of the Michigan Central Railroad Company the condition of the Company on the first day of December, 1874, as follows:

The receipts of the main line and branches for the six months ending Nov. 30, 1874, were $3,624,569 95; the strictly operating expenses of the main line and branches for the same time were $2,288,375 26; the interest account for the same time amounted to $754,031 88, giving the net receipts $582,162 81, which is a little more than 3 per cent. upon the capital stock.

The business of the branch roads has improved during the last half year, and the balances against them are as follows: South Bend division $6,021,81; Joliet and Northern Indiana division $61,579 25; Grand River Valley division $17,155 38; Kalamazoo and South Haven division $12,101 51; Numica division $15,598 19; Jackson, Lansing and Saginaw division $50,815 14; total $163,271 28.

The bonded debt on the main line now amounts to: First mortgage loan, due in 1882, $556,000; first mortgage loan, sinking fund, due in 1882, $2,179,000; 7 per cent. consolidated loan, due in 1902, $8,000,000; total $10,735 000.

From this amount must be taken the bonds of this company in the sinking funds, $650,000, which will reduce it to $10,085 000; and the sum in the sinking funds (not including the $650,000 of the company's bonds) now amounting, at the par value of the securities therein, to $1,059,903 61, will still further reduce it.

The bonded debt of the leased roads, which have been assumed by this company, are as follows, all bearing 8 per cent. interest: Michigan Air Line, $1,900,000; Michigan Air Line, South Bend division, $200,000; Grand River Valley, $1,500,000; Kalamazoo and South Haven, $710,000; Jackson, Lansing and Saginaw, $4,253,000. This company has also indorsed the bonds of the Detroit and Bay City Railroad Company to amount of $424,000.

The capital stock stands as at last report, $18,738 204; construction account amounts to $27,210,167 07.

The floating debt, as per June report, was $1,056,452 77; it now amounts to $259,525 86, showing a decrease the last six months of $796,926 91.

The amount of the floating debt on the 31st of December was $98,288 53, having been reduced during the month $161,237 33.

IT WILL PAY

You to invest a few dollars in tickets in Public Library of Kentucky Concert and Drawing of

27th FEBRUARY.

POSITIVELY NO POSTPONEMENT.

A drawing on 27th, Or Money Refunded.

Whole Tickets $50. Halves $25. Tenth, or each Coupon $5. Eleven Whole Tickets, $500.

For Tickets, or information, address

THOS. E. BRAMLETTE, Agent and Manager, Louisville, Ky., or THOS. H. HAYS & CO., 609 Broadway, New York.

PUBLIC LIBRARY OF KENTUCKY.

Death of Gov. Bramlette—Action of the Trustees—A Successor appointed—No More Postponements—Drawing Certain February 27th.

At a meeting of the Trustees of the Public Library of Kentucky, Jan. 16, 1875, it was resolved that C. M. Briggs, Esq., who under the late Hon. Thos. E. Bramlette was the real business manager of the gift concerts already given in aid of the Public Library of Kentucky, be and he is hereby authorized to take the place made vacant by the death of said Bramlette, in the management of the affairs of the fifth and last gift concert, and that the drawing announced for February 27, 1875, shall positively and unequivocally take place on that day without any further postponement or delay on any account whatever.

R. T. DURRETT, Pres.
JOHN S. CAIN, Secretary.

Hereafter all communications relating to the 5th Concert should be addressed to the undersigned, and I pledge myself that the drawing shall come off February 27th or that every dollar paid for tickets shall be returned.

C. M. BRIGGS, Agent and Manager,
Room 4, Public Library Building,
Louisville, Ky.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

The asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "¶."

American Railroad Journal.

Saturday, January 30, 1875.

Financial and Commercial Affairs.

The Money market has been comparatively tame, and devoid of features of special interest. Though the city banks report a slight falling off in their net reserves, the supply of capital available in the open market to responsible borrowers has been largely in excess of the current requirements, and rates have been ruling low, with call loans quoted to the Street houses at 2@4; and best mercantile credits at 5@7 per cent per annum. The demand for aid from legitimate trade sources, has been quite moderate. The Spring business in produce and merchandise is not yet fairly opened, though some increase of activity is noted in the Dry Goods line. The Stock and Gold Board dealings are on a restricted scale, and do not call with much urgency for financial aid. The City Banks, in their last weekly statement reported a diminution in the specie board, and in the item of circulation, with an increase in the legal tender and deposit averages, as also in the loan and discount line. The United States Sub Treasury enlarged its specie balance quite liberally, and also augmented its currency reserve handsomely. The City banks last week enlarged their reserve of legal tender notes $1,558,700, and their deposit item $349,800, while reducing their specie average $2,505,200. They report an increase of $1,355,800 in the loans and discounts and a decrease of $135,400 in their circulation. The U. S. Sub Treasury in this city closed the week with a currency balance of $46,301,894, against $45,310,451, the preceding week; and a coin hoard of $45,851,978, against $44,166,664, on the previous return. The City bank exchanges during the week, were $499,493,417, or a daily average of $83,248,903. The customs revenue of the port, during the week, was $2,482,000. The City banks reported their average of gold last week at $20,985,200, and their greenback average at $56,830,600. Their deposits stood at $237,146,800. The loan item was $284,328,500. The circulation was $24,153,500.

The City Bank net reserve of specie and legal tender notes now shows an excess, over the legal requirement of reserve to liabilities, of $18,529,100.

The aggregate of the outstanding U. S. currency, of all denominations, Jan. 1, was $428,462,916. The outstanding amount of legal tender notes is 382 millions. The National bank circulation is now $347,087,000.

The U. S. Treasury balances on Wednesday were as follows: Currency, $8,824,195; special deposit of legal tenders for redemption of certificates of deposit, $47,755,000; coin, (including $27,683,500 in coin certificates,) $71,103,457.

The income of the Government, from internal revenues, thus far, in the fiscal year, commencing with July 1, 1874, has been over 64½ millions.

Gold has been rather less actively sought after on speculative account, though the customs drain has been on a more extensive scale, and the export movement also more liberal. Toward the close, much more spirit was manifested in the speculative dealings, and the market showed decidedly more buoyancy. The extremes of the week have been 112¼@113⅛, closing on Wednesday at 113⅛ as against 112¼ on Wednesday of the preceding week. The specie outflow last week was $3,682,662. The imports of specie at this port since Jan. 1, have been $114,144. The customs demand for Gold last week averaged $405,333 a day. Foreign Exchange has been moderately active but quoted less firm. Bankers' sixty day bills on London closed on Wednesday at $4 85⅛@$4 86⅛; sight bills on London at 4 89@$4 90 to the £ sterling. The week's exports of Domestic Produce have been to the currency value of $3,611,472.

The import entries of Foreign Merchandise at New York, including dry goods, amount for the past week to $6,079,348.

A fairly active business has been reported in Government Securities during the week at generally strong and buoyant prices. The investment purchases have been on a quite liberal scale.

U. S sixes of 1881 closed on Wednesday of this week at 119⅛@119⅜; U. S. Five-Twenties of 1862, at 115⅜@115⅝; U. S. Five-Twenties of 1864 at 117⅜@117⅝; U. S. Five-Twenties of 1865 119¼@119½; U. S. Five-Twenties of 1865 consolidated, 118⅜@118⅝; U. S. Five-Twenties of 1867, 119¼@119⅜; U. S. Five-Twenties of 1868, 119⅜@120; U. S. Ten-forties at 116¼@116½; U. S. Fives of 1881, (Funding Loan) 115¼@115½; Six per cent. currency Sixes from 119⅛@119¾.

There has been a moderately active business, in the speculative line, reported at the Stock Exchange during the week, with prices quoted irregular though toward the close somewhat steadier on Railway and miscellaneous share list. State and Railway bonds have been in fair request, and prices have been quoted steady in the leading instances.

General business has been without notable activity. The leading kinds of domestic produce have been held with a fair show of confidence, but the dealings have been on a comparatively moderate scale. Cotton has been the main exception, having been in brisk request and generally firmer. Trade in Groceries, Hardware, Hides, and Leather has been rather tame. Metals have been less sought after. Ingot Copper has been quoted lower. Iron has been quoted stronger, though quiet. Eglinton Pig Iron quoted from yard at $34@$35; Glengarnock, $36@$37; No. 1 American Pig at $26@$28; No. 2 do. at $24@$26; Forge, $22@$25; English Rails at $47 50@$50, gold; American Rails at works, $50@$52; Old Rails, $30. Wrought Scrap, $28@$33. Ocean freights have been moderately active closing more firmly.

At the monthly sale of Scranton Coal on Wednesday, 25,000 tons were disposed of at a shade lower prices, as a rule, the range having been from $4 75 $6 05 per ton of 2240 lbs.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

New York.—Central Pacific 1st mort., St. J. div., 85⅛; do. C. and O. div., 84; Western Pacific bonds, 86; Pacific R. R. 7s, guar. by Mo., 100⅛; South Pacific R. R. of Mo. 6s, 71; Pacific R. Cincinnati Municipal

7 3-10 PER CENT. BONDS.

A limited amount for sale by

KUHN, LOEB & CO.,

BANKERS,

No. 31 Nassau St, New York.

Northern Pacific Railroad.

In reply to an inquiry from a correspondent, the financial editor of the Philadelphia Ledger says :

The interest on the 7 30 bonds of the Northern Pacific Railroad Company was paid up to and including the coupon due July 1, 1873. On January 1, 1874, the company gave public notice that they would fund three of the then next succeeding coupons on the bonds into a five years' land grant 7 per cent bond. During the past year the three coupons on about six millions of bonds have been funded, and the first interest on these five years' bonds was due on the 1st instant, and paid. The company is now getting up a new funding scheme, though of what purport we are not advised, to present to the bondholders. A good many bonds, we understand, are going into lands, which are receivable at 110 on the par value of the bonds.

The Coal Trade.

The entire shipments of anthracite coal for the week ending January 16, are stated by the Philadelphia *Ledger* at 75,896 tons, and for the year at 902,680 tons, against 946,408 tons to corresponding time last year, showing a decrease of 43,728 tons. The bituminous coal tonnage for the week was 38,757 tons, and for the year 58,456 tons, making a total of all kinds for the week of 114,653 tons, and for the year 961,166 tons, against 1,015,403 tons, a decrease for the coal year of 54,237 tons. At Port Richmond for the week ending the 23d instant the receipts of coal were none and the shipments 2,500 tons, leaving 126,500 tons on hand.

☞ The Boston committee which has been examing the Poughkeepsie route after visiting the terminus of the Boston, Hartford and Erie Railroad at Dutchess Junction, proceeded by a special train to Warwick, on the Erie. At a reception there speeches were made by Mr. Homer Ramsdell of the Erie Railway, and Grinnell Burt, President of the Warwick Valley Railroad, advocating the building of the Pequest and Wallkill road, connecting with roads from the Pennsylvania coal mines to the establishment of a connection at Newburgh by boat.

☞ The earnings of the Philadelphia and Erie Railroad for the month of December, 1874, were $298,405 90, the expenses $133,981 03, and the net proceeds $164,424 87, against $61,155 83 in December, 1873, an increase of $103,269 04. For the year 1874 the gross earnings were $3,506,919 28, the expenses $2,438,133 01, and the net proceeds $1,068,786 27, against $428,753 36 for the year 1873, an increase of $640,029 91.

☞ The attention of our readers is invited to the Advertisement of the New York Elevated Railroad Company in another column of this paper.

THE NEW YORK ELEVATED RAILROAD COMPANY,
OFFICE, No. 7 BROADWAY,
NEW YORK, Jan. 25, 1875.

NOTICE.

SEALED PROPOSALS WILL BE RECEIVED by the undersigned at this office until Monday, Feb. 8, 1875, at 12 o'clock M., for all or any part of Five Hundred Thousand Dollars ($500,000,) of the first mortgage convertible 7 per cent. Bonds of this company, in sums of $1 000 or any multiple thereof.

Terms of payment—5 per cent. of the amount bid to accompany proposals, for which certified checks may be inclosed, which will be returned to bidders Feb. 8, unless the bid is accepted; 20 per cent. Feb. 15; 25 per cent. March 1; 25 per cent. March 15; and the remaining 25 per cent. April 1 next.

The company reserve the right to accept such bids as it deems for its best interest.

For further information apply at the office.

M. COURTRIGHT, President.

Southern Pacific Railroad.

At this time the railroad would have been complete and in running order twenty one miles in advance of the Bakersfield depot but for want of iron. This is now going forward. Eight truck loads went forward Tuesday, and we learn that several lots have passed since, so that but little time will elapse before the rails will be laid to the distance referred to. No permanent stopping place, however, will be made there—only such temporary arrangements as may be necessary for the accommodation of the Inyo trade. The permanent depot will be three miles further on. Intervening some deep cuts are to be made. This will be mainly for the accommodation of the Havilah, Kernville, the South Fork and the contiguous mining region. About twenty miles more will bring the road to the summit of Tehachepi, after which, if it is deemed advisable to tap the great mining region beyond more effectually, there are only the difficulties of a nearly level plain to contend with. The great bar to its development has hitherto been the necessity of freighting by way of Los Angeles, and it is a terrible incubus now. This will be removed in a few weeks and the mines made of comparatively easy access, and within a year they will be just as accessible, as soon as the road surmounts the summit, as any part of the State. The good time coming is eagerly looked for by the people of Kern and Inyo counties.—*Bakersfield (Cal.) Courier.*

☞ Messrs. KUHN, LOEB & Co., Bankers, 31 Nassau st., New York, have for sale a limited amount of Cincinnati Municipal 7 3 10 per cent bonds. They are coupon bonds of $1,000 and $500 each, interest payable January 1 and July 1 in each year, at the American National Bank in New York. The bonds are redeemable in 1902. The faith and credit of the city of Cincinnati is pledged for the payment of the principal and interest of these bonds, and the city government is required by law, annually, to levy a tax sufficient to pay the interest and provide a sinking fund for the final redemption of the bonds.

☞ The directors of the Eighth Avenue Railroad company, recently chosen, are: George Law, George Law, Jr., William H. Hays, Jacob Hays, James Murphy, Joseph H. Godwin, Timothy Townsend, Jesse A. Marshall, Chauncey A. Waterbury, Frederick E. Mather, Stephen H. Herriman, James Affleck, Francisco Bianchi.

☞ The Bleecker Street and Fulton Ferry Railroad company have elected the following board of directors: Thurlow Weed, John T. Conover, Hugh Smith, David Jones, G. W. Griffith, William D. Shardlow, David James King, Thomas B. Kerr, William Richardson, James W. Ranney, M. D., Eugene S. Ballin, Elisha Brooks, Jacob Sharp.

☞ Adolphus Meier has been elected President; N. Schaeffer, Vice President; R. T. Burke, Secretary and Treasurer; W. H. McComas, General Superintendent of the Illinois and St. Louis Railroad company.

PROPOSALS.

LETTING NO. 12.

SEALED PROPOSALS WILL BE RECEIVED BY the Trustees of the Cincinnati Southern Railway, until MONDAY, February 1, 1875, at 12 o'clock noon, for 25,000 tons railroad iron, also for 22,000 tons steel rails.

Specifications can be had at 70 West Third street, Cincinnati, Ohio.

The Board reserves the right to reject any or all bids.

By order of the Board.

MILES GREENWOOD, Pres't.

THOS. D. LOVETT, Consulting Engineer.

PENNSYLVANIA RAILROAD COMPANY,
TREASURER'S DEPARTMENT,
PHILADELPHIA, January 11, 1875.

NOTICE IS HEREBY GIVEN THAT THE Bonds of the New Jersey Railroad and Transportation Company of the Loan for $300,000, due February 1, 1875, will be paid at par and accrued interest, on presentation on and after this date at the Agency of the Pennsylvania Railroad Company, No. 57 Broadway, New York, and that the Bonds of the Delaware and Raritan Canal, and Camden and Amboy Railroad and Transportation Co., of the Loan for $675,000, due April 1, 1875, will be paid at par and accrued interest, on presentation on and after this date, at the office of the Pennsylvania Railroad Company, No. 233 South Fourth street, Philadelphia.

BAYARD BUTLER,
Treasurer Pennsylvania Railroad Co.,
Lessee of the property of the United New Jersey Railroad and Canal Co.

OFFICE PENNSYLVANIA RAILROAD CO.,
PHILADELPHIA, January 11, 1875.

NOTICE IS HEREBY GIVEN THAT THE Pennsylvania Railroad Company will pay, upon presentation, before March 6, 1875, their Scrip issued for the dividend December 6, 1873, at par, and accrued interest thereon to date of presentation.

On the 6th of March, 1875, this Scrip will cease to bear interest, and the Company will pay all that may then be outstanding.

BAYARD BUTLER, Treasurer.

OFFICE OF THE ILLINOIS CENTRAL RAILROAD COMPANY, NEW YORK, Dec. 15, 1874.

A DIVIDEND OF FOUR PER CENT. HAS BEEN declared by this Company, payable on the 1st day of February next, to the holders of full paid shares registered at the close of the 15th day of January next, after which, and until the 5th day of February, the transfer books will be closed.

L. V. F. RANDOLPH, Assistant Treasurer.

THE LAKE SHORE AND MICHIGAN SOUTHERN RAILWAY CO., TREASURER'S OFFICE,
NEW YORK, Dec. 29, 1874.

THE BOARD OF DIRECTORS OF THIS COMPANY have this day declared a Dividend of Three and One-quarter per cent upon its capital stock payable on the 1st day of February next, at the Union Trust Company of New York.

The transfer books will be closed at the close of business on Saturday, the 9th day of January next, and be reopened on the morning of Tuesday, the 2d day of February next.

E. D. WORCESTER, Treasurer.

FISK & HATCH,

Bankers,

5 Nassau St., N. Y.

U. S. Government Bonds of all issues and denominations bought and sold direct at current market rates, in large or small amounts to suit all classes of investors and Institutions, and for immediate delivery; and all business connected with investments in Government Bonds, transfers of Registered Certificates, Exchange of Coupon Bonds for Registered, Collection of interest, &c., attended to on favorable terms.

All other marketable Stocks and Bonds bought and sold on Commission; Gold Coupons and American and foreign Coin bought and sold; approved deposit accounts received.

FISK & HATCH.

A Foreign Financial Plan AMERICANIZED.

Ten Dollar Bonds.

POPULAR LOAN.

The Great Southern Railway Co.

(CONSOLIDATED)

UNDER CONSTRUCTION IN

GEORGIA & FLORIDA,

OFFER FOR SALE ITS

First Mortgage Land Grant and Premium Bonds.

Payment Secured by First Lien on 500 Miles of Railway, Equipment, Franchises, Steamers,

and

6,400,000 Acres

of selected Yellow Pine, Cedar, Live Oak, Cotton, Sugar, and other valuable Agricultural Lands. Also a Sinking Fund from Earnings of the Road.

Bonds Redeemed, with Premium, Six times in each year, beginning January, 1875.

Every Bond, when Redeemed, must receive a Premium from $1.00 to $50,000, besides the Original cost of the Bond.

The Company will receive the Bonds at par in payment for Land and for transportation of passengers and freight over its line.

The Great Southern Railway Company is incorporated by the Legislatures of Georgia and Florida. It is designed to connect the Railway system of the United States with Cuba and the other West India Islands, Southern Mexico, and Central America, the Panama Railway and South America. It is a direct, immediate, *and the only possible railway line*, stretching four hundred miles South of any other railroad, *between the temperate zone and the tropics of America*, between 50,000,000 people in the United States and Canada, and 40,000,000 in the West Indies, Central and South America.

It will reduce the water transportation between the Railroad system of the United States and Cuba **to a run of only Five Hours by Steamship,** *and to Southern Mexico, Central America and South America it will shorten the line* **Sixteen Hundred Miles** *over the route now generally traversed.*

In a Political and Military point of view, the importance of this line to the United States can hardly be overestimated.

In the transportation of **U. S. Mails, Express and Fast Freights, Military Stores and Supplies, Sea Island Cotton, Tropical Fruits, Market Gardening,** *&c.*, it will do a larger business for the length of its line than any railway in the United States.

It will be a Commercial and Political bond of peace and amity between the people of North and South America.

HON. THOMAS W. OSBORN, *President.*
JAMES W. JOHNSON, *Treasurer.*
WM. F. WHEELER, *Secretary.*

☞ Orders for Bonds, and for Circulars, Maps, etc., apply to

EMIL HAAS & CO., FINANCIAL AGENTS,
71 Broadway, New York.

Finances of Maine.

From the Report of S. C. Hatch, Esq., State Treasurer, we learn that the receipts during the year ending December 31, 1874, were $1,423,473 70; which, added to the amount on hand at the commencement of the year, ($436,430 68,) makes the total receipts $1,859,904 38. The disbursements during the same time were $1,537,718 54, leaving a balance at the close of the year of $322,185 84. The state tax having been reduced from 5½ to 5 mills on the dollar, the income from direct taxation in 1874 was largely reduced, while the expenditures authorized by the Legislature exceeded those of 1873 by the sum of $175,264 77; yet the Treasurer has experienced no difficulty in meeting the demands upon the Treasury, and has not been obliged to avail himself of any portion of the temporary loan authorized by the last Legislature.

The aggregate liabilities of the state, including all trust and school funds, amounted to $9,959,692 25. The total bonded indebtedness of the State December 31, 1874, was $7,088,400; or, deducting the amount of the sinking funds, ($1,514,022) an actual indebtedness of $5,574,378.

The sinking funds, with the exception of $70,000 invested in U. S. 5 20s, are all invested in bonds of the State of Maine.

The State tax assessed and available for 1874 was $1,124,197 65, of which only $20,956 95 remained uncollected. Of the railroad tax, amounting to $105,059 23, only $13,820 40 had been paid. About $40,000 of the tax, when paid, will be placed to the credit of cities and towns in which shareholders reside—the balance goes to the State. The estimated receipts for 1875 are $1,753,201, and the estimated expenditures $1,557,560.

The Treasurer recommends that the State follow the example of other States, raising a portion of the revenue by taxing corporations; that he be allowed to invest the sinking funds in securities of other States, to avoid paying the premium ($968,250) paid the past year on Maine and Government bonds for said funds. He recommends that a tax on Savings Banks be made on deposits at the date of the annual return, instead of the average for the six months preceding, the tax to be paid within ten days instead of forty five, as now provided.

New Canadian Railways.

The North Shore Railway, which leaves Quebec, is intended to join the Northern Colonization line at Montreal, and from thence proceed to Aylmer, a distance of 283 miles. The first section of the road is 160 miles in length, with a branch from three rivers up the St. Maurice of 30 miles, the latter connecting with slack water navigation with an additional 70 miles.

The Northern Colonization Railway possesses two branches, one from St. Therese to St. Jerome, a distance of 14 miles; the other from St. Therese to St. Lid, a distance of 17 miles. These two branches are being pushed forward, and it is expected that the road will be in running order by October, 1875.

The North Shore Railway is expected to be opened for traffic in the autumn of 1876.

The Montreal and Laurentia Railway, which is progressing, is to be extended to Industry, and towards Rawdon.

The Phillipsburg, Farnham, and Yamaska is a line of 3 feet gauge, from the St. Lawrence, opposite Three Rivers through St. Hyacinthe, to Lake Champlain, a total distance of about 100 miles. It is believed that next season the road will be completed and open for traffic as far as Phillipsburg, a distance of 46 miles.

The Neutral Link is intended to join the present railway system of Ontario to the eastern terminus of the Pacific railway at Lake Nipissing. The Government of the Dominion offer a bonus of $12,000 per mile to the line, provided the various railways interested agree about using it in common, but they will only subsidize one road. After mature consideration it has been decided that the line which will best serve the interests of Ontario, to connect existing railways and those in course of construction with the Canadian Pacific Railway, will be a line to begin at Waubashne, or at the mouth of the River Severn, at such point as shal be found most convenient to unite the traffic of the Midland and the Hamilton and North Western railways, and connecting with the Georgian Bay, while the Northern Railway Company will be able to connect with this line by the extension of their road a short distance from Gravenhurst.

The Montreal and City of Ottawa Junction Rail way is a line leading into the Ottawa district from Coteau. The road will be about 80 miles in length. It will connect at Ottawa City with the Canada Central railway, and so on to Renfrew or Pembroke, where a junction will be effected with the proposed Government line of railway to the mouth of French River or Georgian Bay.

The first section of the Montreal, Sorel and Chambly Railway, from St. Lamberts to Chambly, is now open for traffic, and it is expected that the second section, in the direction of Farnham will soon be completed.

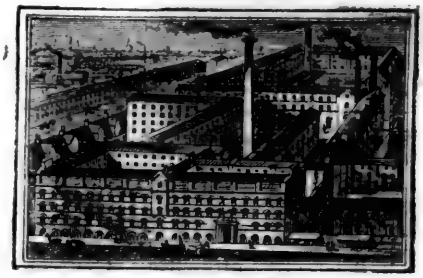
☞ Among the regulations adopted by the present management of the Erie Railway Company for the accommodation of their patrons, is the new arrangement concerning the stop-over check. Heretofore a person purchasing a ticket over the road had the privilege of stopping at intermediate places, for a specified time, the conductor indorsing the ticket, which was taken up by the next conductor to whom it was presented. The present arrangement consists of a stop-over check upon which is printed all the important stations on the road, and dates, and which grants the holder the privilege of passing over the road, stopping if he chooses at every station mentioned, until he shall have reached the point of destination in the check, even though he may consume thirty days in doing so. The only stipulations made by the company are that the check shall not be transferred, and shall not be mutilated or defaced.

☞ The adjustment of the State debt of South Carolina is progressing rapidly. The State treasurer reports that up to January 12, he has funded $2,700,000 of the old State bonds and stocks into $1,850,000 of consolidation bonds and stocks. When the funding is completed the total debt will be less than $6,000,000, the interest on which is secured by a perpetual specific tax, enforcable in the courts and by the receipt of coupons for taxes.

☞ The narrow gauge railroad has been completed from Saucelito to Tomales, Cal.

☞ The annual meeting of the Washington and Georgetown Railroad Company was held in Washington on the 12th inst. The report shows that the receipts during the year were $386,585 63, and the disbursements $334,992 87. The company has 8¼ miles of track—4¼ navy yard to Georgetown, 2¼ on Seventh street, and 1¼ on Fourteenth street; 83 cars worth $49,800, and 507 horses worth $50,700. The conductors are paid $2 per day. The Slawson box on the Fourteenth street line has saved $8 per day in salaries, and the bell punch on the other line has worked acceptably. The receipts from passengers during the year was $381,856 60; the daily average of fares $1,046 18.

☞ The Governor of Nebraska, in his message, states that the population of the State has doubled the last two years. The estimated population is now 300,000. The total debt of the state is $402,957; delinquent taxes due the state, $500,000; total valuation of taxable property, $80,000,000, while the value of property exempt from taxation is estimated at $300,000,000.



W. & L. E. Gurley, Troy, N. Y.

MANUFACTURERS of Engineers' and Surveyors' Instruments. Descriptive and priced catalogue gratis.

Knox & Shain,

MANUFACTURERS of Engineering and Telegraphic Instruments, 716 Chestnut St., Phila. (Two premiums awarded.)

Manufactory of the Spencerian Steel Pens, Birmingham, England.

SPENCERIAN

DOUBLE ELASTIC

STEEL PENS

The superiority and excellence of these justly celebrated Pens, are appreciated, as is shown in their constantly increasing sale. They are comprised in 15 numbers, of which *one number* alone has an annual sale of more than

5,000,000.

The *Spencerian Pens* are manufactured of the very best material by the most expert workmen in Europe, and are famous for their elasticity, durability, and evenness of point.

The Spencerian Pens are for Sale by all Dealers.

We make Fifteen Numbers of Pens, differing in flexibility and fineness of point, adapted to every style of writing, as follows:

No. 1. College Pen. *Point Fine; Action Perfect.* This is a great favorite with our leading penmen, is largely used in the Schools and Commercial Colleges throughout the country, and gives better satisfaction than any Pen before the American Public.

No. 2. Counting-House Pen. *Point Fine and Flexible,* well adapted to the use of Correspondents and Accountants.

No. 3. Commercial Pen. *Point Medium.* An Easy Writing Business Pen.

No. 4. Ladies' Extra Pen. *Point Extra Fine and Flexible.* For Delicate Fine Hand Writing this is a very superior Pen.

No. 5. School Pen. *Point Fine, Medium in Flexibility.* For a durable School Pen it has never been equaled.

No. 6. Flourishing Pen. *Point Long, Flexible and Medium in Fineness.* For Off-hand Flourishing.

No. 7. Quill Pen. *Point Medium, Quill Action.* A Smooth, Easy Writing Pen. Its name well represents its qualities.

No. 8. Congress Pen. (New.) *Medium Flexible Point.* A very superior Pen for all styles of writing. This Pen undergoes a process that renders it non-corrosive and *three times* more durable than any ordinary steel Pen.

No. 9. Bank Pen. *Point Long and Flexible.* A great favorite with Accountants, Tellers, &c.

No. 10. Custom-House Pen. *Point Medium.* Well adapted to all styles of Bold-hand Writing.

No. 11. University Pen. *Point Medium, very Smooth and Flexible.* The action of this celebrated Pen is very fine.

No. 12. Epistolaire Pen. *Point very Fine and very Flexible.* This is the Finest Pointed Pen made, and for very Delicate Writing, Map and Fine Pen Drawing, it has no equal.

No. 13. Engrossing Pen. *Point Blunt and Smooth.* Particularly adapted to Coarse-hand Writing and Engrossing.

No. 14. Artistic Pen. *Flexible, with extra fine Point.* This Exquisite and Truly Celebrated Pen is the Best Pen extant for Fine Ornamental Writing.

No. 15. The Queen. *Point extra fine.* Admirably adapted to all kinds of Fine Writing.

☞ *Sample Cards containing all the FIFTEEN Numbers, securely enclosed, will be sent by mail on receipt of 25 cents.*

Chesapeake and Ohio Canal.

In the report of Gen. J. K. Moorhead, President of the Monongahela Navigation Co., presented at the annual meeting of the stockholders held in Pittsburg on the 14th inst., reference is made to the extension of the Slack Water beyond the State line; and on alluding to the construction of the proposed water routes to cheapen transportation, the report says:

Among these routes, that known as the Chesapeake and Ohio or Cumberland route, has not been overlooked. Although not made as prominent in the report of the Senate Committee as the James River and Kanawha, yet it is commended favorably. It is the route pointed out by the first President of the United States, General Washington, and its occupation by the Chesapeake and Ohio canal from Washington to Cumberland, a distance of 184½ miles, now in complete and successful operation, makes it the most available and less expensive route to construct, as it is the most natural one. Should this route be opened by the Youghiogheny, that stream being improved by locks and dams to Connellsville, or perhaps, to Myersdale, and thence either by canal, or Portage R. R. over the summit, the Monongahela navigation will form a part of the line, viz: from Pittsburgh to McKeesport, or the mouth of the Youghiogheny. If the connection is made by the Cheat river route, it will involve the use of the entire works of this company, or nearly so, as the mouth of Cheat river is but one and a half miles from the West Virginia State line.

Asbestos Mine.

The Amador (Cal.) Dispatch of January 9th says: "Messrs. C. D. Horn and F. M. Brown commenced the work of prosecuting or developing a mine of asbestos a few days ago, located on the line of the Amador Canal, about ten miles above Jackson. The extent of the deposit is, of course, not yet fully known; but if it should prove to be as extensive as there is every reason to believe it is, it will prove a very valuable addition to the mineral resources of our county, as it will readily sell for $60 per ton."

☞ The Morris and Essex Railroad Company has recently created a consolidated mortgage, covering its entire property, to the Farmers' Loan and Trust Company in trust. The announcement is now made that three millions of bonds issued under this mortgage have been negotiated through Messrs. Drexel, Morgan & Co., Winslow, Lanier & Co., and J. S. Kennedy & Co., for account of their friends in this country and Europe. The principal and interest of each bond are guaranteed by the Delaware, Lackawanna and Western Railroad Company by special endorsement.

LANSDELL'S

Patent Steam Railroad Water Station.

DISPENSES WITH **Tanks, Tank Houses, Stationary Power,** AND **Attendance.**

CAN NOT **FREEZE** IN ANY **CLIMATE,** UNDER ANY **CIRCUMSTANCES.**

COSTS LESS

Than One Half the Price of a FROST PROOF TANK.

The Engineer in charge of the Locomotive attaches the Hose A to a steam valve in the boiler. Steam passed through the pipe D and slip joint F into the globe H, producing a vacuum; the water is then lifted through the pipes I I and forced through the column E and hose C into the tender, filling any ordinary tender in about three minutes. When steam is shut off all the water in the pipes returns into the well, and any condensed steam passes off through the drip valve G, leaving nothing to freeze. The handle B serves to turn the discharge pipe and hose in any direction. The water delivered into the tender is warm, thus utilizing the steam used. The discharge tubes, represented above made of hose, can be made of iron if preferred.

American Railroad Journal.

New York, Saturday, February 6, 1875.

Ought Congress to help the Languishing Trade?

There is no single branch of industry, which uses to so large an extent, or in such great variety, the products of labor, as the construction and maintenance of railroads. Railroad companies are large employers of labor, and also consumers of the products of labor. A line of railroad requires, first for its construction, and afterwards for its operation, the products of nearly every branch of manufacture, and calls into activity nearly every variety of exchange. A prominent road will need from one thousand to ten thousand laborers and officers; these require tools and machinery; houses and structures of wood, brick, iron or stone, or all combined; there are fuel from the forest or mine, iron from the furnace and forge, timber and a variety of products for cars, shafts, belts, oils, and the metals for the work shops. These artisans, in their turns, furnish work for the tailors, the butchers, the carpenters and the traders; and these again furnish the means of the banks, the profits of the farmer and capitalist, and the capital first invested in the road flows out into a hundred other channels in ever-widening circles.

Whatever, therefore, checks these great internal improvements, does widespread injury to trade and manufactures. Yet this is just what happened fifteen months ago, and what the country is groaning under to-day. Ought Congress to intervene to bring back the former prosperity? We have shown that the credit of the Government was never better; that the infusion of the encouragement of the Government to a few great works of improvement would work a magical change in the confidence of the money-holders; that the circulation once started would rapidly put the whole laboring community at work again.

The opportunity being before it, what ought the government to do? We answer: pledge its credit to the extent of a hundred millions, or more, for the prosecution of some of the great works which will add to the public convenience and wealth. The objections commonly urged against this policy, and conspicuously by some of our New York dailies, are two: (1) That the public treasury is in no condition to extend this kind of aid; and (2) that it would inure to the benefit of some private party. A moment's examination will show how futile are both objections. What is the reason of the present depleted state of the Treasury, but the prostration of trade—a scanty consumption of taxable articles, growing out of the want of employment? Start the unemployed at work, and the revenues will again be ample.

But it is not necessary, nor is it contemplated, to take a dollar out of the Treasury. All that is needed, all that is asked, to carry forward at least one of the Pacific Roads, is that the government should lend its endorsement to an extent sufficient to assure the speedy completion of the enterprise, on which near twenty millions have already been expended. The government need not be asked for a dollar, even of interest, until the roads are built; and in all probability, not then, as the roads would then be able to earn it. This has been fully explained by Col. Scott and others to the Committee of the House.

The other objection goes too far, since if government was never to do anything which could profit an individual it must never do anything at all. We think the subsidiary reward which the builders of these roads would receive for their pluck, their energy, their experience, and the risks of large capital already invested therein, is extravagantly overstated by those who should know better; but admitting them to be large, (as they certainly deserve to be) the government is after all the greatest gainer; and the public are not taxed nor hurt in the least, but greatly benefited. With the railroads the public domain is worth something; without them it is useless. By them the forts on our frontiers are more easily kept up, our mails carried, and the exhaustless wealth of new territory opened to industry and trade. Notwithstanding the clamor, the nation never expended any money where it gained such large returns, nor where private parties got so little of it.

We call attention, however, to a series of coincidences which may illumine the motives of some of the loudest objectors to the policy of government doing something for the working man. A few years ago when it became apparent that the Central Pacific Road was a success, and might be made a source of profit to its owners; the dissensions in the management of the Union Pacific left an opportunity for the "bear" speculators of Wall Street to invite a series of attacks on the credit of the company, beginning with the despotic action of the Secretary of the Treasury and followed by what may be called the Credit Mobilier "raid." The ruse, for several reasons, succeeded better than might have been expected; and as a consequence there were extensive transfers of Union Pacific shares. In the course of time it so fell out that the interests of the Union Pacific Railroad and the Pacific Mail Steamship Company were clashing, and it became necessary to use the same machinery to depress the shares of the latter. The same "subsidy bribery" cry was started through the same newspapers; and ridiculous to say, diverted the minds of our representatives from their own proper business to that of examining the skirts of their fellows and clearing their own. The Northern and Southern Pacific Roads it is now foreseen may be competitors against the Union Pacific; and again the same organs of

mischief are instructed to raise the same cries. It remains to be seen whether the success of these speculators will frighten Congress from its propriety as before.

Boston and Lowell Railroad.

The receipts from operations of this road for the years ending September 30, 1873 and 1874, were as follows:

The decrease of traffic revenue over last year is $123,397 86, and the decrease in traffic expenses $80,969 83. Two semi-annual dividends of 3½ and 3 per cent respectively, have been paid, amounting to $208,000; towards which $9,734 72 has been drawn from the Contingent Fund. The report says:

The gross revenue is less than that of last year, by $159,101 40. The freight revenue fell off, $54,618 67. The passenger revenue fell off, $15,-794 36. The express revenue fell off, $1,071 95. The payment of the 20 per cent scrip dividend from the sinking fund diminished the accumulation of interest on that fund, $35,704 04. The premium on bonds sold last year amounted to, $55,870 00. The mail and miscellaneous receipts increased this year, $3,957 62. Miles run increased, 45,920. Passengers carried one mile increased, 473,554. Freight tons carried one mile decreased, 467,147.

More passengers have been carried this year than last, but owing to some slight reductions in tariff and to a larger proportion riding on season and other cheap tickets, they have produced less income.

In consequence of the depressed state of general business, the falling off in freight tonnage has been large; and this decrease of tonnage, together with the extremely low rate at which much of the Western business has been carried, and the reduction on coal freight made last summer, will account for the diminished receipts in that department.

For many years past we have had a steady gain in the volume of our business, and the large expenditures made for its present and future accommodation have required that the aggregate of gross receipts should be fully maintained in order to secure the usual dividend. So great a falling off as seventy thousand dollars in the traffic of the year, could not fully be met by ordinary retrenchment of expenses. And although these have been greatly reduced, we have been compelled to lower the dividend, from eight to six and one half per cent. The results of the year seem, however, to demonstrate that the usual dividend can be made on the enlarged capital whenever business so far resumes its accustomed activity as to swell our receipts to their former magnitude and growth.

CONSTRUCTION ACCOUNT AND WORK.

Since the date of the last annual report, there has been expended on account of construction, $406,521 47, of which $207,000 was obtained from sales of stock, and the balance on notes. The purposes for which it has been expended are as follows:

For the completion of the land titles and the building contracts of the Boston passenger station and the bridge approach to the same		$248,580 83
For land damages & building charges on the Mystic Branch.....	56,480 46	
For building pier wharf and filling at Mystic River Quay.....	35,475 99	
For land damages and completion of the Lexington Branch.....	21,986 10	
For building purchased and work done on East Cambridge flats.....	10,717 41	
For real estate and new buildings at various points.....	10,625 00	
For new engines and cars.....	14,835 00	
For improvements at Winchester....	550 00	
For Lawrence Branch.....	3,820 68	
For right of Hall's signals.....	3,450 00	
		$406,521 47

The proposed branch to Lawrence, the construction of which was approved by the stockholders at the annual meeting of 1873, having become a necessity to protect us against competition at Lowell, by the Boston and Maine road, was opened by us on the second instant. It has been built as a branch to our road, as authorized under the General Law of 1874, at a cost of about $50,000. The connecting line, over the Salem and Lowell and Lawrence Branches, has been put in first class condition, giving us a good connection between Boston and Lawrence, about one a half miles longer than the Boston and Maine road.

In Lowell, about one half mile of new branch has been laid, near the Tremont and Lawrence Corporations. New sidings have been put in and old ones lengthened, to the extent of about two miles, on our road and its connections and about three miles of track has been relaid with steel rails.

At the Mystic Quay, about one half acre of timber wharf has been built around the exterior wall, to allow the deep dredgings to be made, and the eight acres of wharf outside of Chelsea Bridge, has been surfaced up with gravel. About one half mile of new track has been laid upon the wharf. The dredging has steadily progressed through the season, and the material taken up has been used to fill the flats above the bridge. A small expenditure for surfacing with gravel, will now make about five acres above the bridge available for shipping purposes. This we expect to complete during the winter, and hope to find remunerative use for it another season.

A new and wider draw is being constructed in our freight bridge across Charles River, in compliance with the requirement of the Legislature, and the bridge is being widened to the capacity of four tracks.

An iron bridge has been erected to sustain our tracks over Washington street, in Somerville.

At Lowell, a new bridge of stone and iron is being constructed to sustain our tracks across the basin of Pawtucket Canal, between the Northern and Merrimack street passenger stations. The two stone abutments, and the five stone piers have been completed. The iron trusses will be constructed during the winter.

The new and commodious freight house and the extensive freight tracks and grounds of the Nashua and Lowell Road at Lowell, intended for joint occupancy with this company, have been completed and put in use. New passenger stations have been built or are now under construction on this road at Willow Bridge in Somerville, and at East Woburn, and on our connecting branches at North Reading, Forge Village, and Wilton.

The rolling equipment has been increased by an addition of two new locomotives, besides two others purchased in exchange for old ones; by eleven new passenger and baggage cars, and about fifty new freight cars.

The vacuum brake has been attached to nearly all our passenger equipment. Electric block signals are being erected between Boston and East Woburn, to ensure safety in running our numerous trains, and particularly to guard against collisions at the junctions of the East Cambridge, Mystic, Lexington, Woburn and Stoneham Branches.

NEW LINES TO LOWELL AND LAWRENCE.

A branch road has been constructed, between Lowell and the Boston and Maine Road, near Ballardvale, forming a new line of communication between Lowell and Boston, about three miles longer than ours. It has been leased to the Boston and Maine Road for a long term of years, and was opened for public travel, on the second instant. Simultaneously with this opening, we put our Lawrence Branch in operation, and commenced to transact business between Lawrence and Boston, as an offset to the diversion from us at Lowell.

Before these rival lines were completed, an interview with the officers of the Boston and Maine Road, developed the desire of both parties, to avoid as far as possible, an unprofitable competition.

Negotiations were commenced for a friendly adjustment, and resulted in a contract, under which, the Boston and Maine Company agree to maintain our rates at Lowell, and to furnish us for a consideration, the use of their depots and other terminal facilities, in Lawrence. We, on the other hand agreeing to maintain their rates at Lawrence, and to furnish them for a consideration, the use of certain freight tracks in Lowell.

This contract is to continue for one year, and until three months notice of termination. It is hoped that it may prevent unnecessary waste of present income, and lead to beneficial results for both parties.

FUNDING THE DEBT.

The debt of the corporation, not represented by bonds, amounts to $1,221,300 00, and is now carried on long notes, falling due at various times during the next five years. About $300,000 is due before the close of 1875. In view of the great advantage of bonded loans, and of the opportunities afforded by the present easy money market, we recommend that the directors be authorized to issue, not exceeding $500,000 of bonds of this corporation, having twenty years to run, at seven per cent interest, to be disposed of at such times and on such terms, not less than par, as they may order, and that the proceeds be applied in liquidation of this debt.

THE PARTERSHIP BETWEEN THE BOSTON AND LOWELL AND NASHUA AND LOWELL ROADS.

The working operations of this company were united with those of the Nashua and Lowell Railroad Company, by an experimental contract made in 1857, and renewed in 1858, for twenty years. Since then, the two roads with their respective branches, have been worked as one.

The combination embraces the roads of six small railroad companies in Massachusetts, and three in New Hampshire. The Boston and Lowell puts in its main road, with its Mystic, its Woburn, its Stoneham and its Lexington Branches, and its leases of the Lowell and Lawrence, the Salem and

Lowell, and Middlesex Central Roads. The Nashua and Lowell puts in its main road, and its leases of the Stony Brook, the Wilton, and the Peterborough Roads.

Experience has demonstrated that when separate, these fragmentary roads were weak and unable to cope with their more powerful neighbors, or to operate with economy or efficiency; while together, they have for a series of years been able to sustain a high degree of efficiency and a commanding position. Their condition separately, before the union, is illustrated by reference to the stock lists of 1856, when the Boston and Lowell sold for about fifty, and the Nashua and Lowell for about seventy cents upon the dollar.

As the time draws near when the present union must terminate by its own terms, and the possibility of its extension would be uncertain under existing laws, it has become a matter of anxiety to the directors to devise some way of perfecting a safe and legal permanent union between these almost inseparable interests. With this view, authority was obtained from the Legislature of Massachusetts to unite the Boston and Lowell, and Nashua and Lowell Companies and to absorb the Massachusetts branches in one corporation.

The Legislature of New Hampshire, at its last session, confirmed so much of this authority as relates to the Nashua and Lowell Road in that State, and a legal union can now be consummated by agreement of parties.

In the opinion of your directors, such a union is not only expedient, but is of vital importance to the interest of both parties, and should be delayed no longer than may be necessary to perfect an agreement upon equitable terms. The legislative authority granted by Massachusetts, expires in May next. It is the intention of your directors, in conjunction with the directors of the Nashua and Lowell Road, to call special meetings of the respective corporations at some early day, to take this subject into consideration and to act upon it, as may then be determined.

President.—F. B. CROWNINSHIELD.

Directors.—Francis B. Crowninshield, Josiah G. Abbott, Hocum Hosford, William A. Burke, George Stark.

Gen'l Manager.—GEORGE STARK.

Superintendent.—JOHN B. WINSLOW.

Treasurer.—C. E. A. BARTLETT.

Illinois Central Railroad Company.

REPORT OF THE DIRECTORS.

This Company's obligation to set aside the proceeds of the Land Sales to the payment of the Construction Bonds has been fulfilled. From the receipts of the last year $367,856 47 was applied to the payment of the balance of Bonds not previously provided for in Sinking Fund. The proceeds of 299,565 acres of land on hand, and $1,007,569 78 of Notes Receivable for lands sold, will pass, as realized, to the General Account.

Recently an important decision of the Supreme Court of Illinois has confirmed the Company's action regarding the disposal of its lands and has set at rest questions adverse to its interests which had arisen in the State Legislature. The Land office in 1874 collected $408,670 89, its expenses, were $40,814 42, leaving $367,856 47, and 34,173. 33 acres of land were sold for $267,652 33. At the end of the year 156,409.59 acres were under contract with $1,007,509 78 due thereupon to the Company, and 299,065.85 acres of the original grant were on hand for sale.

A General Mortgage has been placed upon the Railway, limited at $15,000,000. It secures the £958,400, ($4,792,000) Five per cent Bonds and also provides for the $5,000,000 Six per cent Bonds For the additional $5,000,000 permitted under the Mortgage, there is no immediate requirement.

The Directors announce a more satisfactory net result from the traffic in 1874, than for several years previous. The Interest on the Debt and Dividends of Eight per cent on the shares, have been derived from the Traffic. The Net Traffic was $2,775,362 78, balance Interest Account $413, 610 20, Dividends $2,165,533 79, leaving to credit of Income Account $196,218 79.

This concludes the first year of working freight south by Rail from Cairo. The experiment has been successful, although, owing to political troubles in the South, the volume of business has not been so large as in previous years. The bulk of the freight from Cairo is directed by Rail, and is leaving the River. The Southern Lines are scantly supplied with Rolling Stock. The business was interrupted by the freshet in the Spring and generally impeded by the incomplete condition of the Southern Railways. In spite of these drawbacks, the traffic is remunerative and gaining. Cairo is now the centre of an established trade to and from the South chiefly tributary to our Line, which is more direct than any other. The advantage of this Rail communication over that by River has been so marked, that the future of the New Orleans Line seems well assured. The parties interested will, without doubt during the year, obtain the means to discharge their obligations, and equip the Line in some measure corresponding to the traffic furnished it by this new Northern connection.

The payment of the Redemption Bonds which mature April 1st has been provided for by the sale of £500,000 of twenty year bonds bearing the same interest of Six per cent. Five thousand tons more of Steel Rails have been purchased, making 10,000 tons to be laid in the Spring.

The Board has the satisfaction to report a contract for the use of our Depot Grounds and track by the Baltimore and Ohio Railroad Co., entering on our Line ten and one half miles south of Chicago.

The Working Stock of Supplies including 5,000 tons of Steel Rails on hand the 31st December was $1,117,892 91. The Cash assets $1,940,574 53.

The debt of this Company on the 1st April next will be $2,500,000, 6 per cent Currency Bonds due in 1890. £500,000, ($2,500,000.) 6 per cent Sterling Bonds due in 1895, and £958,400, ($4,792,000) 5 per cent Bonds due in 1903; and it holds $4,842,000 of New Orleans, St. Louis and Chicago R. R. Bonds to offset the Five per cents. The amount of Share Capital and Six per cent debt is $34,000,000. At the close of 1864 the sum of the Share Capital and debt was $34,209,110. Meanwhile $6,489,880 has been added to the property in outlays on the road and plant.

The General Balance sheet of the Company is submitted herewith together with statements in detail of our business for the past year.

The Annual Meeting of the shareholders will be held the last Wednesday in May.

GENERAL BALANCE SHEET.

By order of the board,
L. A. CATLIN, Secretary.
New York, January 28th, 1875.

Miller's Patent Platform and Coupling.

The Report of J. E. Wootten, Esq., General Superintendent of the Philadelphia and Reading Railroad, has just been published. It says:

The cost of repairs to passenger cars has been in excess of that of the previous year, 1873, which is due to the application of the Miller Patent Platform and Coupling to 71 cars at the cost of nearly $14,000. This expenditure has been fully justified by the increased safety and steadiness of movement which attend the use of the Improvement upon the cars to which it has been applied, and the general superintendent feels warranted in recommending that its use be extended to all the passenger cars owned by the company. Throughout the year the passenger trains have been moved with regularity and dispatch, and with entire freedom from accident. This is particularly gratifying and surprising when it is stated that 6,964,869 passengers were carried without injury to any of them.

☞ Mr. Calvin A. Richards has been appointed President of the Metropolitan (Boston) R. R. Co., vice Mr. John W. Draper, resigned.

Toledo, Wabash and Western Railway.

The Toledo, Wabash and Western Railway Company, being unable, owing to diminished earnings and its floating debt, to meet the interest which fell due on the 1st of February, have issued a circular to the bondholders and creditors, from which we extract the following:

1st. The holders of first mortgage bonds on the main line shall be asked to fund one year's coupons, in funding certificates bearing 7 per cent interest. The principal payable at the pleasure of the company after three years and not longer than six years.

2d. The holders of Decatur and East St. Louis bonds shall be asked to fund one and one half year's coupons in similar certificates.

3d. All other bondholders shall be asked to fund two years' coupons in funding certificates bearing 7 per cent interest—the principal payable at the pleasure of the company after five years and not longer than ten years.

4th. Holders of the bonds of all the leased lines shall be asked to fund two years' coupons, in similar funding certificates, payable at the pleasure of the several companies, after five years and not longer than ten years. Said certificate to be guaranteed by the Toledo, Wabash and Western Railway Company by special endorsement.

5th. All coupons payable in gold to be funded in certificates, payable principal and interest in gold.

6th. The holders of floating debt (not including those heretofore excepted), shall be asked to extend their debt 12, 15 and 18 months, interest payable semi-annually. The principal to be paid sooner if the company is able.

7th. All the above propositions to be offered on conditions that majorities of each interest before named (or sufficient to prevent a foreclosure) shall agree.

8th. That a sinking fund of five per cent per annum on the total amount of each class of funding certificates is hereby pledged to be paid to the Metropolitan National Bank of New York, for the purchase of certificates, by advertisement, to the lowest bidder. The first sinking fund payment to be made on or before January 1, 1876.

The circular also says: "This company's road has earned over six million dollars gross in each of two former years, and the Board sees no reasons why it cannot earn in future as much or more, and with the excellent condition of the line, with the economies now introduced, they believe that if the terms now proposed shall be accepted, the company will soon reach a sound financial condition."

Boston, Barre and Gardner Railroad.

From the report of the directors of this company, just issued, it appears that the income for the year ending September 30, 1874, amounted to $111,505, and the expenses to $84,556, making the net income $27,693, which is an increase of $15,708 over the previous year. The report says:

The Directors have taken a permanent lease of the Monadnock Railroad, extending from Winchendon to Peterboro', N. H., sixteen miles, and bought the rolling stock and fuel on hand at its appraised value. Immediate profit from this lease is not expected, but it is deemed very important to secure to the Boston, Barre and Gardner road and to the city of Worcester, its largest stockholder and main dependence, the business naturally belonging to it.

By a supplementary agreement with the contractor who had agreed to build the ten miles from Gardner to Winchendon, the road was taken off his hands in an unfinished state and $14,000 deducted from the contract price. The amount of $10,290 50 has been expended toward completing the extension to its present terminus, about one third of a mile short of its final terminus. The connection with the Cheshire Railroad for the nine months run to Winchendon has added new and important business to both roads.

It will cost $100,000 to connect the road with the union passenger station at Worcester, as required by legislative enactment, and it will be for the annual meeting of the stockholders to decide whether they will increase the capital stock or adopt some other means to meet this indispensable outlay.

The Great Southern Railway.

The people of Florida seem to have come to the conclusion that the best way to "re-construct" their State is to build Railways through their rich timber and agricultural regions and thereby encourage emigration and develop business, and attend to politics afterwards. We take the following from the "Florida Union," of the 21st ult.:

WHAT WE MEAN WHEN WE SAY BUILD THE GREAT SOUTHERN RAILWAY.

We mean seven hours in time between Jacksonville and Savannah, forty eight hours to New York, and seventy eight hours from Havana to New York.

We mean that the building of the northern section of this road alone will make Jacksonville one of the largest cities in the South; will make it the great city of this State; its population will be largely increased; its business and wealth will be greatly augmented.

We mean that the building of this road will cause the building of cities, towns and villages the entire length and breadth of our State; will bring wealth and population here permanently, and will increase the transient winter travel to an extent far beyond the wildest dreams of our most sanguine people.

We mean that the building of this road will provide a way for our fruit growers to get their productions to market earlier in the season, quicker and cheaper than from any other section of this country. It is only necessary to know one half of the improvements and investments that are now being made in the country south of us to establish the fact of the absolute necessity of this road.

We mean that the building of this road implies the building of depots, saw mills, cotton factories, sugar mills, etc., along its line. The introduction of immigrants and their location in colonies, not entirely of people from the North, but hard fisted, hard working men and women from abroad, from a climate similar to what we have here in its productions; people who want to come here now, but dare not do so until assured of a sufficient amount of work to sustain themselves until they can raise enough to take care of themselves. This the railroad company can do by furnishing them with labor during the construction of their road, and can do it on a large scale, and we understand that this is part of their programme.

In fact we say that this road is our great necessity; that with quick and cheap transportation the whole problem of the settlement and civilization of our State will be solved. That this railroad built means all and more than we have said or can say at present. Therefore, let us aid and assist this great enterprise in every public way. If we have but little money to spare, let us give that little. Let us give the men who are at work, or who are working for us as well as for themselves, good words, good council and encouragement, and let us show that we appreciate their efforts; that we will put our shoulders to the wheel, and not stand by and call upon the gods to help us without our first trying to help ourselves.

☞ By the annual report of the Commissioners of the Boston, Hartford and Erie Railroad Sinking Fund, the fund amounted to $852,784 43 on the 1st of January, 1875.

☞ The Egyptian papers announce the opening to traffic of the new railway from Cairo to Siout.

Summit Branch Railroad.

The annual report of the Summit Branch Railroad Company recently issued, shows a result more pleasing than might have been expected, considering the pressure brought to bear on all outside corporations by the Associated Companies, and which this Company propose to avoid in the future by shipping their Coal over the Pennsylvania Railroad by cars already built and in use, and from their piers at Greenwich, below Philadelphia. Some 2000 shares of the Lykens Valley Co. stock is still outstanding. The merging of the two Companies is not fully complete, and the report only includes the business of the Summit Branch Railroad Company as before. Their shipments have been 228,410 tons and the Lykens Valley Company's somewhat larger. After paying the amount reserved from the tunnel contract, and for various other permanent improvements, the balance passed to income account is $266,953 89, making that account for the year $526,395 82.

This amount is sufficient, after paying the dividends declared during the year, to pay all the outstanding 6 per cent. Bonds due in July next, with interest accruing at that time on the old and new Bonds, and leave a balance on hand sufficient for working capital. So that the Directors feel that with the additional facilities given for marketing the Coal future dividends should be not only regular but more satisfactory to the stockholders.

☞ A letter to the Baltimore *Sun* from Cumberland, Md., says the shipments of Cumberland coal during the year 1874 amounted to 2,323,195 tons and 12 cwt., a decrease compared with the year 1873 of 241,559 tons 7 cwt. By Chesapeake and Ohio canal, decrease 12,884 tons 15 cwt.; by railroads, decrease 244,244 tons 12 cwt. Baltimore and Ohio railroad decrease, 196,883 tons 4 cwt; Pennsylvania railroad decrease, 47,361 tons 8 cwt. Total shipments during the year by canal 767,097 tons 8 cwt.; by Baltimore and Ohio railroad, 1,488,415 tons 5 cwt.; by Pennsylvania railroad, 67,082 tons 19 cwt.

☞ An arrangement has been effected between prominent railroad officials by which Kansas City secures one of the most direct and important lines of road centering within its limits. The arrangement consolidates the Midland road, just completed to Topeka, with the Atchison, Topeka and Santa Fe road, and places the two under one management. The arrangement went into effect on the 1st of January. Trains run to Grenada, Colorado, from which point the road is being pushed on with vigor to Pueblo.

☞ From the message of Governor Howard, of Rhode Island, we learn that the State debt of Rhode Island amounts to $2,563,500, and there are $600,000 in the Treasury. The State bonds are held at a price above par, and the Governor has exercised the discretion given him by the General Assembly, in not purchasing. The expenditures for public schools have been $690,857 53, and the receipts from State and town appropriations, and other sources, $745,769 60.

☞ Three new powerful locomotives for the Pennsylvania Railroad Company will soon be ready for use at Bordentown, N. J.

The Coal Trade.

The entire shipments of anthracite coal for the week ending January 23, are stated by the Philadelphia *Ledger* at 124,984, against 180,893 in corresponding week last year, and 1,067,599 for the new year against 1,148,990 to same date in 1874. The bituminous tonnage for the week is 35,566 tons, and for the year 96,797 tons, against 104,877 tons to corresponding date last year. The total of both kinds of coal for the week is 160,550 tons, and for the year 1,164,396 tons, against 1,254,867 tons to same time in 1874, being an increase of 90,471 tons. The quantity of coal and coke transported over the Pennsylvania Railroad for the last week was 58,793 tons, and for the year 99,488 tons. Of this aggregate 78,023 tons were coal and 21,465 tons coke. At Port Richmond for the week ending the 30th ultimo the receipts of coal were none and the shipments 4000 tons, leaving 120,500 tons on hand.

Statement of the Public Debt of the United States February 1, 1875.

Totals	$64,623,512 00	$323,117 56

Interest paid by United States, $26,264,102 34; interest repaid by transportation of mails, &c., $5,602,165 91; balance of interest paid by United States, $20,661,936 43.

The foregoing is a correct statement of the public debt, as appears from the books and Treasurer's returns in the Department at the close of business, January 31, 1875.

B. H. BRISTOW,
Secretary of the Treasury.

Steel vs. Iron Rails.

W. Lorenz, Esq., Chief Engineer of the Philadelphia and Reading Railroad, in his recent Annual Report to the President, says:

The gradual substitution of steel rails for iron on the main line and the portions of the laterals most exposed to wear, has reduced the roadway expenses and renewal of rails to such an extent, that whereas in 1873 the removal of railroad iron from the main tracks of the line amounted to 12,504 tons (a considerable reduction from the year 1872), only 7682.5 tons were taken away during the year 1874. The balance of the steel rails laid in 1867, in one of the most trying places in Reading, amounting to 1008 lineal feet, has been removed from the main track and placed in sidings, after having done service for nearly seven years; whereas the life of an iron rail at the same place never exceeded four months. During the past year there has been substituted 13 miles of steel rail track for iron track, so that the company is now using steel rails equivalent to 92 miles of track. Of the 92 miles of steel track in use last year, a little less than two tenths miles have been removed, or less than one quarter of one per cent. Such an exhibit shows the great superiority of steel over iron rails. Nearly all of the steel-headed rails laid previous to 1873 have been removed from the track—experience having shown that this description of compound steel and iron rails is utterly unfitted to withstand the wear of a heavy traffic.

☞ The receipts of the Providence, Warren and Bristol Railroad for the year ending September 30, 1874, were $111,219 10 against $113,504 76 for the previous year, a decrease of $2,287 66. The gross expenses, including interest paid, were $82,455 95 against $189,717 12 for the previous year, a decrease of $17,261 17. During the year $10,500, the amount of debts of the corporation secured by mortgage of the property of the corporation has been paid, leaving $50,000 of funded debt in bonds which mature in 1877.

Established 25 years. Orders and inquiries by mail promptly answered.

TWO MILLION
FIVE HUNDRED THOUSAND
DOLLARS

Will be distributed in 20,000 Cash Gifts at the Fifth and Last Gift Concert in aid of the

PUBLIC LIBRARY OF KY.

FEBRUARY 27, 1875.

POSITIVELY NO POSTPONEMENT.

A DRAWING ON 27TH, OR

☞ MONEY REFUNDED.

POSITIVELY LAST CHANCE.

POSITIVELY LAST CONCERT.

Whole Tickets, $50; Halves, $25; Tenths, $5.

Apply to THOS. E. BRAMLETTE, Agent, Louisville, Ky., or THOS. H. HAYS & CO., 609 Broadway, New York.

PUBLIC LIBRARY OF KENTUCKY.

Death of Gov. Bramlette—Action of the Trustees—A Successor appointed—No More Postponements—Drawing Certain February 27th.

At a meeting of the Trustees of the Public Library of Kentucky, Jan. 16, 1875, it was resolved that C. M. Briggs, Esq., who under the late Hon. Thos. E. Bramlette was the real business manager of the gift concerts already given in aid of the Public Library of Kentucky, be and he is hereby authorized to take the place made vacant by the death of said Bramlette, in the management of the affairs of the fifth and last gift concert, and that the drawing announced for February 27, 1875, shall positively and unequivocally take place on that day without any further postponement or delay on any account whatever.

R. T. DURRETT, Pres.
JOHN S. CAIN, Secretary.

Hereafter all communications relating to the 5th Concert should be addressed to the undersigned, and I pledge myself that the drawing shall come off February 27th or that every dollar paid for tickets shall be returned.

C. M. BRIGGS, Agent and Manager,
Room 4, Public Library Building,
Louisville, Ky.

American Railroad Journal.

Saturday, February 6, 1875.

Financial and Commercial Affairs.

Notwithstanding the increased and growing activity in financial and commercial circles, and the consequent improvement in the demand for Money, and the chances for securing employment for the accumulations of recent months, the supply of capital here has been found sufficiently ample to meet all the requirements of responsible borrowers, whether for speculative or mercantile purposes, without leading to any disturbance of the ease, which has been so long the main characteristic of the loan and discount market. Call loans have been quoted at 2@4, generally at 2½@3½; and the best short date commercial credits at 4@6 per cent per annum. The City Banks were losers to a considerable amount, on the return of averages for the past week, but the diminution in the reserves was not seriously felt, as against the borrowing classes. The Sub Treasury gained a little in the currency line, while reporting slight falling off in the coin balance. The Secretary of the Treasury has called in for redemption, in pursuance of the syndicate contract fifteen millions of the 5-20's of '62. The City banks last week enlarged their reserve of legal tender notes $1,031,000, and reduced their deposit item $955,600, while diminishing their specie average $3,804,600. They report an increase of $1,124,300 in the loans and discounts and a decrease of $351,700 in their circulation. The U. S. Sub Treasury in this city closed the week with a currency balance of $46,616,594, against $46,301,894, the preceding week; and a coin hoard of $45,178,652, against $45,351,978, on the previous return. The City bank exchanges in currency during the week, were $436,580,082, or a daily average of $72,763,347. The customs revenue of the port, during the week, was $1,867,000. The City banks reported their average of gold last week at $17,180,600, and their greenback average at $57,861,600. Their deposits stood at $236,191,200. The loan item was $286,452,800. The circulation was $23,801,800.

The City Bank net reserve of specie and legal tender notes now shows an excess, over the legal requirement of reserve to liabilities, of $15,994,400.

The aggregate of the outstanding U. S. currency, of all denominations, Feb. 1, was $427,109,222. The outstanding amount of legal tender notes is 382 millions. The National bank circulation is now $345,562,383.

The U. S. Sub Treasury receipts from all sources, at this port, in January, were $80,413,424 including $8,187,815 from customs; payments on all accounts, $88,515,108, including $9,207,578 of coin interest.

The U. S. Treasury balances on Tuesday were as follows: Currency, $10,330,000; special deposit of legal tenders for redemption of certificates of deposit, $47,755,000; coin, (including $24,650,000 in coin certificates,) $69,500,000.

The income of the Government, from internal revenues, thus far, in the fiscal year, commencing with July 1, 1874, has been about 65 millions.

Influenced by the recent heavy export drain of specie, and the increased customs demand for coin, as also, in part, by the continued suspension of Treasury Gold sales, the Gold market has been unusually active, the speculative dealings having been on an extensive scale, and the price has advanced sharply, closing buoyantly. The extremes of the week have been 112⅞@115⅜, closing on Wednesday at 114⅝@114¾as against 113⅛ on Wednesday of the preceding week. The specie outflow last week was $1,577,465. The imports of specie at this port since Jan. 1, have been $114,144. The customs demand for Gold last week averaged $311,167 a day. Thus far in the current week, the average has been much higher. Foreign Exchange has been in less urgent demand and rather variable as to price. Bankers' sixty day bills on London closed on Wednesday at $4 86@$4 86½; sight bills on London at 4 89½@$4 90 to the £ sterling. The week's exports of Domestic Produce have been to the currency value of $5,672,206.

The import entries of Foreign Merchandise at New York, including dry goods, amount for the past week to $6,750,253.

Government Securities have been in good demand on investment account, and quoted higher, favored by the rise in Gold, notwithstanding the increase in the recoguized debt in January of $1,897,870.

U. S sixes of 1881 closed on Wednesday of this week at 120⅛@120¾; U. S. Five-Twenties of 1862, at 116⅝@116¾; U. S. Five-Twenties of 1864 at 118@118⅛; U. S. Five-Twenties of 1865 120¼@120⅜; U. S. Five-Twenties of 1865 consolidated, 119¼@119½; U. S. Five Twenties of 1867, 120¼@120½; U. S. Five-Twenties of 1868, 120¼@120½; U. S. Ten-forties at 117¼@117⅜; U. S. Fives of 1881, (Funding Loan) 115⅛@115¾; Six per cent. currency Sixes from 119¾@120.

Business at the Stock Exchange on Railway and miscellaneous share list has been quite brisk and prices have been generally much firmer. State and Railway bonds have been moderately sought after and have been quoted steadier in the leading instances.

General business has been more active in the leading kinds of produce and merchandise; stimulated, in part, by the higher range of Gold. The demand for Breadstuffs, Cotton, and Provisions has been somewhat brisker, but at variable prices; closing more firmly. Dry Goods, Hardware, Boots and Shoes, Hides, Leather, Naval Stores and Petroleum have been in more request. Metals have been moderately sought after. American Pig Iron has been quoted stronger as to values. Eglinton Pig Iron quoted from yard at $33 50@$34 50; Glengarnock, $36@$37; No. 1 American Pig at $27@$28; No. 2 do. at $25@$26 50; Forge, $23@$27; English Rails at $47 50@$50, gold; American Rails at works, $50@$58; Old Rails, $30. Wrought Scrap, $28@$35. Ocean freights have been fairly active and at the close quoted firmer. Grain, Provisions and Cotton room most sought after.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

THEY ALSO ISSUE COMMERCIAL CREDITS, MAKE CABLE TRANSFERS OF MONEY BETWEEN THIS COUNTRY AND ENGLAND, AND DRAW BILLS OF EXCHANGE ON GREAT BRITAIN AND IRELAND.

Cincinnati Municipal

7 3-10 PER CENT. BONDS.

A limited amount for sale by

KUHN, LOEB & CO.,

BANKERS,

No. 31 Nassau St., New York.

☞ In the case of St. John vs. Erie Railway Co., the U. S. Supreme Court affirm the judgment of the Court below, holding that the holders of preferred stock of the original road are not now creditors of the company, but merely stockholders, and entitled to no preference over others. Having abandoned their position as creditors, and becoming stockholders, they thereupon ceased to be the former and became the latter.

☞ The Cumberland and Beverly Railroad company, with a capital stock of $300,000, has filed a certificate of incorporation with the Secretary of State of Ohio. The route is from Cumberland, in Guernsey county, through Noble and Morgan counties to Beverly, Washington county.

☞ Both Houses of Congress have passed, and the President has approved, the Bill providing for the payment of interest in currency on the 3-65 Bonds of the District of Columbia, due on the 1st inst. The amount appropriated for that purpose is $182,500.

☞ Messrs. Knox & Turton, of Sacramento, Cal., have the contract for constructing the Colfax and Nevada narrow gauge railway. Some 600 men will have steady employment during the entire summer, and work will be commenced early next week, near Colfax.

☞ The Cleveland, Mt. Vernon and Columbus Railroad Company has filed with the Secretary of State of Ohio a certificate of increase of capital stock from $4,000,000 to $5,500,000.

Redemption of Five-twenty Bonds.

By virtue of the authority given by the act of Congress approved July 14, 1870, the Secretary of the Treasury gives notice that the principal and accrued interest of certain 5 20 bonds will be paid at the treasury of the United States, in the city of Washington, on and after the first day of May, 1875, and that the interest on said bonds will cease on that day. That is to say, coupon bonds, known as the four series, act of February 25, 1862, dated May 1, 1862, as follows: Coupon bond—$50, No. 4,962 to No. 8,350, both inclusive; $100, No. 10,501 to No. 23,100, both inclusive; $500, No. 7,001 to No. 11,100, both inclusive; $1,000, No. 20,001 to No. 33,700, both inclusive—$12,000,000. Registered bonds—$50, No. 1,821 to No. 2,000, both inclusive; $100, No. 14,151 to No. 15,550, both inclusive $500, No. 8,071 to No. 8,650, both inclusive; $1,000, No. 33,351 to No. 35,700, both inclusive; $5,000, No. 10,261 to No. 11,600, both inclusive; $10,000, No. 13,201 to 15,500, both inclusive—$3,000,000. Total, $15,000,000. The interest due May 1, 1875, on the registered bonds embraced in this call will be paid with the principal.

Worcester (Md.) Railroad.

A correspondent of the Baltimore *Sun*, writing from Salisbury, Md., under date January 26, says:

The Old Dominion Steamship Company of New York has purchased the Worcester railroad, which connects Berlin with Snow Hill. The arrangements were perfected on last Saturday. The Old Dominion Steamship Company have a regular line of steamers plying between New York and Lewes, Del. The railroad which connects the latter place with Georgetown, Del., has been extended to the Delaware State line, leaving but eight miles of road to be constructed to connect Snow Hill, Md., with Lewes, Del. This short space will be placed under contract at once. It is contemplated to extend the line through the lower portion of Worcester county. The inhabitants of the counties of Accomac and Northampton, Va., are anxious to have it extended to Cherrystone.

Southern Pacific Railroad.

We learn from the Bakersfield (Cal.) Courier, of January 16th, that the advance force of graders were at work about 28 miles beyond the Bakersfield depot, and the roadbed ready for the track about 16 miles beyond where the track was then laid, and which, when laid, would carry the road 21 miles in advance of that place, where a temporary depot and side track are to be established for the accommodation of the Inyo trade. Beyond that to the place where a permanent depot is to be fixed, some heavy cuttings are being excavated that will require at least two months to complete. About two hundred graders are at work, but this force will soon be largely increased by the accession of the laborers now engaged on the Inyo wagon road. Altogether the work was going forward more rapidly than was anticipated. A surveying party is just in advance of the graders, evidently working with the utmost care and exactitude.

☞ A project is on foot to build a railroad from Burnett's Station to Knight's Ferry, and thence to Sonora. It is stated in Sonora that a company has been formed in San Francisco for that purpose, and that the stock is subscribed.

☞ Over $100,000 of stock of the Los Angeles and Independence Railroad has been taken in Los Angeles. The project is rapidly gaining favor with the people.

☞ The announcement of the resumption of Messrs. TURNER BROTHERS, which took place on the 1st inst., was received by their friends and the street generally with great satisfaction. Their office is at 14 Nassau street, where they do a general banking business, make collections in all parts of the country, buy and sell gold, stocks and bonds upon commission, and make advances upon approved securities.

☞ A Springfield, Ill., special says George N. Black, of Chicago, has been appointed Receiver for the Springfield and Northwestern Railroad on application of the bondholders. This road was recently completed and runs from Springfield northwest to Havanna, Illinois.

☞ The Delaware and Hudson Canal Co. have awarded the loan for $2,000,000 of their seven per cent. currency bonds, due 1894, to Morton, Bliss & Co., and L. Von Hoffmann & Co, at 101.11 and interest.

☞ Messrs. Kuhn, Loeb & Co., Bankers, No. 31 Nassau street, are offering to investors and capitalists a limited amount of the Cincinnati Municipal 7 3-10 per cent. bonds.

THE NEW YORK ELEVATED RAILROAD COMPANY,
OFFICE, No. 7 BROADWAY,
NEW YORK, Jan. 25, 1875.

NOTICE.

SEALED PROPOSALS WILL BE RECEIVED by the undersigned at this office until Monday, Feb. 8, 1875, at 12 o'clock M., for all or any part of Five Hundred Thousand Dollars ($500,000,) of the first mortgage convertible 7 per cent. Bonds of this company, in sums of $1,000 or any multiple thereof.

Terms of payment—5 per cent. of the amount bid to accompany proposals, for which certified checks may be inclosed, which will be returned to bidders Feb. 8, unless the bid is accepted; 20 per cent. Feb. 15; 25 per cent. March 1; 25 per cent. March 15; and the remaining 25 per cent. April 1 next.

The company reserve the right to accept such bids as it deems for its best interest.

For further information apply at the office.

M. COURTRIGHT, President.

OFFICE PENNSYLVANIA RAILROAD CO.,
PHILADELPHIA, January 11, 1875.

NOTICE IS HEREBY GIVEN THAT THE Pennsylvania Railroad Company will pay, upon presentation, before March 6, 1875, their Scrip issued for the dividend December 6, 1873, at par, and accrued interest thereon to date of presentation.

On the 6th of March, 1875, this Scrip will cease to bear interest, and the Company will pay all that may then be outstanding.

BAYARD BUTLER, Treasurer.

FISK & HATCH.

A Foreign Financial Plan AMERICANIZED.

Ten Dollar Bonds.

POPULAR LOAN.

The Great Southern Railway Co.

(CONSOLIDATED)

UNDER CONSTRUCTION IN

GEORGIA & FLORIDA,

OFFER FOR SALE ITS

First Mortgage Land Grant and Premium Bonds.

Payment Secured by First Lien on 500 Miles of Railway, Equipment, Franchises, Steamers,

and

6,400,000 Acres

of selected Yellow Pine, Cedar, Live Oak, Cotton, Sugar, and other valuable Agricultural Lands. Also a Sinking Fund from Earnings of the Road.

Bonds Redeemed, with Premium, Six times in each year, beginning January, 1875.

Every Bond, when Redeemed, must receive a Premium from $1.00 to $50,000, besides the Original cost of the Bond.

The Company will receive the Bonds at par in payment for Land and for transportation of passengers and freight over its line.

The Great Southern Railway Company is incorporated by the Legislatures of Georgia and Florida. It is designed to connect the Railway system of the United States with Cuba and the other West India Islands, Southern Mexico, and Central America, the Panama Railway and South America. It is a direct, immediate, *and the only possible railway line*, stretching four hundred miles South of any other railroad, *between the temperate zone and the tropics of America*, between 50,000,000 people in the United States and Canada, and 40,000,000 in the West Indies, Central and South America.

It will reduce the water transportation between the Railroad system of the United States and Cuba **to a run of only Five Hours by Steamship,** *and to Southern Mexico, Central America and South America it will shorten the line* **Sixteen Hundred Miles** *over the route now generally traversed.*

In a Political and Military point of view, the importance of this line to the United States can hardly be overestimated.

In the transportation of **U. S. Mails, Express and Fast Freights, Military Stores and Supplies, Sea Island Cotton, Tropical Fruits, Market Gardening,** &c., it will do a larger business for the length of its line than any railway in the United States.

It will be a Commercial and Political bond of peace and amity between the people of North and South America.

HON. THOMAS W. OSBORN, *President.*
JAMES W. JOHNSON, *Treasurer.*
WM. F. WHEELER, *Secretary.*

☞Orders for Bonds, and for Circulars, Maps, etc., apply to

EMIL HAAS & CO., FINANCIAL AGENTS,
71 Broadway, New York.

The Narrow Gauge Road from Shelburne Falls to Montpelier.

J. Sprague of Conway, the engineer for the proposed Deerfield River Narrow Gauge Railroad, passed over the line from Weston to North Sherburne, and from there over the line of the Montpelier and Rutland narrow gauge road to Montpelier, Vt., last week. Very general interest is felt on the line, and the determination is expressed by the leading citizens to secure its construction at an early day. Meetings were held at Rochester and Waitsfield, at which Mr. Sprague and Samuel Wells of Montpelier addressed the citizens in the interests of the road. Committees were appointed to solicit subscriptions to the stock, and earnest work will be done to secure the new line. The route north of Mt. Holly station passes up the Black river through the town of Plymouth, thence up the Ottauquechee river through a corner of Bridgewater and the town of Sherburne, thence down the Tweed river to the White river in Stockbridge, thence up the White river through the towns of Rochester, Hancock and Granville, thence down the Mad river through Warren, Waitsfield and Moretown to the Winooski river in Middlesex, and up that river to Montpelier, about 54 miles. This is a much more feasible route to build than the Deerfield road, passing through a very level country nearly all the way. No grades will exceed 80 feet per mile, and most of it will not exceed 30 to 40 feet. This route includes a large amount of wild timber lands, iron mines and marble and lime-stone quarries, which would furnish freight as soon as the road can be built.—*Springfield Republican.*

Equipment, Mileage, etc., on the Philadelphia and Reading Railroad.

There are on the Philadelphia and Reading Railroad 405 engines, of which 350 are first class engines, 47 second class, 2 third class, and 6 fourth class; in all, 405 engines. There are 3 eight wheeled iron coal cars, 7,762 eight wheeled wooden coal cars, 1,874 four wheeled iron coal cars, and 5,434 four wheeled wooden coal cars; in all, 15,073 coal cars. There are 1 sixteen wheeled platform gun car, 1,108 eight wheeled house cars, 114 eight wheeled cattle cars, 2,047 eight wheeled gondola cars, 221 eight wheeled lime cars, 28 four wheeled house cars, 26 four wheeled gondola cars, 21 four wheeled sand and ore cars, and 253 four wheeled lime cars; in all, 3,819 freight cars. There are 220 eight wheeled passenger cars, 44 eight wheeled baggage cars, and 15 eight wheeled mail and baggage cars; in all 279 passenger cars. There 10 eight wheeled house cars for wreck trains, 16 eight wheeled gondola cars with cranes, 2 eight wheeled crate cars for sawed wood, 5 four wheeled house cars for wreck trains, 58 four wheeled open cars for cord wood, 3 four wheeled open cars for depot fuel, &c., 8 four wheeled dump cars, 116 four wheeled cabin cars for signalmen, 59 stationary steam engines, 18 snow plows, 25 carts, wagons and drays for freight and materials, 47 express wagons, 211 horses and mules, 75 express horses, 45 extra tenders for locomotives, 3 dirt scows, and 1 four wheeled sweeping car. There are in the roadway department 11 eight wheeled house cars, 90 eight wheeled gondola cars, 98 four wheeled gondola cars, 23 four wheeled house, crane and scale test cars and 328 dumping cars, in all 550.

No additional passenger cars have been built during the year, although ten new ones have been built in place of an equal number which were unfit for further service. As during the past season there have been frequent occasions when the company was pressed to meet the demand upon it for the transportation of passengers, and with the prospect of a further increase of travel during the ensuing year, which will be largely augmented during the Centennial year, the General Superintendent thinks it advisable to add freely to that branch of the company's equipment.

The total number of miles run during the year was 8,119,077; the average weight of through loaded coal trains down, exclusive of engine and the tender, is 888.2 tons; average weight of empty coal trains up, exclusive of engine and tender, 297.9 tons; average weight of through passenger trains, exclusive of engine and tender, 116 tons; cost of repairs of engines, including wages, material, &c., $456,245 81. The total miles run by all engines owned and used by the company from May 1838, to November 30, 1874, were 91,925,904.

The cost for repairs to or renewal of coal and freight cars was $824,528 86, and for passenger cars $121,016 64.

A statement of the general superintendent gives the items of cost in detail of hauling coal per round trip of 190 miles, from the coal region to tidewater and back with empty cars. The cost of transporting average loads of 636.7 tons, and average through load of 512.6 tons, of 2,240 each, is $151 34.

The average cost of running a through passenger train at 61 passengers per train, is $40 86.

The average cost of running a through freight train is $54 95.

Fitchburg Railroad.

At the annual meeting of the stockholders of this company held in Boston on the 26th ult., the annual report of the directors for the fiscal year ending September 30, 1874, was presented, accepted and ordered to be placed on file. The following gentlemen were then elected directors for the ensuing year: Wm. B. Stearns, Charlestown; P. B. Brigham, Boston; Seth Bemis, Newton; Robert Codman, Boston; and Rodney Wallace, Fitchburg.

The next business was to accept the act of the Legislature passed Jan. 30, 1874, to authorize the directors to re-locate certain portions of the road.
